VOL. 4.

LANSING, MICHIGAN, TUESDAY, JANUARY 3, 1899.

No. 16

Meeting of State Board of Agriculture, December, 27, 1898.

Present, President Wells, Messrs. Monroe, Garfield, Bird, Marston, President Snyder and the Secretary.

Minutes of last meeting read and approved.

President Snyder reported that a Hazelton furnace had been placed in the Vedder house.

The committee on remitting fees to two students from Cuba, should they attend under the auspices of the Cuban Educational Association, reported recommending that tuition and incidental fees be remitted to two such students. Report adopted.

President Wells of the committee to present estimates to the Board for needed State appropriation for the College, to be presented to the legislature, reported as follows:

Women's Building	\$75,000
Heating and Furnishing the Same	15,000
Dairy Building	15,000
Farm Barn	5,000
Book Stack for Library	6,000
Repairs of Buildings	12,000
Renewing heating in Williams and Wells Halls	2,500
Fire Escapes for Williams and Wells Halls	500
Student Labor	5,000

Report adopted.

A recess was taken to 8:30 a. m. Wednesday.

Wednesday, 8:30 a. m. Board met, same members present.

President Snyder presented resignation of F. E. Skeels as Assistant Secretary, to take effect January 1, 1899. Resignation accepted.

Pres. Snyder presented a scheme for College extension work. That part of the scheme relating to legislative appropriation for Farmers' Institutes was taken up. It was moved that the amount be placed at \$5,500 per annum for two years. On motion of Mr. Marston, the amount of \$5,000 per annum for two years was ordered placed in the estimates to the legislature for Contingent Building.

It was *Resolved*, That the president and secretary be directed to prepare a bill embodying the appropriations asked for, and have it properly introduced in each branch of the legislature. The balance of the report was referred to the special committee on extension work.

Mr. Bird moved to allow F. E. Skeels \$197 for extra services in making maps and time given to correspondence in connection with College lands and maps for bulletin. Carried.

Pratt & Koeppe submitted the following and asked the Board to accept it in lieu of a bond required by the Board in awarding first prize for plans for women's building:

To the State Board of Agriculture, Lansing, Mich.

Gentlemen:—

We, the undersigned, architects for your proposed women's building, do hereby covenant and agree with your board as follows:

1st. Just as soon as the appropriation for the erection of this building is assured, we shall proceed at once to make all necessary working drawings and specifications for the building and completion of the same, according to the sketches and

descriptions submitted by us and adopted by your Board.

2d. The Board of Agriculture shall then proceed to procure responsible contractors for the several works, the total cost of which shall not exceed the sum of \$75,000. It being mutually understood, however, that due allowance shall be made for any advance in the price of work and material from the time when our estimate was made up to the time of letting the contracts.

3d. Should the Board fail in procuring contractors for the completion of this building for the stipulated sum of \$75,000, the Board of Agriculture shall be released from any and all liability on account of any plans or specifications prepared by us, excepting the prize of \$150, in which event the drawings and specifications are to be the property of the Board, said plans not to be used except under our direction and for our benefit.

Respectfully submitted,

(Signed) PRATT & KOEPE.

Mr. Bird presented the following resolution which was adopted:

Whereas, Messrs. Pratt & Koeppe to whom has been awarded the first prize in the competition of architects to furnish plans for a women's building, have submitted an agreement in lieu of the bond requested by the Board in the awarding of said first prize, and whereas, the submitted agreement is considered adequate security by the Board,

Resolved, That Pratt & Koeppe be released from the fulfillment of the provision relating to said bond in the resolution of the Board awarding them first prize, and that in lieu thereof, the Board accepts the conditions of the agreement made this day by Pratt & Koeppe.

A recess was taken to 1:30 p. m.

1:30 p. m. Board met, same members present. On motion adjourned.

Reunion of M. A. C. Association.

The fourth annual reunion of the M. A. C. Association, held in the parlors of the Plymouth Congregational Church last Tuesday evening, was attended by nearly forty former students of M. A. C., and by the State Board of Agriculture and many members of the faculty who were not students.

After the banquet, while the guests were still at table, C. B. Collingwood, president of the association, started the informal toasts. He spoke of the rapid leaps in history our country has made during the past year and called attention to the fact that M. A. C. has also been making leaps. He thought we might all be considered expansionists, looking to the final realization of a "Greater Agricultural College."

Hon. C. J. Monroe spoke for the "Old Agricultural College," and was glad to see so many teachers among the M. A. C. crowd. President Snyder responded to the "New Agricultural College," thanked the alumni for their loyal support in the past and called upon them for a continuance of the same.

President Charles McKenny, of the Mt. Pleasant Normal School, remembered with grateful pleasure the four years spent here. While his work since leaving M. A. C. has

taken him away from the farm, he credits much to the first incentives that he received in this institution. He believes that the College has not yet begun to reach its limit of usefulness.

Charles E. Sumner '79 was called upon for reminiscences of twenty years ago, and he responded very happily. In his more serious vein he called attention to the wonderful field of usefulness open to the College in rearing a bulwark against the dangers of demagogism that threaten our country. The ignorant farmer is susceptible to the passions and clamors of the demagogue; it takes the educated farmer to resist them.

Prof. L. H. Bailey '82 paid a glowing tribute to ex-President Abbott and his work of love for the College. It was with surprise that he found, in looking over Dr. Abbott's outline of work, so many studies intended to broaden the man. This College has a wonderful reach into the future, not because it makes laborers or farmers, but because it educates the great middle classes. The humanistic side of the College has not been emphasized enough; there is a great diversity of interests among its graduates, and it has been successful because its work has been adapted to the varying needs of its constituency.

The last speaker was E. Dwight Sanderson '97, who spoke of the work of the College in preparing young men to go on along special lines of study in higher institutions of learning.

After electing J. D. Towar '85, president, and D. J. Crosby '93, secretary, the association adjourned.

Bible Lecture Course.

The College has been fortunate in securing R. G. Moulton, the distinguished scholar and teacher, of Chicago University, to give a course of Monday evening lectures on the Bible. The dates and subjects of the lectures are as follows:

Jan. 9. "The Bible as a Story Book."

Jan. 23. "Oratory of the Bible."

Feb. 6. "Biblical Philosophy or 'Wisdom.'"

Feb. 20. "Lyric Poetry of the Bible."

Mar. 6. "The Dramatic Literature of Scripture."

Mar. 20. "Bible History as a framework of Bible Literature."

These lectures will be free to students; admission to others will be 75 cents for the course.

Senator Justin S. Morrill Dead.

The death of Senator Justin S. Morrill, of Vermont, occurred early Wednesday morning, December 28. Half a hundred educational institutions in our country mourn the death of this man, who, more than any other, was instrumental in securing appropriations from the general government for the endowment of agricultural colleges. This college will honor his memory by holding special memorial exercises.

John F. Nellist with '96m called at the College December 22.

Pres. Charles McKenny '81, of Mt. Pleasant Normal School, was elected president of the State Teachers' Association.

E. C. Green '98 visited friends at the College last week. He is now assistant entomologist in the University of Illinois.

Prof. L. H. Bailey '82 and family of Ithaca, New York, spent last Tuesday at the College with Prof. and Mrs. Vedder.

E. M. McElroy '93 attended the Teachers Association last week and visited his alma mater for the first time in several years.

O. C. Howe '83 has been appointed chief of the department of agricultural statistics in place of Robert L. Hewitt and has already taken possession of the office in Lansing.

A paper on "Our Bitterns," by T. L. Hankinson '98, was read December 27 before the Michigan Ornithological club in Detroit. L. Whitney Watkins '93 was elected secretary of the club.

H. E. Van Norman '97 spent the holiday week in Lansing and at the College. He is farm superintendent and has charge of the dairy work at Purdue University, and was recently elected secretary-treasurer of the Indiana Dairy Association.

Born, December 22 at Beaver, Utah, Ruth Louise, daughter of Mr. and Mrs. E. D. Partridge '96. "Pat" says: "I will now perhaps begin training for the mile walk. I used to run the mile twice a day, but now I walk the floor many times a night."

On December 20, Mr. H. G. Reynolds '70, and wife of Pasadena, California, were out driving, when the horse became frightened and both were thrown from the buggy. Mrs. Reynolds was quite seriously injured but at last accounts was slowly improving.

Abijah Wixom with '62 visited the College last Saturday for the first time in 38 years. He helped clear the farm of timber, and forty years ago set out the white pine tree between the library and veter-

inary laboratory. Mr. Wixom is now engaged in farming at Farmington, Oakland county.

E. Dwight Sanderson '97 spent the holiday vacation at his home in Lansing and was a frequent caller at the College. His present employment is in the entomological department of Maryland Agricultural College, College Park, Md. He has an article in the *Michigan Farmer* for December 17 on "Bagworms."

C. E. Meyers '96m writes that he has been engaged in civil engineering—railroad location and construction—since last January. Up to the first of September he was in Indian Territory and western Oklahoma; since that time he has been in Arkansas, with headquarters at Perryville, where he expects to remain for at least six months more.

C. C. Pashby '94m, who is now employed on the "Yazoo Miss. Delta" levee, has secured a promotion, and is now engaged in rebuilding what is said to be next to the largest siphon in the world. The pipe is two feet in diameter and three hundred feet long, and is designed to carry the waters of a bayou over a levee about twenty-eight feet high.

Still Looking for "Dents."

We, as teachers, seldom realize how strongly the little things are impressed upon the minds of the students in our charge. How tenaciously they do cling to memory is illustrated by the following letter to Dr. Beal from F. W. Hunter with '79, now private secretary to the mayor of Grand Rapids:

"I have always wished to thank you for one of the lessons that I learned while at the M. A. C. That is the necessity of close observation. I learned this of you some 23 years ago, when as a student I was one of a class under you, trying to find in what way the common dandelion differed from other plants. I was lucky enough to notice the 'dents' and you complimented me. I did not deserve the commendation at that time, but I have been looking for the 'dents' ever since."

ALL MEATS....

May look alike to you, but there is a very great difference in the quality we handle and that sold by some other markets. We handle none but the very best. Like the pudding, the proof of good meats is in the eating. A trial will convince you that you ought to trade with us.
