The Commonwealth representatives discussed the reasons for the difference between their January 1973 estimate of \$2,900,000 and their revised project budget of \$8,735,000 based on bids received September 20, 1974.

Commonwealth
Assoc. report
re bids on
precipitators
for Power
Plant 65

Among the points raised by the Trustees were:

- a. Whether the problem of the elimination of noxious gases could be dealt with at the same time the precipitators are installed
- b. Would the installation of one precipitator rather than two be adequate at this time?
- c. Because of inflation, is there a possibility that environmental requirements might be relaxed?
- d. Is it possible that when the cost of money comes down the utility companies may go ahead with the fossil fuel power plant expansion they have cancelled, thus making a greater supply of natural gas available?

Alternatives will be discussed with appropriate state agencies and developments will be reported to the Trustees.

4. Executive Vice President Breslin reported that the trustees of the Akers Trust Fund recommended that the Fund provide the necessary funds to complete an additional 9 holes on the east golf course.

Other Items

D. OTHER ITEMS FOR ACTIONEmployment of
Handicapped
Persons policy

1. As an equal opportunity employer, Michigan State University recognizes its responsibility to encourage the employment of handicapped persons consistent with their abilities to meet the requirements of the job to be performed. In order to facilitate such efforts, Michigan State University will, when feasible, provide such services as job counseling, on-the-job training for the employee and supervisor-awareness-training and removal of architectural barriers.

Existing administrative units are charged with responsibility for coordinating the implementation of this policy. All units of the University are expected to cooperate fully and to take individual initiative, as opportunities arise, to improve employment opportunities of handicapped persons both presently employed or newly hired.

RESOLVED that the above policy is approved.

Motion was made by Trustee Merriman, seconded by Trustee Huff, to approve the resolution.

It was the feeling of several of the Trustees that the statement could have been written with a more affirmative tone. Some of the Trustees also felt that there should have been more handicapped student input in the drafting of the statement. Questions regarding physical examinations and the employment of mentally handicapped were also raised.

Trustee Merriman, with agreement by Trustee Huff, suggested that action on the proposed policy be tabled. Further study will be given to the issues raised by the Trustees and a revised statement submitted for consideration at the November Board meeting.
