THE M. A. C. RECORD

VOL. XXV.

EAST LANSING, MICHIGAN, SEPTEMBER 19, 1919,

NO. 1

THE CAMPUS has been very much alive during the summer, in fact the activity in July was not unlike that during the usual college year. The two summer courses offered for returned soldiers and sailors who wished to catch up with their classes were the largest summer sessions the college has known. The usual short courses for teachers and the conferences for rural ministers were unusually well attended and brought a good many new faces to the campus. Dr. Liberty Hyde Bailey '82 was the principle speaker at the summer conference session in July. Following his lectures at M. A. C. Dr. Bailey left for England where he expected to study in the Kew Botanical Gardens near Kensington. Many special meetings and picnics were held on the Campus in the latter part of the summer, among the most notable being the picnic of the Lansing Masonic Lodge who were the college guests of Director Brewer and Prof. Gunson on August 1. The first annual meeting of the Michigan Soil Improvement Association brought many leading farmers to the state and noted specialists from other states. W. D. Hurd '99 of the National Soil Improvement Committee addressed the meeting. The Holstein-Friesian cattle breeders held a picnic and meeting later in August which was very largely attended by dairymen of Michigan.

HOUSING FACILITIES FOR STUDENTS is a problem that the college is facing at the beginning of this year. With an expected attendance larger than M. A. C. has had in several years and with much less dormitory space available the situation may be termed acute. The proper housing of the girls is receiving special attention. The two men's society houses which were leased for last year by the college and used as girls' dormitories have reverted to their owners the Hesperian and Eunomian Literary Societies so that the facilities that they offered will have to be secured elsewhere. With all of the dormitory rooms on the campus taken many students are returning early to secure rooming accommodations in East Lansing. From present appearances it would seem that these will soon be exhausted. Whether an attempt will be made to place the young women students in houses by themselves or whether they will be permitted to take rooms wherever they may find them in collegeville cannot be determined.

THE LARGEST ENTERING CLASS in the history of the College is expected to enroll when the college opens its sixty-second year on September 30. In-

terest in agriculture has been greatly increased by the war, and indications are that many more young men than usual will prepare themselves for scientific farming. More young women have already made application for entrance to the home economics course than ever before, and the college is adding to its equipment and strengthening its teaching force in order to take care of the demands upon it. The demand for teachers of domestic science and dietitians in hospitals is partly responsible for the increased enrollment of girls.

THE 'CO-OP' BOOK STORE which for 19 years has operated adjacent to the alumni office in the car station building on the campus has moved to the Bank Block on Grand River Avenue. Enlarged and more advantageous business quarters are gained in the move, and the store facilities are made more convenient to East Lansing school children. The Book Buying Association has had a very steady and solid growth for the time of its founding in 1896 and the present move to a better business location with the possibilities of branching out and broadening its lines of trade is a further mark of progress.

C. D. BETTS, former purchasing agent for the college was appointed State purchasing Agent by Governor Sleeper during the summer and has left the college to take up his state duties. For eight years Mr. Betts has been purchasing agent for M. A. C. coming to the college from the purchasing department of the Pere Marquette Railway. His new position was created by the last legislature and provides beside the purchasing agent an advisory board consisting of the Governor, the State Food and Drug Commissioner and Stewards of nine of the State Institutions. Mr. W. N. Sweeney, for a number of years Secretary of the State Railroad Commission, has been appointed by the college to take the position made vacant by Mr. Betts. Mr. Sweeney is the father of Ralph Sweeney '19.

REAL ESTATE ACTIVITIES in East Lansing have taken a decided jump and the usual rush for houses preliminary to the opening of college is scarcely a rush at all, for practically every available house in the college community is filled and apartments have waiting lists. The real estate boom and the demand for homes is showing itself in the development of two new subdivisions near the city Ardson Heights and Oak Ridge additions. The first one is largely sold out to college people and was put on

by the Standard Real Estate Co. of Lansing. The Oak Ridge Land Company was recently organized to develop the Cowley property just west of the college and has as its officers Jacob Schepers, President; Prof. A. C. Conger, Vice President; and A. J. Nash, Secretary and Treasurer. During the summer demands for a local building loan association were met by the organization of the East Lansing Building and Loan Association. The new company is organized under the state laws for such associations. The officers are D. A. Seeley '98, President; Mark Smith with '85, Secretary and Treasurer. The Board of Directors consists of Prof. Ryder, Director Brewer, Prof. Plant, Luther H. Baker '93, Prof. Chapman, Dr. Gitlner, Prof. Emmons, Prof. Sawyer, Chase Newman with '95 and J. A. Nash. The new association has had several applications for loans and is just arranging to begin an active business. It will be a great aid to the city in developing East Lansing as a home owner's town. Approximately forty new houses are in the course of construction and should relieve the situation somewhat before winter.

A RECENT ORDER OF THE WAR DEPARTMENT placed Major P. G. Wrightson upon the retired list and Major C. A. Ross with '11 was sent to the college to succeed Major Wrightson as commandant. Major Ross was here but two days, however, when orders were received assigning him to a post at the Academy at West Point and whether Major Wrightson will leave M. A. C. is still indefinite. There is now before Congress a bill providing that retired officers now successfully serving as commandants at schools and colleges may be retained. It is entirely possible that if this bill is passed by both houses Major Wrightson will continue at the college. The order which retires Major Wrightson places upon the retired list every army officer in the country who was on the inactive list prior to the war and went into active service during the war. It was the idea that these men were to be replaced by officers who were on the active list. Upon first receiving the order retiring him Major Wrightson made plans to move to Los Angeles. He has not proceeded with the plan, however, awaiting the decision of Congress and the War Department. The fact that at the annual government inspection, the college regiment went into the distinguished class as one of the first ten college regiments, should prove a strong argument for the retaining of his services at M. A. C.

THE M. A. C. RECORD

Entered as second-class matter October 30, 1916, at the post office at East Lansing, Michigan, under the Act of March 3, 1879.

Published every Friday during the College Year by the Michigan Agricultural College Association.

W. K. Prudden, '78, Lansing - President
E. W. Ranney, '00, Greenville, Vice President
H. H. Musselman, '08, East Lansing, Treas.
O. W. McKibbin, '11, East Lansing, Secretary and Editor

May E. Foley, '18, - Assistant Secretary
A. C. McKinnon, '05, Bay City

Anna Cowles, '15, East Lansing } Members of
Alexander Mac Vittie, '11, Caro } Executive Committee Elected at Large.

MEMBERSHIP IN THE M. A. C. ASSOCIATION which includes subscription to the RECORD, \$2.00 PER YEAR.

Make Remittances payable to the M. A. C. Association.

FRIDAY, SEPTEMBER 19, 1919.

THE ALUMNI PROJECT.

At commencement time the Association pledged itself to the raising of \$150,000 to erect a Union Memorial Building and then and there substantiated its pledge with the subscription of \$35,000. During the summer an untold amount of preliminary work has been accomplished which does not show in immediate results but which is necessary, nevertheless—and the campaign organization gotten under way. Probably the next issue of the Record will announce the regional directors and the local association committees. Then the drive will be put on in earnest with the goal to be reached by December.

It is intended that the campaign by mail shall be supplemented and followed up by personal contact solicitation by committees among the local associations. Certainly no one shall be missed in the extending of the opportunity to give. This is the first big project ever undertaken by M. A. C. alumni. M. A. C. Spirit wont permit of any result but an early "over the top."

* * *

The last issue of last year was the commencement number. It was necessary to omit the usual summer number of the Record and this issue begins the new year. The next number will issue October 3 and weekly thereafter.

GEORGE T. HAYES '15.

News has recently been received of the death of George T. Hayes, '15 on July 26 at Whittier, Calif., after a long illness. He had a severe attack of Influenza in February, 1919, which was followed by pneumonia. Since May he had failed gradually in consequence

of an operation performed upon his lungs.

Hayes, at the time of his death, was superintendent of field work for the Leffingwell Orange and Lemon Rancho, at Whittier. Immediately after his graduation he was an instructor in the department of horticulture, at M. A. C. While in college he was a member of the Electric Society, the Sem. Bot. fraternity, the Hort Club, and the New York Club.

Mrs. Hayes will be remembered as Frances Mary Madison, assistant to Miss Hollister, Seed Analyst at the college in 1914-16.

HARRY A. MYERS '18.

Harry A. Myers, with '19 of Leipsic, Ohio, was accidentally drowned June 6, in the Sarthe River at LeMans, France. He was a Sergeant of the Headquarters Detachment, 546, Engineers, A. E. F. He was buried with military honors at LeMans.

Myers entered M. A. C. in the fall of 1914 as a student in the Agricultural course, and left at the beginning of the spring term in his junior year,

immediately after the breaking out of the war. He was a member of the Hermian Society, and the Farmers' and Buckeye Clubs, and of the S. C. L. of the Peoples Church.

Myers left New York with his regiment Sept. 14, 1918, and arrived in France Oct. 7. He was in the Argonne drive which began November 1, at which time the Germans were driven back for the last time. In a letter written last winter, he mentioned planning to get back in time to attend college this fall.

FLOYD C. TAYLOR '09.

Floyd Clyde Taylor '09 died very suddenly at the home of his parents in Charlotte July 20th. He had undergone an operation a month or so previously and it is thought that

death was due to a blood clot in the brain.

Mr. Taylor was consulting engineer at the Novo Engine-Co. in Lansing and has been living in Lansing since graduation. He had been employed in the Novo Company since 1916. Previous to that time he was engaged with the Central Welding Co. of Lansing.

THE WAR RECORD.

Many inquiries have come in concerning the War Record, which the College is contemplating publishing. We hope now to have this completed before winter. Information has been slow in coming in as some of the boys have not yet returned, and matters at the college have also somewhat delayed the publication of this book. As soon as it is completed, all men who were in the service will be notified and photographs will be returned.

FROM DR. BEAL.

Amherst, Mass. August 1, 1919.
Dear President Kedzie:

Last evening a flying machine with three men arrived from Washington, sailing over Amherst lighted in a field of the Agricultural College. One of the men lectured to the crowd of the summer courses. This morning they are to rise, performing some fancy stunts and return. On the trip they went around a thunder storm. Ray (Ray Standard Baker '89) rode in a machine from Paris to Belgium and got terribly scared. He now believes the young driver purposely tried to scare him. No doubt M. A. C. will add this sort of thing to help entertain the crowd of up-to-date farmers. These are great times.

W. J. Beal.

WINNER OF LAWSON PRIZE ANNOUNCED.

A tabulation of the grades in the Lawson Prize Essay Contest gives first place, with a prize of \$25.00, to Stanley M. Powell, of Ionia, a junior in the agricultural division. The winning essay is entitled "Living the Full Life on the Farm." The second prize, of \$15.00, goes to Walter Hockstad, '22, agricultural student, of Traverse City. This is the first time a freshman has won a prize in the Lawson Contest.

Mr. Powell, who wins first place, has made an exceptional record in his academic work and in his outside activities during his three years in M. A. C. He has the too rare distinction of making an A in each term of English during his freshman year. In the spring term of the same year he represented M. A. C. in its freshman debate with Hillsdale College. In 1918 he was a member of the debating team that defeated Iowa State College. This is the second time he has contested

for the Lawson Prize. Last year he wrote on "The Bright Side of the War," but was defeated by H. C. Diehl, senior forestry student, whose essay on "Strindberg" won first place, and by Paul C. Jamieson, now county agent of Calhoun country, whose "Patriotism and Production" took second.

The judges this year were A. M. Drummond, director of the Cascadilla School, Ithaca, N. Y., Richard T. F. Harding, manager of the Youngstown Telegram, Youngstown, Ohio, and Professor J. E. Rogers, of Carroll College. The grades sent in by the judges are kept on file in the English office, where they may be seen by anyone who is interested in the contest.

MISS MAY FOLEY '18 ASSISTANT ALUMNI SECRETARY.

The alumni office announces with much pleasure the addition to its staff of Miss May E. Foley '18 of St. Johns as an assistant to the secretary and editor.

Since graduation Miss Foley has been home demonstration agent in Menominee County, leaving that work July first to enter the alumni office. Miss Foley is especially well fitted for her new work. She was associated with E. R. Trangmar, '17 in the college publicity office during its organization and while she was still in college. During the past year she organized the home demonstration work in Menominee county.

The Union Memorial Building campaign and the gathering of the material for the college war history, besides the regular alumni work which is by no means diminishing—have so increased the tasks of the alumni office that the appointment of Miss Foley as an assistant is most pleasantly greeted. We know that along the us, members of the Association and readers of the Record, will appreciate her services in a facilitated handling of Association matters and a larger and a more newsy M. A. C. Record.

BIG FOOTBALL YEAR EXPECTED.

Coaches Call Out Greatest Squad in History.

With the opening of the Aggie early season football training at M. A. C. this week work will be started in developing a gridiron aggregation, which should be the very best ever turned out at East Lansing. M. A. C. coaches, fans and followers all agree that never have the prospects been as bright as at the present time. This year because of the abnormal conditions resulting from the war no less than 18 winners of football monograms in former years will be back at their alma mater to have a try at making the team. And besides these men there are a host of candidates who have been members of all-fresh teams in years past, and who have developed enough to make the others hustle this year.

Great teams in the past which have mostly been built around some three or four particularly brilliant performers, but this year it would appear from a paper view of the situation that every single position can be filled by a man who is a real star. At least 35 are expected to come out to the early season training and there will be more to make teams after classes start.

The forming captains who are expected to be back are Del Vandervoort, captain-elect for 1917; Sherman Corryell, captain in 1917; "Irish" Ramsey, captain-elect in 1918; and Larry Archer, captain in 1918. In addition there will be Siwash Franson, the appointed leader for this fall, who is expected to have his hands full handling a flock of old-timers, many of whom were regulars when he was serving his apprenticeship.

Other varsity men who will be in the fold when the coaches take charge are Hammes Snyder, Simmons, Oas, and Springer, all backfield men, and Schwie, Basset, Bos, VanOrden and several other linemen. Followers of the team are already predicting a repetition of Aggie successes of 1914 and '15.

Their predictions are not based alone upon the wonderful lineup of material at hand, but take into account the unparalleled coaching staff. Director Brewer will be on the job himself this fall and alumni know the Directors "failing" for football and that it is his favorite sport. Assisting is G. E. Gauthier '14 who directed the Aggies destiny last year and who "built something out of nothing."

As second assistant, Lyman Frimodig '17 will take his part in bringing out another winning aggregation. It will be Frim's first year at college coaching, but those who remember his record as an athlete at M. A. C. have no doubts as to the big boy's ability to fit into the machine. Frimodig holds the M. A. C. record for all time

in monograms won, having corralled no less than ten varsity letters during his stay at college.

During the summer, the baseball diamond on College field has been dug out and a solid turf is now in its place. The first practice will commence on the regular field. Conditioning for wind and legs will be the object of the first exercises. Until college opens the men are to be housed in Wells Hall. No training table will be established.

FACULTY CHANGES.

New Dean of Women.

Miss Eudora Savage, until recently dean of women at the Kirksville Normal College, Kirksville, Mo., is to be the new dean of women. She succeeds Miss Anna Howard, who resigned before the close of the college year, and begins her new duties this week.

Miss Savage was director of teacher training at the Kirksville Normal and was connected with that institution for 12 years. Prior to that she taught at the Stevens Point, Wis. Normal. She is a graduate of Michigan State Normal and Chicago University and has taken work at the University of Wisconsin and Columbia.

Bibbins '15 Made Assistant Prof.

Baseball fans among the alumni and many others will be glad to learn of the return to the college staff of A. Leal Bibbins '15. "Bib," who was discharged from the Motor Transportation Service August 2. Bibbins comes back to the college as assistant professor in the farm crops department. He was an instructor in this department for two years after graduation. He enlisted as a private in the 310th Engineers in September, 1917, and volunteered for immediate overseas service, in the motor transportation corps. While across, he studied crop rotation at the Rothamstead Experiment Station, at Aberdeen College, Scotland. Bibbins' company had a famous baseball team, which beat up all Brigade and Regimental teams, winning 22 games out of 22 played. Three other famous M. A. C. baseball stars were on the team, Morris Knapp, '13, "Hockey" Ralph Dodge '14, and "Chi" Fick, '17.

Alumnus Goes to U. of M.

Prof. M. F. Johnson, '07, on the staff of the mathematics department for ten years, has accepted a position with University of Michigan. He was an instructor at M. A. C. from 1909 to 1912, acting head of the department in 1912 and 1913, and was made assistant professor in 1913, which position he held at the time of his resignation. Last fall he did graduate work at the University, and received his master's degree.

Prof. Halligan Heads Horticultural Department.

Professor Charles P. Halligan who has been connected with the department of horticulture since 1907, was made head of the department at the August meeting of the State Board of Agriculture, to take the place of Prof. H. J. Eustace, resigned.

Because of his broad experience and knowledge of the department, Mr. Halligan was considered better qualified than any other man to fill this position.

He graduated from the Massachusetts Agricultural College in 1903,

taught two years in the National Farm School of Pennsylvania, and previous to coming here was an instructor in the Massachusetts Agricultural College. Prof. Halligan was made Assistant Professor in 1910, and Associate Professor in 1913. He was acting head during the year that Prof. Eustace was connected with the Food Administration in Washington, and previous to that when Prof. Eustace was making a tour of inspection of the United States. He is particularly interested in landscape gardening, and has featured this work.

Popular Club Leader goes to New York.

Anna B. Cowles, '15, who since her graduation has been connected with the extension department of the college has resigned to accept a position with the National Community Council of New York City. Miss Cowles has been State Club Leader for Girls during the past three years, and previous to that was an extension specialist in the department of home economics. Under the supervision of Miss Cowles, the girls club work in the state has developed rapidly, and

she has an enviable reputation as a club leader all over the United States.

Miss Cowles will organize community centers in Manhattan. Her address in New York will be 609 W. 114th St.

Miss Barbara Van Heulen, '10 who has been Assistant Club Leader for the past two years, will probably be appointed as State Leader.

M. A. C. Man Becomes Associate in Dairy Department.

O. T. Goodwin, '13, who has been connected with the college for a year as extension specialist in dairy manufacturing was appointed Associate Professor of Dairy Husbandry beginning Sept. 1. Previous to this and since his graduation from M. A. C., he was with the University of Georgia, first as instructor and later as assistant professor of animal husbandry. He takes the place of Prof. H. W. F. Newhall, resigned, who is leaving for New York University to do graduate work. Mr. Newhall was with the department for three years.

"Fat" Taylor Joins Faculty.

Dr. O. A. Taylor, '15, "Fat" popular yellmaster, while at M. A. C. has been appointed assistant professor in the Veterinary Department. Dr. Taylor was discharged from the service where he was a Lieutenant in the Veterinary Division, on April 22. Prior to this and immediately after his graduation from college, he was in practice in Detroit with Dr. R. Armstrong. He succeeds Dr. J. W. Benner, who has resigned.

Prof Melick Leaves.

Engineers and other alumni will regret to learn of the resignation of G. A. Melick, associate professor of civil engineering at the college. Mr. Melick has been connected with the college for eight years, first as assistant and later as associate professor. He is now with the State Highway Department at Lansing. Mr. Melick is succeeded by Chester Allen of Washington, D. C.

Popular Home Economics professor Leaves.

Miss Edna Garvin, Associate Professor of Domestic Science, resigned her position on September 1. Miss Garvin came here from Columbia University three years ago as an instructor in the department, and last year was made associate professor. She was well known and liked among the home economics students, and did splendid work in the diet kitchen at the time of the influenza epidemic in the S. A. T. C. last fall and winter.

Drawing Instructor Returns.

Myron Chapin, for three years instructor in the Drawing Department, previous to entering the service, returns this year. Mr. Chapin went to Camp Custer in the fall of 1917, and has just recently been discharged.

Horticulturist Takes New Position.

John H. Carmody, '12, Extension Specialist in Horticulture for two years, left August 1 to take a position as field manager for the Holland-St. Louis Sugar Co., Decatur, Ind. Carmody was discharged in May from the Ambulance Corp. 340, after serving for nearly two years with the 85th Division. Previous to his appointment as Extension Specialist at the college he held a similar position with the Kentucky University. Carmody did excellent work with the college and is well known among horticulturists.

CAMPUS LANDSCAPERS REPORT ON CHURCH AND BUILDING SITES.

At the June meeting of the State Board of Agriculture, Olmstead Brothers of Boston, into whose charge the future arrangement and development of the college campus has been placed made the following report relative to the advisability of permitting a church site on the campus and the location of the new library-administration building and the auditorium.

"You have referred two questions to us for an opinion.

The first relates to the expediency of transferring land now included in the Campus to the People's Church as a site for a church building, and to the best location for such a site if expedient. Bearing in mind the history of other educational institutions in regard to extension and contraction of the lands held by them for educational purposes, and bearing in mind the present logical and satisfactory boundary of the Campus along Grand River and Michigan Avenues, we would advise in the strongest terms against alienating any of the College land south of those Avenues. If it is the policy of the Board to enter into co-operation with the religious congregations which maintain the People's Church, or with any or all of the religious congregations which are now or may hereafter be established in East Lansing, for the purpose of providing a common place of worship for joint use by students and citizens, it would seem that this end could be accomplished in either of two ways without the very serious risk of future complications involved in alienating any part of the Campus. One way would be the erection on the Campus of a non-sectarian collegiate chapel or church open to the citizens of the town and partly supported by them but owned by the College and providing for worship from time to time according to the number of any and every faith professed by any considerable number of students. The other would be to aid by money grants and otherwise in the support of any church or churches in the town to which the students resort. A church within the Campus but not of it, and wholly beyond the control of your board as to the future development would be almost certain to prove embarrassing in some future contingency to the growth of the College.

The question of a suitable site for a church within the Campus would be important, even if the opinion of the Board concurs with ours in regard to the inexpediency of alienating any part of the Campus, in case there is any probability of co-operation with congregations in East Lansing in the erection and use of a structure on the Campus without transfer of title from the College. But the selection of a good site is not easy, and in view

of our opinion on the major question we have not attempted to select a site pending further instructions.

The other matter relates to the location of the Library and Auditorium. In our report of May 10th, 1915, in outlining a scheme of future quadrangles, we suggested as the site at the north end of Quadrangle 11, including the site of the present library, as possibly desirable for the future library, and recommended the west end of Quadrangle 1 on the site of the present greenhouse for an Auditorium. The destruction of Williams Hall and the economical desire to convert the present library building to other uses and retain it for some years to come, point clearly toward the erection of the new library on the site of Williams Hall, which has some distinct advantages over the one we suggested in 1915 and no serious drawbacks. Its main advantage is that it is more central to the working buildings of the College and to the heating plant. The only advantage of the site previously recommended is that in the distant future, with the completion of the quadrangle system which we outlined, it would occupy a better architectural position for a building of such importance, namely at one end of a quadrangle and on the axis thereof. But until the removal of the present library and the completion of the quadrangle the site then suggested would be inferior in appearance to the one made available by the burning of Williams Hall.

We therefore recommend the latter, offering certain more specific suggestions below.

We believe the site suggested for the Auditorium in our report of 1915 a good one, but objections to it have been pointed out by the President mainly on two grounds: the possibility of annoyance by noises made by students in Wells Hall, and the fact that it would be dissociated from the library, with which he regards it as very important to have it closely associated.

It has the further economic disadvantage of requiring the immediate removal of the greenhouses to a location east of Farm Lane, although they should ultimately be moved in any case.

Experience elsewhere leads us to believe that the first objection raised by the President to the Auditorium site recommended by us in 1915 is not serious, but the second involves a matter of academic policy on which we can only defer to his judgment. On the question of actually incorporating the Auditorium Library in one structure however, we beg to point out that there are three very serious complications in planning. First it would make a very large building unit which would be difficult to fit into a general plan already sufficiently complicated by the locations of existing buildings. Second it might tend to restrict the freedom of the architect in working out an architectural treatment logically and economically differentiated for two structures of such radically different character as an auditorium and a library. Third, and most important, it would materially reduce the flexibility of the library plan in regard to future extensions. Whatever library building the College erects with the appropriation now available will unquestionably have to be enlarged in the course of a generation or two. Extension of the stack space, laterally or vertically or both, can readily be provided for, but if the experience of the last twenty-five years with the libraries of educational institutions proves anything, it is that we cannot foresee with any certainty the changing requirements for other facilities supplementary to the library nucleus, which consists of the stack and the catalogue and delivery rooms. The amount of general reading room space, and especially the amount and

character of space needed for seminars and class rooms and special study rooms accessible to the stack and of special libraries; the possible desirability of having other extensive collections of reference material, such as herbaria, and the means of consulting and using them, closely associated with the literature of the subjects to which they relate; all such uncertain factors make it extremely desirable to have a college library, especially the library of a technical college where research work in special fields may readily develop, so designed and so situated in relation to other buildings that future generations may have the utmost possible freedom in extending the building in several directions as their needs may dictate, and not merely by addition to the stack. Therefore to block the possibility of extension in one or more directions by attaching to the library an auditorium, which is by its nature not readily convertible to other uses, seems to us very inadvisable if it can be avoided without serious sacrifice of immediate and known advantages.

In view of these considerations and of the strong preference expressed by the President for associating the auditorium with the library, we believe the best solution would be to place the former substantially on the site of College Hall, closely adjacent to the library but not so as to block its free expansion.

In our report of 1915 we urged that the site of College Hall should not be used for a large modern building, because of the bad effect of such a building on the scale of the old Campus to the north. In saying this we had in mind structures of the type of the Agricultural Building and the Engineering Building. The Auditorium, while large in ground plan, will not be high, it does not require large window areas, and we see no reason why it should not be designed so as to look admirably in keeping with the scale and character of the old Campus if erected on the site of College Hall. The situation is a beautiful one and it is as near the town and the car line as any site south of the main open space of the Campus. There is no thoroughly satisfactory site north of that space and to place it north would again dissociate it from the library, which must be fairly central to the working buildings. Therefore we recommend the College Hall site for the auditorium as shown on the accompanying block plan (No. 21.)

This plan contemplated a relocation and straightening of the present main road and will require a considerable amount of very careful modelled grading to make so large a building as the auditorium fit the site comfortably. The branch road which goes past the Engineering Building, without giving convenient access to it, ought also to be relocated at the same time, and if there is a sufficient surplus of material from the excavations for the buildings some filling should be done in the low spot between the Chemistry Building and Wells Hall. As a basis for such grading and road plans in connection with the design of the two new buildings, a detailed topographical survey should be made of the area indicated on the map in accordance with the attached specifications; and we should be glad of the opportunity to prepare detailed plans for the grading and road changes, in consultation with the architect, on the basis of such a map as soon as it is completed. It is important to the success of the sites recommended that this supplementary work should be done in just the right way, and it is impossible to specify verbally or by the absence of such a detailed survey what we have in mind as necessary to the success of the sites.

The outlined plan submitted herewith shows the auditorium in block outline about as on Mr. Bowd's preliminary study. The carriage entrance

would naturally be at the south end of the building off the main drive, but most people will approach the building on foot from the north. This is not an ideal arrangement and it will take some study to find the best solution of the problem, but it is not at all insuperable.

The library site is indicated on the plan only by a rectangle including what would probably be its maximum future limits in any direction. The main entrance would be upon the north, but it would be desirable to have a basement entrance on the south, probably directly opposite the entrance of the Engineering Building, and it would be desirable to extend the initial building in some part to the southerly building line so as to mark definitely the north side of Quadrangle 1, and to plan for the ultimate development of a fairly long facade on that side of the building treated not as an unimportant back turned toward the Engineering Building, but as a secondary front adequately balancing the latter and forming one of the most important parts of the frame enclosing the first real Quadrangle of the College.

Respectfully submitted,
(Signed) Olmsted Brothers.

ADVANCED DEGREES EARNED IN NON-RESIDENCE BY GRADUATES.

A graduate with the first degree from any of the regular four-year courses of this college becomes eligible to enrollment for the appropriate professional degree, five (or more) years after the conferring of the first degree, subject to the following regulations:

(a) No graduate is eligible who shall not have spent five years in the pursuit of the occupation or profession in which the degree is desired.

(b) He must have been in responsible charge of some work of his profession for at least one year, or he must have attained recognition, through investigation or practice, in the advancement of his profession.

(c) His application for enrollment for the degree must be received by the secretary of the Committee on Graduate Study on or before October 1 and that the thesis title and outline must be in the hands of the secretary of the committee by January 1. The complete thesis must be in the hands of the committee not later than May 15 and if approved it must be presented in the required bound form not later than the Thursday preceding commencement.

(e) A candidate for enrollment is required to fill out return to the secretary of the committee on Graduate Study, the blank which will be supplied on application.

No thesis will be approved for any degree if it consists of matter which the candidate has used elsewhere in the same form. Any thesis may be published, with the approval of the department concerned, after the degree has been granted, provided notice is appended in such publication to indicate its origin as a thesis for a certain degree in a department of this college.

If no progress is made by a candi-

date for an advanced degree within two years after application for enrollment, his name shall be dropped and re-enrollment shall be necessary before he may again take up work for the degree.

The professional degrees which are granted under this arrangement are:

C. E., Civil Engineer; M. E., Mechanical Engineer; E. E., Electrical Engineer; Chem. E., Chemical Engineer; M. Agr., Master of Agriculture; M. Hort., Master of Horticulture; M. For., Master of Forestry; M. H. E., Master of Home Economics; M. V. Sc. Master of Veterinary Science.

Picnic of Northwest Michigan Alumni August 16.

WITH THE ALUMNI CLUBS.

ST. JOSEPH COUNTY PICNIC.

Brimming over with old-time M. A. C. enthusiasm and "pep" was the St. Joe County M. A. C. Association picnic held at Klinger Lake, St. Joseph County, on August 14. After a "real" picnic dinner, several former students and friends of M. A. C., were called upon for impromptu talks, William T. Langley, '82, President, presiding. Short remarks were made by J. M. Wendt '15, County Agricultural Agent; Howard C. Bucknell '06, Centreville; Howard Slote, Special, Constantine; G. Lee Barnes '17; Sam Hagenbuch '10, Secretary of the Association; and H. E. Hewitt '13, Teacher of Agriculture at Three Rivers. Robert Zimmerman, muck farmer of Centreville, who has been doing some valuable experimental work in co-operation with the college, expressed his interest in M. A. C. and his pleasure at being present; Miss May E. Foley, assistant alumni secretary representing the college, spoke briefly on matters of interest at the college. The old officers were unanimously elected for the coming year, as follows: Wm. T. Langley '82, President; Sam Hagenbuch, '10, Secretary. The afternoon was spent in bathing, launch-riding, and renewing old friendships.

ALUMNI BREAKFAST AT GRAND RAPIDS.

A number of club workers and extensionists who were attending the county club leaders roundup and State Club Leaders Meeting at Grand Rapids June 7th got together for a breakfast at the Hotel Browning. It is needless to say that considerable M. A. C. enthusiasm was stirred up and vented itself in rousing yells and songs led by R. A. Turner '09.

Those who attended were: R. A. Turner, '09, East Lansing; Alice M. Kuenzli, '16, Manistee; Nathalia Vassold, '22, Hastings; Anna B. Cowles, '15, East Lansing; Wm. A. Anderson, '17, East Lansing; Elda Robb, '16, Lansing; Ernest F. Lyons, '17, Ann Arbor; Lucius D. Sears, '16, Battle Creek; Carl H. Knopf, '11, Manistee; and Gero A. Himebaugh, '17, Lowell.

MANISTEE PICNIC.

A picnic gathering which developed into the organization of the Northwestern Michigan M. A. C. Association was held at Onkema in Manistee County, Saturday, July 16th.

The Manistee County people have contemplated an organization for some time but have been unable to select a time and place that would permit of everyone's attendance. The numbers were swelled considerably by four machine loads of East Lansing and Detroit faculty people and alumni who were resorting at Crystal Lake near Frankfort.

Following a very bounteous picnic dinner games led by Geo. Gauthier '14 kept the crowd entertained. When the excitement had subsided each alumnus and former student told the most amusing accident that occurred during his time at the college. Before leaving "the grotto" an organization meeting was called to order by Carl Knopf '11 at which H. A. Danville, '83, Arcadia, was elected President, L. W. Read '14, Copemish, Vice President and Alice Kuenzli '16, Manistee Secretary and Treasurer. It was decided to call the organization the Northwestern Michigan M. A. C. Association and includes several counties adjoining Manistee.

The picnic was arranged through the efforts of County Agricultural

Agent Carl Knopf '11 and Alice Kuenzli '16, Home Demonstration Agent. The following people attended: A. L. Finch '15, Arcadia, Chas. Peek '16, Lee W. Finch, Winnifred Welsh, Bear Lake, Mervel O'Lin, Bear Lake, Irma Bowen, Bear Lake, Amy Flink, Bear Lake, Emma Tucker, Arcadia, Earl J. Finch '18, Arcadia, H. A. Danville, '83, Arcadia, C. J. Strang '78, Floyd Robison '98 Detroit, Mrs. Floyd Robison; W. J. Kingscott '06, Mr. and Mrs. Luther Baker '93, Flink with '21, Mr. & Mrs. W. O. Hedrick '92; Mr. & Mrs. McColl '90 Catherine Fowler, Benzonia; Helen Case, Mr & Mrs. Ted Caldwell '12 (Mary Richardson '12), Mr & Mrs. Neil Perry '07, Elmyra Brimmer '14 Copemish; Edna Ray '22, Manistee; May Ray '18, Manistee; Grace Anderson '18; G. E. Gauthier '14; Miss Rummel Carl Knopf '11, Alice Kuenzli '16; Dean & Mrs. Lyman, E. A. Case '08, Benzonia; Mr & Mrs. L. W. Read '14, Copemish, Mr & Mrs. C. W. McKibbin, (Ruth Mead '12).

DES MOINES PICNIC.

Energetic alumni out in Des Moines, Iowa in looking about have discovered that there are enough M. A. C. people in the city for social gatherings. Accordingly they have decided upon a program and their first number was carried off most successfully in the middle of July. Lytton Calrow '18 writes the following concerning it, "I meant to write you two weeks ago when we had our M. A. C. picnic out at Greenwood Park but didn't just have the time to do it."

It might be of interest to you to know who was there, former Dean Gilchrist, Mrs. Roseboom, (Miss Norma Gilchrist,) Mrs. Shaw Van ('08) and husband, Frank Sharrow '15 and wife Tubergen '11 and myself made up the unite. Had an enjoyable time. We plan on having a number of such gatherings in the future.

MINUTES OF SUMMER BOARD MEETINGS.

JUNE MEETING.

The June meeting of the State Board of Agriculture was held in East Lansing June 18, with President Kedzie, Messrs. Graham, Doherty, Beaumont, Woodman and Wallace present.

The minutes of the previous meeting were approved without reading.

The following report and recommendation of the Committee on Employees was adopted:

"That in the salaries of all persons below the grade of heads of departments and exclusive of stenographers, a straight advance be made of \$200 each; that the salaries of heads of departments now drawing less than \$4,000, be increased \$450 each and further that the president and secretary be authorized to make such further increases for special ability and service or other appropriate reasons, as may to them seem just and expedient."

"That it is further recommended that in the place of the "incidental" fee of \$7.50 per year now paid by students, an annual fee of \$45.00 be charged, payable \$15.00 per term, that the fee for special courses be \$10.00

instead of \$5.00 for Michigan students and \$20.00 instead of \$10.00 for foreign students, and that a very substantial increase in room rents be established, sufficient at least to cover the cost to the institution."

The following resolution was adopted: "Whereas some of the departments and agencies of the college have persistently overstepped the regulations in regard to the purchase of supplies, to the annoyance and confusion of the business office and the purchasing agent in particular, therefore be it resolved, that from and after July 1 next any and all purchases made on college account by any individual other than the purchasing agent or by his permission will be regarded as personal and such invoices will not be paid by the college."

In response to the request of the Board, the report printed in another column of the Record was received from Olmsted Brothers and that portion of the report relating to the Peoples Church was adopted.

The request of the French Food Commission for the services of Mr. H. W. Norton in connection with the purchase of dairy cattle, was granted.

Several communications were presented to the Board endorsing Dr. J. P. Stewart of Pennsylvania as head of the horticultural department, and the president was requested to investigate the qualifications of Mr. Stewart and of other persons likely to be qualified to fill this position.

The expense accounts of Mr. Kebler and Miss DeBoth in connection with club work in the Upper Peninsula were authorized to be paid.

Mr. Hasselman was appointed college publicity agent with the understanding that he is to continue to teach Agricultural Journalism.

The action of the faculty and the president in conferring the following advanced degrees, was confirmed:

Ruth Dorothy Normington—Master of Science.

Stanley George Bandeen—Master of Science.

Foster Rudolph—Master of Science.
Henry Eveleth Publow—Chemical Engineer.

Harold Madison Jacklin—Mechanical Engineer.

Earl C. Sanford—Master of Forestry.
Harold Sterling Bird—Master of Horticulture.

Irwin Thomas Pickford—Master of Horticulture.

Edmund Harrison Gibson—Master of Horticulture.

The request of Dr. Bessey, approved by Dean Shaw, for permission to attend a meeting of the American Plant Pathologists at Riverhead, Long Island, New York, June 24th to 28th with expenses paid, was approved.

Mr. L. E. Elsdale was appointed half time graduate assistant in botany to begin September 1st.

Those nominated deputy apiary inspectors by Mr. B. F. Kindig, state inspector of apiaries, were appointed.

Professor Grover and Miss Frazer were authorized to attend a meeting of the Federal Board of Education at Indianapolis, with expenses paid from the Smith-Hughes Vocational fund.

Professor R. H. Pettit or some one from the entomological department was authorized to attend a conference to be held some time during the summer on the subject of the European Corn Borer.

Dean Shaw was authorized to attend a meeting of the American Association of Agricultural College Editors to be held at the Ohio State University June 25th to 27th with expenses paid.

Mr. H. W. Norton was made assistant to the director of the experiment station.

The matter of sending Miss Edmunds, or some one else representing the home economics department, to the meeting of the National Home Economics Association at Blue Ridge,

N. C., was referred to the president with power to act.

The expense accounts of the Board members were approved.

On motion, adjourned.

WEDDING.

BOTTOMLEY-PARKER.

Esther Anne Parker, '17, and Myrl E. Bottomley, '16, were married on August 16 at the home of the bride's parents in Coldwater. Bottomley was a lieutenant in the 335th Infantry, and was discharged late last spring. Previous to entering the service, he was with the Independence Nursery Company of Independence, Ohio. Mrs. Bottomley has been teaching domestic science in Detroit since leaving college. The Bottomleys will live at 8004 Connecticut Ave., Cleveland, O.

The marriage of Herbert Cooper, '16, and Sidna Free, '17, occurred on April 12, in Lansing. The Coopers are at home at 200 Moores River Drive. Cooper is managing the South Lansing Real Estate Company.

TRANGMAR-COLLINGWOOD.

Of more than ordinary interest to M. A. C. folks was the marriage on September 2 of Rebecca Collingwood, with '20, and Earl R. Trangmar, '17, at the bride's home in East Lansing. The bride is a daughter of Judge C. B. Collingwood, '85, of East Lansing, and a sister of Harris Collingwood, '11, of Ithaca, New York. "Trang" since graduation and until last spring was supervisor of publications at the college. He is now in the copy department of the Ralph H. Jones Advertising Agency, Cincinnati, Ohio. The Trangmars will live at 1905 Mentor Ave., Norwood, Cincinnati, Ohio.

YOKE-SEDINA.

The wedding of Miss Frances Sedina to Mr. Elmore Yoke, with '13, took place at the bride's home in Lansing. The bride is a graduate of the University of Michigan. The groom recently returned from overseas where he was a lieutenant in the army for nearly two years. The Yokes will live at 465 Oakwood Ave., Toledo, Ohio, where Yoke is in the employ of a development company.

DENDELL-HAYES.

Attractive in its simplicity was the wedding of Miss Leila Hayes and Lloyd P. Dendell, '14, which took place at the home of the bride's father, L. V. Hayes, West Saginaw St., Lansing, on August 21. For the past three years Dendell has been fire protection engineer with the Millers' Mutual Fire Insurance Company at Lansing. After an extended motor trip through the west, Mr. and Mrs. Dendell will be at home in Lansing.

WYANT-NORTHROP.

The wedding of Miss Zae Northrup, '06, assistant professor of bacteriology and Royce W. Wyant, '16, instructor

in the dairying department, occurred on September 12 at the bride's home in East Lansing. Miss Northrup received a Master's degree from M. A. C. in 1913, and an M. A. from the University of Michigan in 1914. Mr. Wyant recently returned from France where he served in an ammunition train.

WILCOX-BANGS.

Eugene Irving Wilcox, '08, and Miss Fannie Catherine Bangs were married on Thursday, August 28, at Bangor, Michigan. They will live at Bangor, where the groom has a farm.

NELSON-BROWN.

Miss Hearty Brown, with '09, daughter of Secretary and Mrs. A. M. Brown, of the college, was married on August 18 to Dr. Carl F. Nelson. The bride is a graduate of the University of Michigan and for the past five years has taught English at the University of Kansas. She has attained some prominence as a writer of short stories, a number of which have recently appeared in the Atlantic Monthly. Dr. Nelson is head of the department of biological chemistry at the University of Kansas. The Nelsons will be at home at Lawrence, Kansas, at the beginning of the college year.

LEONARD-HYDE.

George Leonard, '14, and Vera Hyde, '12, both of Hart, Michigan, were married at the home of the bride on August 16. The groom recently returned from overseas, and for a time was instructor in ignition and lighting with the Second Training Detachment at the college.

Alumni Notes

^{77.} W. O. Fritz of Pomona California was a campus visitor during the summer.

^{78.} W. K. Prudden of Lansing has been appointed by Governor Sleeper as Chairman of the new board of trustees of the Michigan State School for the Deaf at Flint, Michigan.

^{84.} John J. Bush was elected fourth vice president of the Michigan Society of New York, at the annual meeting of that society held in July.

^{90.} W. J. Myers, formerly with the Interstate Commerce Commission, is the new secretary of the United Light & Power Co., with offices at 130 East 15th Street, New York City. He will be glad to welcome any M. A. C. friends when they are in New York.

^{91.} Just before leaving the University of Missouri for France as a member of the French mission from American universities, Dean F. B. Mumford was presented with a little book of about a dozen pages by the faculty of the College of Agriculture. The title page of the book reads as follows: "A Testimonial to Frederick Blackmar Mum-

ford, Dean of the College of Agriculture of the University of Missouri, presented to him on the occasion of his leaving upon a special mission to France as the representative of American Agriculture." The Missouri Alumni of New York City gave a dinner in Dean Mumford's honor on the eve of his sailing for France.

'92.
T. S. Major is the new secretary of the Michigan Society of New York.

E. J. Freeman is now at 480 East 49th Street, Portland, Oregon. He is organizer of the western work of the Belvedere Screw and Machine Co. of Chicago.

'94.
C. B. Smith, Chief in the office of Extension Work, at Washington, D. C. was a college visitor during the summer.

'95.
J. S. Mitchell is still engaged in farming and livestock business at Holly, Michigan, pasturing his stock near Prescott, in Ogemaw county.

'96.
C. A. Jewell, who is connected with the agricultural high school at Amboy, Washington, wrote Mrs. Landon recently in part: "My regard for the good old college is of the highest order. Indeed I am so interested in its welfare that when I read in the Record of that monster \$750,000. appropriation for the use of the institution, I threw up my hat so high that it lodged in a fir tree at the front door. That is the source from which profuse funds should come. An agricultural institution in an agricultural state should be the educational crown of the state. And nothing short of prodigal liberality should satisfy both the institution and the people of the state it serves."

'98.
Col. Otis R. Cole (with) is now recruiting officer at Toledo, Ohio.

'02.
Arthur E. Kocker is with the Bureau of Soils U. S. Department of Agriculture at Grants Pass, Oregon.

'03.
J. M. Churchill is still with the State Highway Department of Idaho, with address at Mackay.

'04.
Arthur Adelman with the Ordnance Department at Washington, D. C., is engaged "on the development of improved Artillery Ammunition, the requirements for which were brought out by the war. One of the most interesting problems being increased range and accuracy, where rapid progress is being made." His address is 3709 Keokuk St.

F. C. Ohland (with) recently purchased two hardware stores in St. Louis, and merged them into one, operating under the name of F. C. Ohland & Co.

'05.
Richard C. Fowler formerly in the Bureau of Aircraft Production is now assistant sales manager of the Domestic Engineering Co., of Dayton, Ohio. They manufacture the Delco Electric Light products and sell complete electrical equipment for the farm. He lives at 616 Orlando Terrace, Oakwood, Dayton, Ohio.

'06.
C. A. Willson, Knoxville, Tenn. was made Assistant Dean of Agriculture at the University of Tennessee, in July. He has been connected with the University for some time as Professor or Animal Husbandry and Dairying. With Mrs. Willson (Bertha Wellman '96), he was a college visitor this summer.

'07.
Scott B. Lilly, formerly in Philadelphia, is now associated with V. N. Kenney, Contracting Engineer, 30 Church St., New York.

John Bowditch, Jr. (with) has been made associate district manager of the

Truscon Steel Company of Chicago, with which concern he has been associated for some time. He resides at 749 Grove St., Glencoe, Illinois.

'08.
Arthur R. Wilcox asks to have his address changed from Portland, Oregon to Wallowa, Oregon. He is still with the Forest Service.

Grove W. Dunham was discharged from the service June 2, 1919 and is again practicing dentistry at Albion, Mich. He was in service two years, one year of which was spent overseas. He had the distinction of being promoted to Division Dental Surgeon of the 7th Division in March.

'09.
Frank K. Webb, major in the Engineers, has returned to America and is now in New Orleans where his address is 238 So. Pierce St. Webb went over with the 24th Engineers as captain and regimental adjutant. Prior to returning to the U. S. he was promoted to the grade of major. While in France he met Lieutenants "Clint" Chilson, '12, and "Maggie" Wendel, '11.

J. H. Nelson, assistant superintendent of the Industrial Works at Bay City, Mich., is living at 1302 Webster St. Besides his regular position "Nelly" is city alderman, 6th ward, county supervisor, deputy sheriff, Master of Portsmouth Lodge, No. 190, F. & A. M., and Monarch of Shoppengaddon Grotto.

Kelly B. Lemmon, Major Coast Artillery Corps, has returned from overseas and is now at Fort Worden, Washington. Major Lemmon sailed from Hoboken September 8th but practically all of the time his outfit was in France it was in an instruction and training center.

Gerald H. Allen has moved from 375 Fisher Ave., Detroit, to R. D. No. 1, Redford, Mich.

Alonzo H. Chase has moved from Rocket River, N. Y., to Messina, N. Y. R. D. No. 3.

'10.
Parnell G. McKenna, captain First Field Artillery and instructor in the school of fire at Fort Sill, has left the army and is now in the oil lease brokerage business with offices at 52 Petroleum Bldg., Fort Worth, Texas.

Harry E. Saier, seedsman and florist at Lansing, announces the changing of his location to 114-16-18, East Ottawa St., where he has purchased the three stores. New machinery will be installed, up-to-date storage bins, etc., that will enable him to handle a large seed business to the best advantage. His floral sales room will be located, beginning August 1st, at 111 West Michigan Ave., which is now occupied by the Paris Cafe.

Frank Dayharsh has a land and real estate business in Stephenville, Oregon.

Oliver H. Cleveland, 2d Lieutenant Motor Transport Corps, writes that they are now packing up preparatory to leaving for a base port and he hopes to take a long ocean voyage shortly. "Clevy" landed overseas in July and was sent to a Motor Trans-

port School at Decize, France, where he has been ever since as one of the permanent personnel of the school.

'12. Frank F. Hebard, Gunners Mate, 1st Class, was released from active duty in the Naval Reserve Forces and is now at R. R. 12, Grand Rapids. While he was in the navy he served as a small arms instructor and an instructor in machine gun firing.

D. F. Fisher is joint author of an article on Apple Scald recently published in the Journal of Agricultural Research. It is characteristic of Fisher and his work and is done in the most thorough manner.

This from a Lansing paper: - "Who stole the coon and woodchuck from the Potter park zoo?" The cock sparrow is unable to say and the she bear stands mute. The elk grins sarcastically and the crow fish backs away from the question. City Forester Lee Bancroft, "Pete" wears crepe on his arm. Some one deliberately went to the zoo and carried the animals away. Whether the act was committed as a practical joke or not does not appease the wrath of the park authorities and Mr. Bancroft says: "It's a darn mean trick anyway."

Lieut. Harold Hawkins writes that he flew 7,004 miles during February and March visiting Cuba, Haiti and Jamaica. His air detachment is scheduled to be at Newport during July and August. "Hallie" is Squadron Commander in the Seaplane Division and is now at the Naval Air Station, Norfolk, Virginia.

Gale W. Gilbert of Onsted in attending graduation exercises at Mt. Holyoke College, visited Dr. Beal at Amherst on June 7th.

V. G. Anderson in sending in \$2.00 remarks: "That makes a dollar per child. Yes, we have a month-old girl with us now, born May 6th, and the name Vivian Jane was applied. Now that they are giving the girls a wee bit more rope I will have to figure on letting her take advantage of M. A. C. in a few years." Andy's address is 149 Bartley Ave., Mansfield, Ohio.

Stanley Martin was around the campus just previous to commencement en route to a visit with Michigan folks near Owosso. Martin is in the real estate business in Cleveland and is living at 7513 Lexington Ave.

Lieut. Elmer W. Brandes, of the Sanitary Corps, Central Medical Dept. Laboratory, was discharged from service and is now in Washington, D. C., where his address is 3937 Legation Ave. Brandes attended the commencement reunions.

Phillip Baden is on a fruit ranch near Corvallis, Oregon.

Russel A. Warner was discharged from military service on the 31st day of March and on the next day went to work for the General Electric Co. in their Washington office in the patent department where he was employed before going into service. He still goes to Walter Reed Hospital twice a week to get electrical treatment for wounds received at Baileu Woods.

The Warners are living at 541 21st St. N. W.

'13. W. A. McDonald, formerly captain in the Infantry of the 85th Division, has been released from service and has returned to Lansing to become secretary of the Connor Ice Cream Co. The McDonalds are living in the Porter Apartments.

Randolph Hill, with, who has been in the First Regiment of Motor Mechanics stationed at Epinal, France, writes that he is now on the move towards an embarkation port en route for home. His sister, Carmelita A. Hill, is second assistant at the Dunn County Training School for Teachers at Menominee, Wis.

'14. Lt. L. C. Hulse, now with the Army of Occupation, has recently been assigned to Battery C of the 5th Field Artillery which is located in the town of Eitelborn, Germany.

Robt. J. McCarthy who was with Co. D of the 102d Machine Gun Bn., during the early phases of the advance north of Chateau Thierry and who was sent to America in the early fall as an instructor, has been released from service and is now employed by the Elm City Nursery Co. for whom he worked just previous to leaving for France. He is living at 23 Pardee Place, Westville, Conn.

Paul K. Fu. is in Canton, China, having gone there from Hong Kong. His address is Canton, Y. M. C. A. Fu writes that he is very glad that the war is over as it affects the condition of affairs in China greatly and things there are continually improving.

'16. R. E. Matteson, Co. D of the 106th Engineers, in a recent letter tells of the wonderful changes that have been made in the debarkation camp at Brest, France, within the past several months. He says that while there might have been cause for criticism of the camp in the winter, certainly there can be no criticism now and that everything is in excellent order there this spring. It is now one of the best of foreign camps. He has seen Herb Straight, '17, Lieut.

Jonkman and G. W. Glidden, '17. His work has been that of levelman on a surveying party engaged in the layout and construction of the sewer systems.

A. H. Atzenhoffer has moved from 35 Glazier St., Gardner, Mass., to 874 Bloomfield Ave., Akron, Ohio.

W. D. McFarlane, 2d Lieutenant in

What's going on at M. A. C.?
