Vol XXVIII    Sept. 8, 1922    No. 1

# The M. A. C. RECORD.

ESTABLISHED IN 1896

Entered as second-class matter October 30, 1916,  
at the post office at East Lansing, Michigan,  
under the Act of March 3, 1879.

Published every Friday during the College Year  
by the Michigan Agricultural College  
Association.

E. W. Ranney, '00, Greenville	Pres.
A. B. Cook, '93, Owosso	Vice-Pres.
F. F. Rogers, '83, Lansing	Treas.
R. J. McCarthy, '14	Secretary

Members of Executive Committee.  
Elected at Large:

Henry T. Ross, '04, Milford.  
Mrs. Dorothy Lillie Crozier, '17, Grand Rapids.  
Horace Hunt, '05, Jackson.

MEMBERSHIP IN THE M. A. C. ASSOCIATION  
which includes subscription to the  
Record, \$2.50 PER YEAR.  
Make Remittances payable to the M. A. C.  
Association.

Unless members request a discontinuance it will be  
assumed that a renewal of membership is desired.

## PRESIDENT DRAWS MANY TO CAMPUS

Thousands of men and women have visited the campus during the summer and enjoyed its scenery. Touring parties, picnickers, and conventions have been daily occurrences. But one of the main attractions for the gatherings has been the opportunity of hearing President Friday discuss economic subjects. Five thousand people from the farms met in the Forest of Arden on August 4 to see the live stock parade and hear the various speakers who had been chosen to make a complete program but most of them were drawn here to listen to the new president expound his doctrine and deduct his predictions.

He has sent them all away thinking. To the farmers, the salesmen of the Grange Life Assurance company and the other groups of visitors he has preached a policy of better farming through the improvement of the productive unit. He told the rural visitors the income of the agricultural industry of the state should be increased by \$50,000,000 within the next five years and he told the weekly editors he needed their help and the help of every community to bring about this betterment. He intends to accomplish his end through the cooperation of the people in eliminating the culls among their herds and flocks and the use of better seed and more efficient farming methods.

Not only has the president talked to the visitors to his "front porch" upon these topics of such vital interest but through the Review of Reviews he has explained to the public why the farmer believes railroad wages are now too high and must go lower before a balance is established. In System he discusses the trend of business and its effect upon interest rates. He says the law of supply and demand is the governing factor which determines the cost of hiring money, and he believes there will be a greater supply of capital than industry will absorb for some time to come. The New Republic has also printed several of his articles in which problems of economics are discussed.

In nearly a column of editorial comment the New York Sun upholds President Friday in his contention that the farmer believes railroad wages should be reduced. The New York World also quotes extensively from his opinion, the Detroit Free Press has several times supported his views in regard to the farming interests of the state and other newspapers generally favor the sentiments he has expressed.

## JUNIOR ENGINEERS HAVE NEW COURSE

In discussing the new engineering administration course to be instituted under his department this fall Dean Bissell says: "We have needed something of this sort for a long time. I feel that the engineering students of M. A. C. must have a broader education to compete upon equal basis with those of other colleges and I believe this is going to add materially to the attractiveness and general usefulness of our course."

Study of finance, business relations, industrial problems and the laws of commerce will be elective for junior engineers of all departments in the division who wish to major in administration when college opens this fall. Some of the more advanced subjects of the technical curricula will be dropped in favor of the new work. Nearly 50 per cent of the class of 1924 have signified their intention of enrolling in the course.

R. S. Steiner, a graduate of Beloit college who spent two years in graduate study in the Harvard School of Business Administration, will have charge of the first classes. Dean Bissell states that within another year when the two-year course gets into full swing the department will be well-organized and fully manned.

P. J. Baker, '08, has resigned as instructor in the mechanical engineering department to accept a position with the Motor Wheel corporation of Lansing. He taught metallurgy and will be replaced by C. R. Wiggins, '20.

## BOARD APPOINTS AN ACTING DEAN

Mrs. Louise H. Campbell, since 1920 state director of home demonstration agents, has been appointed acting dean of the Home Economics division. Mrs. Campbell is a graduate of the North Dakota Agricultural college and has had long experience in work of the type which her new duties will require. Other changes in the department were authorized by the State Board and will include the appointment of a social director to take up the duties formerly performed by the dean of women. She will have charge of the women's dormitories, the matron in each building being answerable to her.

How about the Union Building Fund? Your subscription will draw others.

## MAJOR WRIGHTSON LEAVES FOR WEST

After building up the M. A. C. military department from its embryonic stage of pre bellum days to its present state of efficiency and reaping some of the satisfaction from his work by seeing his proteges take highest honors among colleges of this type in 1919, Major P. G. Wrightson has been returned to the retired list and will leave East Lansing about Oct. 1. During the five years of his service here which started shortly after the war began Major Wrightson has demonstrated many times that he was scholar as well as soldier. He has cooperated closely with the faculty and turned his attention to matters

Major P. G. Wrightson

military as much from the viewpoint of a professor as he could in keeping with his duties.

From the war department he has received commendation for his work and from the graduates of his course as well as the other students who have passed under his direction he has had unstinted praise. He intends to go from East Lansing to San Diego, Cal., where he expects to enter high school work if he finds it desirable. He is a graduate of the University of Chicago and entered the army after earning an advanced degree.

He has a host of friends in the college community and among the alumni who wish him health and happiness in his new surroundings.

## GINGRICH MAKES MARK IN MUSIC

A recent issue of the Music News contains the following article concerning the work of Irving Gingrich, '02a:

"Irving Gingrich, who has had the management of the H. S. Talbot & Co. music printing plant for the past three and a half years, has resigned his position to take effect on or about September 1 to re-engage in his former occupation (composing, arranging, editing and autographing of music). He has accepted several important contracts from Chicago publishers and when not engaged in the above pursuits will devote his energies to the up-building of the Western Music Library, of which he has been treasurer since its incorporation. Mr. Gingrich has been adding to the autographed orchestrations of various operas as time would permit and his new occupation will enable him to devote an additional amount of time to this branch of the library's service.

"Mr. Gingrich has arranged with the veteran librettist, Jeff Brenan, to collaborate with him on a musical comedy with an historical background. The first of the two acts has been sketched and part of the music written. It is planned to complete the work during the coming season so as to be ready for the following year. An operetta for unchanged voices has also been written with Laurene Highfield, and this will be published during the coming season.

"The list of published compositions by Mr. Gingrich includes three sacred songs, four secular songs, three anthems, four mixed choruses, one ladies' chorus, three male choruses, two two-part songs and four unison songs. Four organ compositions in manuscript have been used by several of Chicago's best organists in service and recital. He has also made the orchestration for the Sabbath school hymnal "Allalulia" for the Presbyterian Board of Publication and Sabbath School Work, which has just come from the press.

R. B. ("Buck") Weaver, member of the staff of the English department, has been chosen to take up the position of student pastor which was vacated by O. W. Behrens last spring. Behrens enters college this fall to specialize in rural sociology and economics. Weaver will continue to teach one class in English.

The next issue of the Record will appear on Monday, Oct. 2, and thereafter it will be published on that day of the week until further notice. This change has been made at the request of many of the alumni who want to have their stories of athletic events and other happenings as fresh as possible.

# DETAILS OF NEW LIBRARY

"Whatever else I may accomplish I feel that this new library will stand as a monument to what I am attempting to do for M. A. C.," said President Friday just as he turned the first sod at the southeastern corner of the new structure. "This building means that for years to come the college will be equipped with the best facilities for study and research. There will be room for expansion so that when we have an enrollment of 5000 we shall also have the necessary reference books and accommodations for that number. It can stand as an achievement worthy of any man's best efforts in the interests of education."

Red brick and Ohio sandstone will be used in the construction, the trimming will be of oak and the floors will be covered with battleship linoleum. The outside dimensions of the building will be 150x84, three stories in height, with slate roof. Approximate cost, \$450,000.

There will be entrances on two levels, the front of the building will be on the north side corresponding with the front of old Williams and another entrance will be provided on the lower level facing Olds hall.

The stack room will be a mammoth affair of six stories of cases. On each floor there will be six carols, or alcoves, each provided with two windows. In connection with this there will be a book lift and automatic elevator.

The plans which have been prepared by the architect, some of which may be altered before the building is completed, call for a main corridor opening from the north entrance to

include the main stairway. On the left there will be a magazine and periodical reading room from which will descend a stairway to the bindery where these will be prepared for filing. Then there will be a graduate study room connecting with the stack room. On the left of the main staircase will be an office for the librarian and a private office. Included also along this corridor will be an assigned reading room and a sessions and catalogue room.

From the south entrance the approach will be made through a corridor on a level lower than the north door. On this floor there will be a receiving room, delivery room, ward-ropes, staff room, kitchenette, rest room and bindery.

On the second floor at the left of the stairway there will be a delivery room connected with the stack room and the main reading room which will be 45x80 with a 22 foot ceiling. East of this there will be conference, seminar and map rooms. On the third floor will be a 33x80 room to house the museum. Both this and the main reading room will have circular ceilings.

President Friday is working to make the library serve the full need of the college. He plans to make it as efficient and accessible as possible with a thoroughly trained staff. It is expected that the building will be completed in time for dedication ceremonies next June.

A description and elevation drawing of the new home economics building will be printed in the next issue of the Record.

Elevation Drawing North Side of New Library

## VIEWS AND COMMENT

### A CHANCE TO BACK A WINNER

Never in the history of the college or the association has there been a greater need for close cooperation among the former students and graduates than exists today. M. A. C. is going through a period of transition. It is being expanded and developed as it has never been before. New policies are being put into effect; new faces are appearing on the campus. The association has been placed upon a basis of self support, a condition which it should have attained years ago in order to render the maximum of service to the institution and its members. But to have either movement accomplish its purpose it must have the full support of all.

When M. A. C. graduates reach the heights of fame; when the work of the college is a contribution to the sum of human knowledge; when an outstanding athletic team is developed at your old school, you swell up with pride and go around announcing your connection with the Green and White, but when there is a struggle under way, when a forward step of great proportions is being taken are you there with the helping hand which will give you full reason to feel proud of the results obtained? That is the true test of loyalty.

M. A. C. and the M. A. C. association are ambitious to reach their places in the sun. Your constructive criticism, your support will make possible their achievement. You cannot afford to be left off the roster of those who have the will to do. The college and the association need your active efforts. Climb aboard the bandwagon.

### NEW COURSE COMES CLOSE TO IDEAL

Graduates, members of the faculty and other educators have criticized any course in engineering as too narrowing for the general good of the individual. None have labored more conscientiously to overcome this handicap than the M. A. C. authorities. Efforts have been made through special English courses to broaden the education of the technical man but none of them have given the measure of success which is promised through the new course in Engineering Administration which will be taught for the first time this fall to such as elect it in the class of 1924.

Dean Bissell says it will give the men the training they have previously found necessary to obtain after graduation while in no way will the regular education of the engineer be slighted. Banking securities and investments,

transportation, business law, industrial management and various economic and commercial subjects will occupy part of the attention of the busy engineer. Instructors specially schooled along these lines will bring the most modern knowledge of these subjects to the attention of the men and after their two year course they will be in a position to take their places in the business and financial worlds with the added advantage of a technical education.

This is but one instance of what is happening at M. A. C. Many more will develop as plans are perfected. It is generally considered a distinctive advance in the field of education which will result in greater advantages to the engineering students of the college.

R. S. Simmons, '18, writes: Still assistant district manager California Fruit Growers' Exchange, selling Sunkist oranges and lemons, shooting a fair game of golf in spare moments and enjoying life in general. Couldn't make commencement this year—first time since 1915 that I haven't been around for part of the festivities. Hope the event was a great success, that some progress was made on the Union building plan and that some expression of sentiment favoring the change to Michigan State College which I certainly strongly favor. I cannot agree with Weil that we should retain M. A. C. as a name because it has always been that way. The heavy end of the alumni seem to favor the change and to my mind we'll certainly get more loyal support from them by giving them what they want than by trying to enforce loyalty to the old name which I assure you is very little asset to the great majority of our alumni who are in general business or professional pursuits.

The new library will cover a spot rich in memories for Aggie grads over a long period of years. It will replace Williams hall, reaching close to the foundations of College hall and taking up part of the location of old Saints' Rest. It will occupy a commanding place in the group of campus structures and will be readily accessible from all parts of the college.

Among the M. A. C. graduates who are anxious to learn the result of the primary voting on Sept. 12 is Henry T. Ross, '04, who is a candidate for re-election to the state senate from the 13th district. Ross has served several terms in the legislature and during the last session he was chairman of the senate committee on the affairs of M. A. C.

## *"Close Beside The Winding Cedar"*

Skating and canoeing will become more generally patronized sports this year. The Red Cedar above Farm Lane bridge has been raised several feet by the construction of a new dam in the rear of Engineering hall.

Construction of the new piggery west of Farm Lane and south of the college nursery is under way and the objectionable part of the farm buildings will soon make way for a continuation of the campus.

A check on the highway traffic between Lansing and East Lansing showed Michigan avenue and Grand River avenue east to be the heaviest traveled route in Ingham county. An average of more than seven cars per minute passed a given point between 7 o'clock in the morning and 9 in the evening. It is probable that this will be sufficient proof to bring about considerable highway betterment in the near future.

### TURNING THE FIRST SOD

President Friday Starts Library

It was found necessary by the Board to use the Johnston house for the women so the M. A. C. Union will be given the Barrows residence for this year.

J. E. Kotila, '18, is the author of an experiment station bulletin entitled "Spraying for Hopperburn," which is proving to be of considerable interest and value to potato growers. He recommends continual spraying throughout the growing season to curb the activities of this pest.

Holidays did not interfere with the work on the tunnel which will connect the service tube near the Woman's building with the new Home Economics building. The steam shovel and string of teams were busy last Saturday afternoon and all day Labor day, so that the job will be completed when college opens Sept. 27.

H. W. Mumford, '93, visited the campus during summer. Mumford succeeds Eugene Davenport, '78, as dean and director of the college of agriculture at the University of Illinois. Dr. Davenport became Professor and Dean Emeritus at Illinois last spring. He had been also vice-president of the university since 1920. An extract of Dr. Davenport's address at the Illinois commencement last June is printed elsewhere in this issue.

Dr. M. M. McCool, head of the soils department, has been invited to preside at a three-day lime conference to be held at the University of Tennessee at Knoxville Sept. 11-13, under the auspices of the American Society of Agronomy. Specialists will be present from 23 states. Dr. McCool will preside in place of Prof. L. E. Call of Kansas Agricultural college, president of the association, who will be unable to attend. Both McCool and Dr. George Bouyoucos of the M. A. C. department have been asked to prepare papers for the conference.

Mrs. Delora E. McElroy, widow of E. M. McElroy, '93, is the new matron of the People's church who assumed the duties of that office late in August. She has moved to East Lansing from Kalamazoo with her two sons, the older of whom, James K., is a sophomore at M. A. C. Mrs. McElroy's training as a teacher and her experience as a mother eminently fit her for the position as guide and friend to hundreds of new students and the niche she will occupy in the college community.

The office of matron was instituted at the People's church to serve the special needs created by the establishment of the S. A. T. C. here. Mrs. Margaret S. Holt was the first matron engaged and she resigned recently after four years of service.

## DAVENPORT TELLS OF COLLEGE AIMS

In his address at the University of Illinois last June, Dr. Eugene Davenport, '78, retiring as vice president of the university and dean of the college of agriculture, delivered an address upon "An Adventure in Education." In an introductory note to the printed copy of this discussion, David Kinley, president of the university, expresses the following appreciation of Dr. Davenport:

"In the retirement of Doctor Davenport, the University loses one of its great personalities. A great educator and scientist, his far-sighted vision of the agricultural needs and policy of the State and University have made him one of the outstanding figures in the Agriculture of the State and Nation. Although he leaves his influence remains. It will be reflected in the future as it has been in the past, in the work of the many men in educational as well as practical agriculture who received their training under his guidance and inspiration."

In his speech Dr. Davenport referred to the establishment of state universities and land grant colleges as an adventure in education whereby it was to be given to the "masses of men." He said the former objective of colleges was to train certain favored individuals for leadership but it has shifted to "life; how to understand it and how best to live it for the common good..... This means that today the student has become the means to the end rather than the end itself; and this is well."

In this changing of goals Dr. Davenport finds research taking predominance over instruction as it is through the improvement of methods and extension of knowledge in the various fields of endeavor that the world is bettered.

He explains that a state university or college is costly because it is limited by law concerning the work it can do and must develop its field of instruction, in many cases entirely new.

Advising the members of the graduating class he tells them: "You are going into the citizenship of the state debtor to society for a good part of the mental equipment with which you start out. And just as the University owes a constant obligation to the public because of its support, so does every student who leaves its laboratories and its classroom owe back to society a perpetual debt of gratitude that can be discharged only by faithful service."

Joseph Turner, '18, has been appointed county agent in Delta county and W. N. Clark, former instructor in animal husbandry at the college goes to Iron county in a similar capacity. S. J. Brownell, '16, is appointed an extension specialist in dairying and Verne Freeman, '14, goes onto the staff as extension specialist in animal husbandry.

## ANNA COWLES GOES TO PHILIPPINES

Anna B. Cowles, '15, has been given a very responsible position in Red Cross work in the Philippine Islands. The Manila Daily Bulletin says she is in charge of organizing the Junior Red Cross among the children throughout the territory. After graduating here Miss Cowles studied further at Ann Arbor and Columbia and then became an organizer of boys' and girls' clubs in this state. The war took her to the Council of National Defense in New York and after her work there she was put in charge of rural service in the Potomac division of the Red Cross. She was later appointed assistant national director of the junior Red Cross and about a year ago was sent to Manila.

Her work in the Islands has been the formation of Red Cross clubs among the children with each group working along specified lines. She spent the latter part of June and July in a tour of the southern part of the archipelago, visiting all the towns and starting clubs and directing their activities.

Miss Cowles' home is in Lansing.

## AGGIE SOLDIERS NOW CAN ENTER ARMY

Orders issued August 12 by the commanding general of the Sixth corps, area provide that three M. A. C. graduates may be appointed direct to the regular service provided they pass the required physical tests. The examinations will be held October 23 and applications should be forwarded to the military department at M. A. C. S. H. Patterson, colonel of the cadet corps in 1922, has entered his name for appointment. Service of the successful applicants starts January 1, 1923.

Although M. A. C. was not rated in the "distinction" class by the regular army inspectors it is given the same opportunity accorded colleges in that class through this order. No definite standing was given the local cadet corps units after the last inspection, according to Major Wrightson, who said: "From all the letters I have received from the inspecting officers there is not a better unit in the country. We have a well-rounded course here which meets with the approval of the authorities and I believe that in the matter of a year or so the school will again be classified with the best in the nation."

The Yale Bowl was constructed in 1915 at a cost of \$500,000. It seats, in the concrete structure, about 70,000 and with the temporary wooden bleachers inside the enclosure can accommodate 78,000. The gross return on at least one game each year is \$234,000. It is used only for football.

# HARD SEASON AHEAD FOR BARRON

## Walker is Added to Coaching Staff

Prospects for a well-trained, hard-fighting football team are excellent this season. With Bert Barron as acting director of athletics alumni can be assured that training rules will be religiously followed and that in the course of the season the squad will learn considera-

Acting Director Barron

letic department, a position which he has been trained to fill and he has an excellent grasp of the business of the office. And then there is Jack Heppinstall, genial trainer, without whom no team would be at its best. This completes the roll of a signally great board of strategy well-balanced and sur-charged with pep.

A reserve of pep will be needed for the squad which is to face the list of teams included on the 1922 menu. Alma has been considered a weak sister among college teams but you never can tell, see what Albion did last year. On September 30 when the first whistle blows there will be somewhat of a battle, that much can be assured. If good opposition does not come from the visiting warriors the competition among the members of the Aggie squad will put the game upon a high sporting level. Then Albion plays a return engagement on October 7. There will be blood on the moon the night before that crash. Memories of a stinging reverse can be wiped out only by a decisive victory and the Barron proteges can be looked to for action. Wabash will put up heavy barriers to halt the Farmers when they go to Crawfordsville the following Saturday and the Hoosiers are said to have the makings of a wonderful machine but that is neither here nor there, that contest will bring out the weak spots in the Aggie aggregation and

ble football but as it stands now the coaching staff will have to build the Big Green machine from material which as a general rules is composed of either mediocre experienced men or brilliant players without the necessary training in the sport to make them dependable.

To aid him in his efforts to put the Michigan Aggies into the forefront of the college teams Barron will have a man who has produced winning combinations in several places. Fred M. Walker comes to the athletic department with a wealth of schooling in handling all varieties of athletic teams. He will be advisory coach on the staff and will handle the All-Fresh contingent on the gridiron. In the winter he will have charge of varsity basketball and the spring will find him in command of the Aggie baseball squad. In both baseball and basketball he has a record which should augur well for his success in turning out winners, if the material is at hand. He is a graduate of the University of Chicago where he was a three-sport man.

Dick Rauch, demon line tutor, will put the finishing touches onto Barron's work with the big squad and there will still be Frimodig and Del VanDervoort to lend a hand. Frim has been promoted to office manager of the ath-

Capt. Johnson  
Football

Capt. Fessenden  
Basketball

show who is going to be the big gun for the season.

When it comes to Indiana and Michigan there is room for doubt that they will be the victims of M. A. C. aggressiveness but the assurance is always strong that the wearers of the Green and White will give an excellent account of themselves when they are faced by their strongest opponents. This season there is even more ground for enthusiasm than there has been for some time.

Director Barron is getting his system under way. With the arrival of the aspirants for athletic honors they will be apprised of certain rules to which they must adhere if they are to remain on the squad and the best possible combinations will take the field in every sport. All signs point to a season of building when the foundations will be laid for a truly representative group of athletic contenders.

## NEW INSTRUCTOR FOR GYM WORK

Rounding out the best staff the M. A. C. physical education department has ever boasted, L. D. Burhans has been engaged as instructor and will have charge of all minor intra-mural athletics as well as the regular training for students. He will have Jimmy Devers as a special aide to develop the combative arts for Jimmy will continue to preside over the boxing and wrestling groups.

Burhans comes to the college from the Lansing Y. M. C. A. where for three years he has been physical director. His experience also includes two years at the Lake Geneva school of the Y. M. C. A., one year at the Syracuse "Y," four at Kalamazoo "Y," and 18 months as a physical director at Camp Custer during the war.

He is especially well-fitted to develop a side of athletic activity which has been more or less neglected in the past. It is expected that his coming will result in a more general participation in sports by the student body and it certainly will mean an important step toward developing some of the latent talent which is usually found only by accident in schools where so much stress is laid upon purely intercollegiate activities.

## GRIDDERS GATHER FOR TRAINING

More than forty men will don football togs when early training starts the week of September 11. Among those who will gather under the eyes of Director Barron and his assistants are: H. K. Archibold, C. M. Archibold, R. B. Bilkey, J. O. Brady, D. A. Brown, T. F. Burris, B. R. Crane, H. Eckerman, E. C. Eckert, M. F. Elliott, T. Frank, H. H. Gasser, C. R. Gofton, Harry Graves, Wilbur Hart, H.

W. Hughes, Vivian Hultman, W. C. Johnson (Capt.), James L. Kidman, Roy L. Kipke, Ernest Lioret, Edmund Markle, R. A. Morrison, Elton Neller, J. L. Opfer, R. G. Richards, Durward Robson, Verne Schmyser, Carl F. Schultz, S. H. Sullivan, H. T. Swanson, Gideon Swanson, M. R. Taylor, P. F. Temple, Philip Teufer, R. F. Thayer, G. A. Thorpe, E. B. Wedge, H. A. Robinson, G. G. Robinson.

Many of these were members of the great All-Fresh team of last year and may develop under careful coaching into first class material. The others are drawn from the ranks of last year's varsity and scrub squads, all honest workers ready to give their best for the college.

## DEAN KEDZIE ILL

Dean Kedzie of the Applied Science division has been seriously ill since late in July but expects to be at his desk part of the time after Sept. 27. He underwent an operation for appendicitis about six weeks ago and has recovered sufficiently to allow him to be up for a few hours each day. "Uncle Frank" holds a warm place in the hearts of alumni and there have been many expressions of hope that he will soon recover his health.

Irma Thompson Ireland, '00, contributes to one of the recent numbers of "The Trend," a bi-weekly magazine published in Philadelphia dealing with current history and letters, an article which she entitles "Concerning Atoms and Their Activities." It is a series of comments upon the present social system and outlines one of its weakest points. She writes in a vigorous realistic style which carries the interest of the reader. Perhaps one of the best features of her contribution, at least to those who are interested in her through her connection with M. A. C., is the autobiography appended to the article in which she describes in remarkable detail, although in small space, the history of her life.

"Uncle Frank" is so proud of what Dr. A. C. Redding, '83, has done after surviving one of his courses in chemistry that he has sent us the monthly publication of the California state mining bureau in which appears a translation of an article upon "The Metallurgy of Platinum" in which work Dr. Redding collaborated. Dean Kedzie says: "Dr. Redding seems to have established himself as a mining and metallurgical expert, even if he did graduate from an agricultural course. He early showed a great love for chemical investigation and has pursued it both as a teacher and as an experimentalist." The article was originally published by a French scientist and deals with the different methods for obtaining platinum from ore. The introductory paragraph explains that it is one of the few authentic discussions upon this subject which have been issued in the English language.

# AT THE ASSOCIATION MEETINGS

## Several Picnic Gatherings

During the National Home Economics association meetings at Corvallis, Ore., a group of ten M. A. C. alumnae and former instructors gathered at luncheon on August 4 in honor of Miss Mary Sweeney, former dean of home economics. Reminiscences of days in the Coop and Howard Terrace were exchanged. Those who attended were: Alice Cimmer, '00; Julia Grant, w'06; Emma Barrett, '03; Josephine Hart, '12; Edna V. Smith, '03; Betty Palm, '11; Winifred Gettemy, Ruth Kellogg, Allison Ransford Barry, Mary Sweeney.

Members of the Alumnae Council resident in Lansing and East Lansing obtained a concession at the Central Michigan fair which was held a short distance east of the campus on Grand River road August 22-26 and provided the thrifty sightseer with refreshments. Mrs. Grace Lundy Drolett, '00, had charge of the venture and reports that the net profits were of a gratifying size. She was assisted by about 25 of the alumnae who volunteered their services to make the booth a paying proposition. Ice cold milk, ice cream, sandwiches and home made pies and cakes tempted visitors to the exhibition to part with their dimes.

June 29, 45 members and guests of the South Haven M. A. C. Association met with Mr. and Mrs. F. M. Barden at their home north of the city. Long tables were set out on the lawn and a jolly pot luck supper soon disposed of. As dusk fell, the host pressed a button on the enclosed porch and the out-door dining room was flooded with light, disclosing ice cream.

Games followed, in which all gaily joined, regardless of age, then an informal business meeting was held. L. A. Bregger, '88, of Robert Anderson reported on the meeting of the State Horticultural Society at Coloma, Bangor, reported on conditions in his locality, stating the action taken showed an interest in promoting the growth and influence of the "Hort" department at M. A. C. Mr. House of Glenn made a few remarks on fruit crop prospects in that vicinity.

The next meeting will be held at the Leisenring farm south of the city. Are we boosting M. A. C.? Well I guess!

Virginia Flory, '20, Sec'y.

The reunion spirit is strong among the members of the class of '81. A. H. Voigt of Los Angeles sends the following description of a gathering last July at the home of Byron S. Palmer at Palmyra, N. Y.:

The home of Byron S. Palmer, at Palmyra, was the scene of a happy meeting of four of the class of '81 during the month of July.

A. H. Voigt, of Los Angeles, who makes a

trip twice a year to New York City, and other eastern points, wrote to his old room-mate, Palmer, that he would stop over for a visit. Palmer immediately wrote to A. E. Smith, of Olean, N. Y., asking him to drive over at that time; and then he also wrote to C. A. Dockstader, at North Syracuse, and invited him over.

Both of them had sufficient college spirit left to gladly accept the invitation. Smith drove 160 miles in his automobile, and Dockstader came 80 miles on the electric car for the pleasure of meeting and talking over the days of old.

It may interest some of our other classmates to know that Byron Palmer was very ill last fall, and that A. E. Smith had a very severe operation some time late last year. Both of them are doing very well now, and we all pledged each other that we would be present at the next college reunion.

We all expressed a wish that we might see more news items in the columns of the Record from the boys of our own class, and those who were at M. A. C. during our time.

A family party recently held at the home of Mrs. W. E. Normington of Ionia turned out to be quite an M. A. C. reunion. Much of the evening was spent in reminiscences of college days, talking about the many mutual friends who are now alumni, the old and new administration, etc. The question "Why I went to M. A. C." brought forth various interesting answers. Those present were Mr. and Mrs. (Ruth Normington, '12) G. Dikmans (D. V. M. '20); Olive Normington, '16; Marian Normington, '20; Mr. and Mrs. (Maude Nason, '13) Ralph W. Powell, '11; Alice M. Powell, '17, and Stanley M. Powell, '20. The Normingtons and Powells are cousins. The former family has one more M. A. C. graduate, Frank Normington.

The Dikmans have been down in Baton Rouge, Louisiana, the past year where "Dick" has been instructor in veterinary science. Next year they will be at the University in St. Paul, Minn. Olive and Marian have been teaching household science since their graduation, but this fall they will both study post-graduate work in nutrition at the University of Chicago. Mr. and Mrs. Ralph Powell and their sister Alice have just returned from China. The former will spend their furlough year at New Haven. Mrs. Powell has received a scholarship from the China Medical Board of the Rockefeller Foundation for the study of physiological chemistry at Yale, and Mr. Powell expects to do some practical engineering work there. Alice will probably spend the next year at home with her parents and

brother Stanley, who is still helping to till the soil and raise Shropshire sheep as the junior member of "Herbert E. Powell & Son." The best of the Ingleside flocks are now at the state fairs, where they have received many awards in past years.

### MARRIAGES

Miss Barbara Julia Lillie, '20, and George A. Garratt, '20, were married at Coopersville, Mich., on July 28.

William DeYoung, '18, and Alta Snow, '18, were married July 18 and are now living at 1614 Bass avenue, Columbia, Mo.

Edward E. Carpp, '20, and Marjorie Weeks of Allen, Mich., were married August 1. They are making their home in Hartford, Mich.

J. M. Kinney, '16, who is superintendent of the consolidated school at Luther, Mich., announces his marriage on July 12 to Miss Lois Rible of that place.

Miss Emma E. Preston, '19, adds her name to the list of June brides. She is now Mrs. Albert E. Bridge and is living at 1359 E. 12th street, Des Moines, Ia.

Edgar Osborne, '19, president of the Flint branch of the M. A. C. association, and Miss Marguerite Viola Sass of Grand Rapids were married at the home of the bride on Monday, September 4.

The marriage of Marshall G. Draper, '21, and Miss Hazel Howell, of Port Huron, took place at the home of the bride on August 10. They are making their home at 1322 Griswold street, Port Huron.

Howard Rather, '17, extension specialist in farm crops, and Miss Emily McKnight, '22, were married at the home of the bride in Birmingham on June 24. After a honeymoon of a month the Rathers are living in East Lansing.

Verne E. Ward, '20, superintendent of schools at Colon, Mich., asserts that he is to remain there for his third year and remarks that he was married last December to one of his teachers. He fails to give the name of the bride.

Roy P. Kelley, '17, and Miss Edith Planbeck were married August 15 at the home of the bride's mother in East Lansing. Kelley is an engineer with the state highway department. The Kelleys are making their home in Lansing.

Miss Pearl McComb, '21, and Major J. J. Teter were married at the home of the bride's parents, 612 Pennsylvania avenue, Lansing, on Monday afternoon, August 7, at 2:30 o'clock. Miss Grace McComb and Park Teter attended the bride and groom. Major and Mrs. Teter left on an extended trip through the east and south immediately following the ceremony and they will be at home to their friends in East Lansing after the third week in September. Major Teter is in command of the M. A. C. coast artillery unit and has been stationed here since 1919.

Miss Elizabeth Jane (Bess) Frazer, '11, was married to Charles Francis Morgan of Los Angeles, Cal., on July 8. They are at home at 2401 Alhambra avenue, Monterey Park, Cal.

Miss Emma Long of Lansing and Leo F. Klotz, '19, were united in marriage on July 21 by the Rev. N. A. McCune of the People's church. A wedding dinner followed at the home of the bride's brother on North Logan street.

### BIRTHS

Glenn ('17) and Fay Stitt ('20) Osgood are the proud parents of Dorothy Jean since July 6.

R. C. and Lenore Nixon ('14) Johnson announce the arrival of James Edward on August 6. He weighed in for the battle of life at 8 pounds.

Austin L. and Eugenia Armstrong Pino (both '17) announce the birth of Katheryn Eugenia on August 16.

Prof. and Mrs. L. C. Emmons announce the arrival of a son on August 13. The suffragettes now have a majority of one among the junior Emmonses.

H. C. Diehl, '18, announces the birth of Robert Karl at New Haven, Conn., on June 6. The Diehls are now living at 2112 Flagler Place, Washington, D. C.

### NEUROLOGY

Mail sent during the past year to Yoshio Kawada, '12, has been returned by the Japanese postal authorities with the information that he is deceased. Kawada completed the Ag course here and then returned to his native land, going later to Korea as a teacher. After a few years in this profession he turned to law and in 1918 was a patent attorney in Tokyo. Although advices from him were meagre it is understood that he followed this work up to the time of his death, which apparently took place sometime during the past year.

While in college Kawada was a member of the Ionian society, on the Y. M. C. A. cabinet and took part in the activities of the Cosmopolitan club. He enjoyed a wide acquaintance and was one of the most popular members of his race who ever attended M. A. C.

Friends of Amy Leveaux, w'24, will be grieved to learn of the death of her mother which took place in August after four years of endeavor to bear up under the sorrow of losing two sons in the great war. Cosmer Leveaux, w'18, was killed in battle north of Chateau Thierry and his brother went down with a ship in the English channel. The former, who was a forestry student at M. A. C. when war was declared, is said by the father to have been Mrs. Leveaux' favorite child and she never became reconciled to the separa-

tion. Amy Leveaux found it necessary to leave school at the end of the winter term last year because of the failing health of her mother and has not made known her intentions concerning this fall.

The Topeka (Kas.) Daily Capital of June 10 published the following obituary of the wife of John R. Shelton, '84:

Mrs. John R. Shelton, one of the most prominent club women of Topeka, died last night at a local hospital, after a lingering illness.

Mrs. Shelton was born at Mauch Chunk, Pa., 1860. She was the daughter of Mr. and Mrs. N. F. Handy. She moved with her parents in 1876 to Lansing, Mich., where in 1883 she was married to John R. Shelton, of that city. Mr. and Mrs. Shelton moved to Kansas in 1885, settling at Minneapolis. A few months later Mr. and Mrs. Handy followed them to Kansas. In 1890 Mr. and Mrs. Shelton returned to Michigan, making Grand Rapids their home for twenty years. Following the death of Mr. Handy in 1907, they returned to Kansas. They have lived at 1275 Topeka avenue ever since. Mrs. Handy made her home with them until her death in 1918.

Mrs. Shelton was a prominent member of the Topeka Woman's club and of all patriotic women's societies. She was a charter member of the Michigan chapter of the Daughters of the American Revolution, president of the Kansas chapter of the Daughters of the Founders and Patriots of America, a charter member of the Topeka chapter of the Society of the Mayflower, and a member of the Michigan chapter of the Colonial Dames.

She is survived by her husband, of the home address, and by one son, George, of Chicago.

Seventy teachers of agriculture attended the special conference in charge of E. E. Gallup at the college during August. It was necessary for most of them to attend in order to qualify as high school teachers under the Smith-Hughes law. Professor French and Mr. Gallup gave a series of daily lectures to the teachers.

President Friday is having the house formerly occupied by Secretary Brown remodeled for his own use while Secretary Halladay has moved into the house which Dr. Bessey recently vacated. Professor Vedder has left the campus, leaving Faculty row tenanted only by Deans Shaw and Bissell, President Friday and Secretary Halladay.

A tourist camp along Michigan avenue opposite the brick yards has been put into shape by the city of Lansing. Conveniences are provided and it has been generously patronized since completion. Many East Lansing residents, including H. H. Muselman, '08; C. W. McKibbin, '11, and B. A. Faunce spent their vacations on automobile tours through the northern part of the state.

Under the direction of E. B. Hill, '16, assistant to Dean Shaw, the work M. A. C. is doing to aid the farmer is being demonstrated at the State Fair in Detroit. There is also an exhibit showing the merits of the engineering department. The college farm is represented by the best specimens from its herds and flocks, many of which were awarded high honors at the Ohio fair last week and it is expected more laurels will be added to their collection before they return to East Lansing.

The quarterly bulletin which came from the press in August, under the supervision of Dean Shaw and E. B. Hill, '16, covers many subjects of interest to the farmer whether he be a specialist or a general producer. It includes articles on the construction of potato warehouses and the extermination of the cockroach, the future of pork and seed production, tuberculosis in fowls and soil management, and others too numerous to enumerate. It is well provided with illustrations, both photographs and drawings.

Gerald H. Mains, '14, who has been on the staff of the bureau of chemistry, department of agriculture, for the past seven years, has come into the public eye as one of the discoverers of a process whereby furfural may be obtained from corncobs. This substance is important in the dye industry. When the announcement was made "Jerry's" picture along with that of his co-worker was distributed broadcast by the feature services and the American Chemical society made it the subject of literature which was sent to all of the daily newspapers.

MEETING OF THE STATE BOARD OF AGRICULTURE  
President's Office.

July 12, 1923.  
Present, President Friday, Mrs. Stockman, and Messrs. McPherson, Brody, Woodman, Watkins, and Secretary Halladay.

The minutes of the previous meeting, having been in the hands of the members, were approved without reading.

The following resignations were presented and accepted as of August 31, 1922.

Dr. Clyde Reynolds, Director of Health Service.

Chester L. Brewer, Director of Athletics.

Mrs. May Person Kirby, Assistant to the Dean of Home Economics.

Prof. P. L. Buttrick, Assistant Professor of Forestry.

It was voted to hold the next meeting of the Board, August 10, at Chatham.

The matter of selecting a new Director of Athletics to succeed Mr. Brewer was referred to the President and Mr. Watkins.

The following appointments were approved:

John C. DeCamp, Assistant Professor of Forestry, beginning Sept. 1.

O. B. Price, Instructor and Research Assistant in Soils beginning May 30.

Professor French is to be placed on the salary payroll for full time beginning July 1.

Frank Trull, Assistant in Soil Survey Work, beginning June 3.

A. J. McAdams, Specialist in Land Clearing, beginning July 1.

The matter of appointing George Amundson as Specialist in Land Clearing, was referred to the President with power to act.

James Haskins was appointed Rural Press Specialist beginning July 1.

J. E. Kotila was authorized to attend the Potato Mosaic Field Conference in Wisconsin, August 7 to 17, with expenses paid.

H. C. Young was granted leave of absence from Sept. 1, 1922, to June 30, 1923, without pay.

Ray Nelson was granted leave of absence from Sept. 1, 1922, to May 31, 1923, his salary to be paid in full to December 1. From December 1 to May 31, he is to receive half pay only.

The following budget for the year 1922-23 was approved—all balances and overdrafts on the books June 30, 1922, to be wiped out:

<b>College</b>			
Salaries	.....	\$648,083 33	
Expenses	.....	477,975 00	
			\$1,126,058 33
<b>Experiment Station</b>			
Salaries			
Adams	.....	\$ 15,000 00	
Hatch	.....	15,000 00	
State	.....	106,361 20	
		136,361 20	
Expenses		81,800 00	
			218,161 20
			1,344,219 53
<b>Extension</b>			299,913 95
<b>Total Apportionment</b>			\$1,644,133 48

It was voted to locate the new Library on the site recommended by Olmsted Brothers, namely

"It should be placed near, or partly including, the site of the former Williams Hall, its easterly line substantially coinciding with the easterly line (produced) of the Chemical Laboratory and not case not further to the east than that, its northerly line not further north than the north line (produced) of the Chemical Laboratory and not much further south than that. It should be so designed as to provide for future expansion in such a way as to fall substantially within a rectangle bounded on the west line (produced) of the Engineering Building and on the south by the southerly line (produced) of the Chemical Laboratory, and so that as it is built and extended it will relate agreeably to the Engineering Building, presumably with a basement entrance on the south side nearly level with the natural surface there, and with a main entrance at the first floor level on the north side approximately at the level of the highest ground of the ridge or knoll on that side."

At 12 o'clock noon, bids for the erection of the new Home Economics Building were opened and were as follows:

Reniger Construction Company, Lansing, \$402,842; John Finn and Son, Detroit, \$49,000.00; Geo. A. Burrely Company, Flint, \$432,000.00; W. E. Wood & Co., Detroit, \$432,358.00; H. G. Christman, Lansing, \$444,175.00; Fred G. Trier, Saginaw, \$457,570.00.

It was voted that the Board of Agriculture meet with the State Administrative Board on Tuesday, July 18, for the purpose of considering bids above mentioned.

The matter of employing a Plant Pathologist was referred to the President with power to act.

It was moved and carried that the Bessey house be assigned to Secretary Halladay for a residence, and that the Vedder, Barrows, and Johnston houses be vacated as soon as possible and used to house student women.

On motion adjourned.

**MEETING OF THE STATE BOARD OF AGRICULTURE.**

President's Office.

August 29, 1922. 8 o'clock p. m.

Present, President Friday, Messrs. Watkins Brody, McColl, Woodman, Mrs. Stockman and Secretary Halladay.

The minutes of the previous meeting were approved without reading.

The following resignations were presented and accepted as of the dates specified:

Ethel Sharp, Assistant in the Library, September 1.

Ethel Taft, Instructor in Home Economics, September 1.

O. E. Dunckel, Assistant in Farm Management, August 15.

Helen Simonson, Home Economics Extension Spec-

ialist in the Upper Peninsula, September 30.

The following leaves of absence were granted without pay:

Helen Arms, Extension Specialist in Clothing, indefinite sick leave.

Gertrude Loudenbach, Instructor in Physical Education, one year beginning September 1.

Bertha E. Thompson, Assistant Professor of Botany, one year beginning September 1.

The following appointments were approved:

Dr. L. A. Kenoyer, Instructor in Botany (in place of Professor Thompson).

Ray N. Haskell, Instructor in Mathematics, beginning Sept. 1.

James Earl, Instructor in Mathematics, beginning Sept. 1.

Oscar Cargill, Instructor in English, beginning Sept. 1.

Geo. E. Whiting, Instructor in English, beginning Sept. 1.

Clarence P. Hotson, Instructor in English, beginning Sept. 1.

Howard M. Wells, Assistant in Horticulture, beginning Oct. 1.

C. R. Wiggins, Instructor in Mechanical Engineering, beginning September 1.

Paul A. Herbert, Instructor in Forestry, beginning Sept. 1.

J. W. Scott, Associate Professor of Economics, beginning Sept. 1.

R. S. Steiner, Assistant Professor of Economics, beginning Sept. 1.

Miss Ruth Wilson, Instructor in Home Economics, beginning Sept. 1.

Miss Ruth Cowan, Instructor in Home Economics, beginning Sept. 1.

Mrs. F. A. Keepman, Instructor in Home Economics, beginning Sept. 1.

Marie Dye, Assistant Professor of Home Economics, beginning Sept. 1.

Grace Keefe, Instructor in Physical Education, beginning Sept. 1.

Blanche Vaughan, Instructor in Physical Education, beginning Sept. 1.

The matter of the appointment of Miss Ida M. Sichter as Assistant State Leader of Home Demonstration Agents, Upper Peninsula District, was referred to the President with power to act.

The following Extension appointments as recommended by Director Baldwin, were approved:

Ray Ure, Assistant in Poultry Extension, beginning August 1.

C. L. Coffeen, County Agricultural Agent for Leewards County, beginning May 1.

Joseph W. Wagner, County Club Agent for Wayne County, beginning July 16.

Miss Eunice Ryan, Extension Specialist in Clothing, beginning September 16.

Miss Helen Pratt Shane, County Club Agent for Schoolcraft County from July to December 31.

J. C. Kremer, Instructor in Agriculture for federal students, beginning Sept. 25.

H. J. Gallacher, Instructor in Farm Mechanics for federal students, beginning Sept. 15, and ending July 15, 1923.

The winter short course in Dairy Production and Dairy Manufactures, was increased in length from eight to twelve weeks and the entrance fee increased to \$10 for resident students and \$50 for non-residents.

Dr. Hibbard's title was changed from Instructor in Botany to Associate Professor of Botany.

The following Graduate Assistants were appointed:

Leonard Tiedeman, half-time Assistant in Biological Chemistry, beginning September 1.

Milo J. Stutsman, half-time Assistant in Electro Chemistry, beginning September 1.

Miss Miriam Carpenter, half-time Assistant in the Botanical Experiment Station, beginning September 1.

B. B. Robinson, half-time Assistant in Farm Crops, beginning Sept. 1.

W. H. Hosterman, quarter-time Assistant in Farm Crops, beginning September 1.

Daniel Haseley, half-time Assistant in Bacteriology, beginning September 1.

Clare F. Jolly, half-time Assistant in Entomology, beginning September 1.

J. R. Cole, half-time Assistant in Botany, beginning Sept. 1.

The three contracts providing for instruction to

be given to federal students during the collegiate year 1922-23; were approved, and the Secretary was authorized to sign and return them to the Treasury Department.

Dean Chamberlain was granted permission to attend the meeting of the American Veterinary Medical Association at St. Louis, Missouri, August 28 to September 1 with expenses paid.

It was voted to build suitable storage space for roots and vegetables as requested by the Farm Crops Department—the cost not to exceed \$400.

The memorandum from Major Wrightson to the Board was laid upon the table.

A. M. Barron was appointed Acting Director of Athletics beginning September 1.

Fred M. Walker was appointed Advisory Football, Varsity Basketball, and Varsity Baseball Coach, beginning September 1.

Mrs. Louise H. Campbell was appointed Acting Dean of Home Economics beginning September 1.

The Library plans as presented by Architect Bowd were adopted.

Any minor changes desired to be made in the new buildings now under construction, are to be left to the Architect, the President, and Secretary with power to act.

On motion adjourned.

## FORESTRY NOTES

P. A. Herbert, who has been appointed instructor in Forestry, is a graduate of Cornell, where he also obtained his master's degree and where he has been engaged in forest extension work during the past summer.

Professor Chittenden has been carrying on a study of the growth of timber in woodlots and the probable returns from thinnings during the past summer. G. R. Phillips, '22, has been assisting in the field work. A large number of woodlots in the southern part of the state have been covered. Professor Chittenden says that with a possible coal shortage this winter there will be a big demand for cordwood and that many woodlots may be improved by proper thinnings and a considerable income obtained by the owners. He hopes to complete the study so that it will be available for woodlot owners this winter.

Over 105,000 trees were shipped from the forest nursery last spring. The Forestry department reports that an increasing number of farmers are setting out fence post plantations and windbreaks. The department has an unusually large quantity of seedling stock on hand for next year.

The study of the rate of growth and management of second growth hardwood forests on cut-over lands in the northern part of the state which the Forestry department has been carrying on for the past three years has been completed. Professor Buttrick had charge of the work during the past summer. A large part of the field work was carried on in connection with the forestry summer camp and during the spring and summer vacation periods of the last few years. The department has been very successful in interesting lumber companies in this work and as a result had been offered unusual facilities for its conduct. Professor Chittenden hopes to have the report ready for publication some time this winter.

C. F. Martin, '22, has written to Professor Chittenden of the Forestry department that he was married recently. He is managing a cattle ranch near Minneapolis. His address is R. No. 5, Mora, Minnesota.

O. A. Alderman, '20, has recently received a promotion in the Ohio state forest service where he has been employed since graduating. His address is Wooster, Ohio.

S. A. Bateman, '16, is dry kiln expert for the Ford Motor Co., and is located at Iron Mountain, Michigan.

P. M. Hodgkins, '17, is engaged in examining lands for prospective National Forests and is located at Warren, Pennsylvania.

R. H. Westveld, '22, is located on the Carton National Forest at Tres Ritos, New Mexico. He recently passed the examination for Forest Assistant.

F. H. Surble, '22, is assistant dry kiln expert for the Ford Motor Company and is located at Iron Mountain.

D. J. M. Gray, '22, is dry kiln expert for the Briggs Mfg. Company, and his address is 793 W. Grand Blvd., Detroit.

George R. Phillips, '22, is working on the Economic and Soil Survey of Michigan. His address is care the State Geologist, Lansing.

J. C. DeCamp, '10, has been appointed Assistant Professor of Forestry at the College. Mr. DeCamp has had a large amount of experience on the National Forests in the west and during the past year has been engaged in teaching.

W. F. Jones, '21, is professor of forestry at Lincoln Memorial University, Harrogate, Tennessee.

B. H. Bentley, '21, is in the lumber business at Middlesboro, Kentucky.

G. A. Garratt, '20, resigned his position as instructor in forestry at the College in order to take up post-graduate work in forestry at Yale.

J. M. Bennett, '19, is tree expert for Wayne County Highway Commission and is living at Northville.

P. L. Ginter, '21, is stationed at Freemont Forest Experiment Station, Manitou, Colorado.

Howard J. Eddy, '21, is tree expert for the Public Service Corporation of Chicago and is living at 1213 Oakton street, Evanston, Ill.

R. E. Hetrick, '21, is engaged in experimental work connected with the compression of sawdust and wood shavings into usable materials in Flint. His address is care V. M. C. A., Flint, Michigan.

E. D. Clifford, '22, is tree expert for the Bell Telephone Co., with headquarters in Grand Rapids.

### CLASS NOTES

'88

H. B. Cannon is now at 205 Observatory, Ann Arbor.

'94

J. W. Perrigo has returned from Buenos Aires and asks that his Record be sent to 108 S. LaSalle street, Chicago.

'95

Clay Tillman notifies us that his address has been changed to 661 Lafayette street, Denver.

'98

Fred and Sara Lowe (w '01) Woodworth, have left East Lansing and are now located at 2244 Edison avenue, Detroit.

'00

Paul Thayer is extension pomologist with Penn State college. He was formerly associate horticulturist of the Ohio Experiment Station at Wooster, Ohio.

'01

Mark L. Ireland is still majoring in the quartermaster corps of the U. S. Army. His address and that of Irma Thompson Ireland, '00, is 87 Pleasant street, Wakefield, Mass. Major Ireland visited the campus during August.

Mrs. Alice Gunn VanTassel is conducting the Old Hickory Inn near Dayton, Ohio. After describing the surroundings and furnishings of the Inn, the Dayton Dial has the following to say concerning the qualifications of Mrs. VanTassel:

"Mrs. Alice VanTassel is eminently qualified for the role of hostess; a woman of charming personality and much ability. She is a graduate of the Michigan Agricultural College with a degree of B. S., as well as having completed a course in Home Economics at the Fanny Merritt Farmer School of Domestic Science in Boston, the leading school of its kind in this country. She has had wide business experience and for two years was connected with the Rike-Kumler Company in an executive capacity."

'04

H. D. Hach lives at 441 W. Hancock, Detroit.

'05

Robert F. Bell has moved from Chicago to 25 Blymer Bldg., Cincinnati, Ohio.

'07

H. I. Glazer is now at 2035 Elf street, Youngstown, O.

S. W. Doty receives his mail at 1320 E. Marquette Rd., Jackson Park station, Chicago.

A. G. Palacio at C. Lerde, Durango, Mexico, promises to tell us what he has been doing as soon as his duties in connection with the Hacienda San Carlos allow him time.

'09

F. H. Akers, w., has left Williamston and is now connected with the Republic Truck Sales Corp., at Alma.

C. G. Bullis, w., who is a chief machinist's mate in the navy, believes the Record indispensable to a satisfactory life on the bounding main. In his letter warning us that he has changed ships he says: "Since putting the U. S. S. South Carolina out of commission (one of the results of the disarmament conference) I have been transferred to the U. S. S. Antares. The Antares is to be the flagship of the Atlantic fleet train also target repair and photograph ship for the Atlantic fleet". His address is U. S. S. Antares, care the Postmaster, New York City.

'10

J. C. DeCamp who has been doing timber work in the northwest for the forest service has returned to East Lansing to take the place of Prof. Buttricks in the forestry department.

John A. Smith describes himself as a landscape forester living on R. 1, Camp Hill, Pa.

'11

G. W. Dewey is not in Jerome, Idaho, and the postal authorities disclaim any knowledge as to his whereabouts.

F. J. Richards notes a change of address to 404 Mary street, Flint.

J. W. and Helen Norton, '12, Knecht have given instructions to the letter carrier to deliver their mail to 1144 Cass avenue, S. E., Grand Rapids.

Ralph and Maud Nason, '13, Powell, have returned from their labors in China and are spending some time at the Powell home in Ionia.

'12

Edwy B. Reid is now at 1328 Longfellow street N. W. Washington, D. C.

James H. Hawkins gives his address as Spring Lake, Mich., and his occupation as country gentleman.

Mrs. James G. (Carrie Lockwood) Glenn comes into the association after a long absence and expresses a desire to renew her acquaintance with M. A. C. She receives her mail at 911 S. Lafayette avenue, Grand Rapids.

Grace Ellis will be at 111 S. Lincoln street, St. Louis, Mich., this year instead of Moorhead, Ia.

The Engineering Record News has the following to say concerning Walter S. Pederson: "Walter S. Pederson until recently designer for the Iowa Steel and Iron Works, has been made chief engineer of Geiger and Peters, steel fabricators, Indianapolis, Ind."

'13

W. R. Riblet is now at 620 Bower street, Elkhart, Ind., according to the postoffice authorities.

B. E. Mooney has moved from Warland, Montana, to Libby, in the same state.

# WOLVERINE INSURANCE COMPANY

THE PARTICIPATING COMPANY

## *Fire and Automobile Insurance*

LANSING, MICH.

From Walter Z. Harris,  
Manager Auto Dept.  
Wolverine Insurance Company.

Dear Friend:

**WOULD YOU ACT AS YOUR OWN INSURANCE AGENT IF YOU COULD SAVE 25%?**

We write a full coverage old line automobile insurance policy that

- is non-assessable
- is sent on three days' approval
- is approximately twenty-five per cent lower in price than any other old line insurance company's policy
- is furnished you by the same company that has a policy on the automobile of Homer Rutledge, State Fire Marshal; Fred B. Perry, Sec. of State Administrative Board; Thos. E. Johnson, Supt. of Public Instruction of the State of Michigan, and many other prominent men who cannot afford to menace their success with less protection.

You can get this protection by the month or by the year as you desire.

For example:

A 1922 Dodge Touring car owned in Lansing and Owner Driven can be insured for \$900.00 Fire, \$900.00 Theft, \$10,000 Public Liability, and \$1,000.00 Property Damage, for a total cost of \$2.00 per month. Collision insurance can also be furnished, if desired, for 25% less than any other old line company who write thru agents. Other makes of automobiles in proportion.

Fill out and return the card and we will immediately send you one of our preferred risk automobile policies. You can examine this for three days and compare it with any other automobile policy written. If, at the end of that time, you do not find that we can give you more protection for less money than any other old line company, you may return the policy without charge.

Mail the card today, whether your present policy has expired or not, and we will send you a booklet containing all the new laws relating to the protection of title of motor vehicles and digest of other new motor legislation.

Cordially yours,

WOLVERINE INSURANCE COMPANY,

W. Z. Harris,  
Mgr. Auto Dept.

Elinor Beach was last heard from at U. S. P. H. S. hospital No. 26, Greenville, S. C., but fails to respond to inquiries sent in that direction. Can anyone tell us where she is?

R. Eriksen, formerly helped Heinz make his famous 57. Now they don't claim him as an employe of the branch factory at Sparta, Wis. We can offer on reward for his detection but information of value to the office will be appreciated.

Earl H. Spencer asks that his Record be sent to 603 Cass street, Saginaw.

Ruth E. Wagner is residing at 615 Bethune avenue, Detroit.

Oliver H. Frederick, states he is now living and requests that his mail be addressed 619 Madison street, McKeesport, aP.

'17

Mrs. R. C. Zettel (Janice Morrison) writes that her husband has been transferred from Carlstrom Field, Fla., to Kelly Field No. 2, San Antonio, Texas and she wants her Record to follow them.

A. M. Porter made an interesting trip during the summer months from Hunters, Wash., to South Paris, Maine. He traveled cross country in an auto and stopped over at East Lansing to tell us of his change. Porter intends to enter the fruit business in the west. For the past five years he has been in charge of an extensive ranch not far from Spokane.

W. H. Cornelius can't be found by the Detroit post office. Does anyone know where he is?

'18

Walter O. Dow is in Boyne Falls according to the postmaster at Howell.

Marion Pratt has changed her address to East Lansing again.

The Wenatche (Wash.) Daily World says: "C. J. Perry who has been connected with the insecticide work of the U. S. department of agriculture for some time, has been employed by the Chelan county farm bureau to act as secretary and take over the work of publishing the Farm Bureau News." The article continues to say that Perry is a native of Michigan and a graduate of M. A. C. and had been associated with D. F. Fisher also an M. A. C. graduate who is U. S. pathologist in that territory. Fisher is described as one of the leading horticulturists of that part of the country.

Mrs. Margaret Royal Cronk, w. is no longer at 87 N. Washington avenue, Battle Creek, and has not left her new address.

'19

Harold C. Stark is teaching Ag at Buchanan, Mich. Harry E. Franson has left Stephen, Minn., for Minneapolis, where he can be reached at 1018 University avenue.

Mildred Mead will be a teacher and cafeteria manager at the Northeastern High, Detroit, this fall but hasn't located her living quarters definitely.

Clare E. Bird who has been living in Brookline, Mass., is now with the Grenfell Mission at Indian Harbor, Labrador.

Jessie Illenden now Mrs. Ormond D. Geib, tells us her address is 3860 St. Clair avenue, Detroit.

Frances Spencer visited the campus August 9. She has been living in Heyburn, Idaho, but is now taking up her residence at 1313 Wildwood avenue, Jackson.

H. H. Himebaugh toasts a banner year with a word of progress for M. A. C. He lives in Burr Oak.

Kenneth H. Roland is neither in Minto nor Devil's Lake, N. Dakota, and further than that the postal authorities failed to try to locate him.

Lawrence W. Miller was at the University of Chicago but is not there now. He failed to leave his new address.

'20

P. R. Von Spreckon is resident engineer with the state highway department on pavement and bridges work at Sebawaing.

M. Louise Larrabee was at 611 Washtenaw street, Lansing, during the summer. She says that she will not return to Menominee this fall.

Edward C. Hach is still a resident of Chicago. He lives at 4516 Prairie avenue.

Genevieve Gillette has returned to Lansing to live at 416 S. Sycamore street.

Mary Williams stopped into the office during the

summer to notify us that she was leaving Lansing for Williamston.

Stanley Powell writes that he is one of the few M. A. C. grads who go back to the farm and practice agriculture. He found time to return for commencement and is enthusiastic over the prospects for a bigger and better M. A. C.

H. Maude Stafford has deserted Bangor for Decatur according to the postmaster at the former town.

Leland N. Jones neglected to notify us that he had returned to East Lansing but the Owosso postmaster is keeping close watch of his movements.

Mr. and Mrs. Maurice G. Jewett, 20 E. and 18 H. E., have altered their address from 4728 to 4308 Magoun avenue, East Chicago, Ind.

Agnes McKinley changes her address from Holland, to the Oak Grove club, Flint.

M. Burton Jameson is not in Batavia, N. Y., at least the postoffice reports him absent without a forwarding address.

'21

E. C. Sackrider asks that his Record be addressed 315 S. River street, Eaton Rapids. He makes no excuses for the change.

S. J. Marsden believes he will be at 3513 Holdrege street, Lincoln, Neb., for another year according to a short note accompanying his subscription.

Beatrice Hosmer has left Bad Axe for Buffalo. Her stopping place in her new surroundings will be 125 Knowlton avenue, Station H.

H. R. Adams has shifted his civic allegiance from Mason to Royal Oak.

L. W. Ross has joined the forces of the Studebaker and will receive his mail from the general delivery window at South Bend, Ind. He has been living at Dearborn.

Culver D. Wilcox is teaching at Tecumseh, Mich. and wonders whether he is not learning more than his pupils. A candidate for the class of '41 is among those present in the Wilcox home.

Harold R. Weber, w., is selling hardware, seeds, etc., for his father, The Webbers do business at Elmhurst, N. Y. C., N. Y. and live at 7 Queens Blvd., in the same town according to the information he sends in. Weber concluded his agricultural training at the Mass A. C. in June.

Raymond C. Kinney is at 230 East Ohio street, Chicago. His salary is paid by the Mutual Fire Prevention Bureau and he gives his occupation as inspector.

Theodore L. Leach is among the missing. Mail sent to him at Fenwick, Mich., has been returned unclaimed.

Eva H. Wright who has been living in Lansing reports that her mailing address is now Williamston.

Stephana M. Butler of Bessemer, is not claimed as a resident of that town by the postmaster. He says she left no forwarding address.

Tauge C. Lindquist, who has been assistant librarian at Lewiston, Mich., where he is apparently in the lumber business.

Tauge C. Linquist, who has been assistant librarian for the past year announced in August that he was about to depart for 1006 Charles street, Rockford, Ill., where he will enter the landscape gardening business.

H. L. Broan writing from 206 N. Lamon avenue, Chicago, which he says is his new address has the following to say:

"I am working for the Western Electric company as a technical investigator in the drafting division, having recently completed their course in General Manufacturing. A few new Aggies were added to the ranks at the W. E. Co. this summer, namely, Flotin, Stelzer and Burke.

The postmaster at Charlotte informs us that Oscar Beal is now at 205 Pearl street, Ypsilanti.

Leon G. Catlin is employed by the Los Angeles Creamery Co., at El Monte, Calif. He writes: "I am glad to hear of the bright outlook for M. A. C. in the future as well as for the coming year. I have followed Horace Greeley's advice—gone west."

'22

Irving J. Gillette is at South Byron, N. Y. Dean Wilson finds himself at the desert laboratory, Tucson, Ariz., but says that he will be at the laboratory of Plant physiology, Johns Hopkins University, Baltimore, Md., after October 1.

# What college failed to give him

## An unusual letter from a successful man to a younger man

A hundred men graduate from college in the same class with identically the same training. At the end of ten or fifteen years, a few of the hundred have forged far ahead. They have "made a place for themselves" while the great majority are still held—many of them permanently held—in the routine places of business.

**WHAT** causes the difference? What extra training do the few add to their college work which carries them so much farther and faster?

A clear-cut, interesting answer to that question was given recently in a letter by

### A college man to whom success came early

Stephen B. Mambert, Vice-President of the widespread enterprises established by Thomas A. Edison, is still in his early thirties. To his desk there came a letter from a young man in Texas: "I am conducting a little business here," the young man wrote. "What can I do to grow and to make it grow? Would the Alexander Hamilton Institute be a paying investment for me?"

To which Mr. Mambert replied:

"In answer to your inquiry I cannot do more than outline

### My own experience

"The chief thing I learned in college was how to study. Notwithstanding the fact that my schooling provided me with an

opportunity to study many of the things which are regarded as valuable, I very keenly felt, upon leaving college and entering business, that I was like a wheel with spokes of different lengths, and that I needed something to round out and to bring together into a complete whole the different spoke lengths. In fact, I entirely lacked several spokes. In my individual case, the Alexander Hamilton Institute Course served this very useful purpose."

### The little added training that makes success

What, precisely, did the Alexander Hamilton Institute give to Mr. Mambert in addition to what college had given him?

It gave him the same sort of graduate training in business which hospital experience gives to the physician, or the law office gives to the lawyer. This training includes a knowledge of the principles underlying every major activity in business—sales, accounting, costs, merchandising, advertising, factory and office management, corporation finance.

Add this training to the four years of college, and you give a man a distinct advantage over his

classmate who has the cultural or technical training of college alone. And the cost of the added training in money and time is trivial in comparison with the rewards.

### A book worth reading for

The facts about the Alexander Hamilton Institute—what its Course is, and just what it has done for other college men—have been condensed into a 118-page book "Forging Ahead in Business." To many a man the evening which he spent with this book has proved more valuable than any other in his business life. There is a copy for every thoughtful college man; it is a book well worth adding to your business library. Merely fill in the coupon; your copy will be sent at once, and without obligation.
