Listening In

ONCE again we turn another page on the old ledger of time and wonder what the sum will be at the end of *this* college year. The anticipation of the future is what keeps us going. It is not to be said. "Let's begin over again," but "Let's Build." It's a solid foundation this old school picked back in May 1857, for hasn't it stood the ravages of time pretty well? Our Michigan State still stands, more glorious than ever, and we, her alumni, must stand, prosper and grow, a mighty symbol of her ideals.

We may as well become personal in this column this year. Let's take an inventory. Is our organization on an efficient working basis? Are we co-operating as we should? Organization and cooperation are rather subtle things, don't you think? They cannot be taken up by the nap of the neck like two kittens and say, "Here they are; organization and cooperation." We are largely dealing in the abstract, not the concrete. Can we not bring ourselves into a systematic relationship so that we will act as a unit or as a whole, having a common object. Is this not organization and cooperation?

Now, other points—our objectives. What are they? What do we represent? What do we stand for?

I've been talking about us as a group. I now appeal to you to take personal inventory. Have you as an individual been doing your share? All that you can do? There are no back seats. Everyone must take part. No matter how small your share may be, (for that reason you may neglect it,) for unless we have complete coordination, the effect of the whole is lost. We represent the past, we are an example for the present, and a foundation for the future.

The discovery, several years ago, that there is in the heart of the average alumnus a latent desire to help his Alma Mater, led to the establishment of Alumni Funds, and whereas Yale and one or two other colleges were pioneering in this field for some years, the movement has been so successful that there are now about one hundred Alumni Fund organizations well established.

This type of fund also makes a particular appeal because it provides a medium through which the alumnus of limited financial means may to an extent commensurate with his year by year income, contribute his bit in such a way that it, along with the combined gifts of others, aggregates a total which is of great practical benefit.

The MICHIGAN STATE COLLEGE RECORD

Established 1896

Member of the American Alumni Council

Published for the alumni and former students of the Michigan State College by the M. S. C. Association.

Published monthly throughout the year.

Membership in the M. S. C. Association, including subscription to THE RECORD, \$2.50 per year.

Unless members request a discontinuance before expiration of their memberships, it will be assumed a renewal is desired.

Checks, drafts and money orders should be made payable to the M. S. C. Association. Entered as second class matter at the postoffice at East Lansing, Michigan.

While alumni funds do not exist apart from money, experience in many colleges shows decidedly that by-products of increased interest in the College, and closer contact of alumni with college affairs, are quite as valuable as the financial return.

The Alumni Fund of our alumni association is the result of considerable investigation and study and was adopted by the executive committee more than a year ago. The Alumni Fund is strictly an alumni project, directed to and by alumni. The immediate purpose of the fund is to provide the annual operating expenses of the as-

sociation, but beyond that, as the fund grows to give to the College an annual gift for such purposes as the alumni may direct, covering general needs of the institution which are not usually obtained from state appropriations. At the present time loan funds for needy students are imperative.

If Michigan State alumni seize upon this new opportunity for taking part in the progress of their Alma Mater, as the graduates and former students of many other institutions are now doing, the support of the Alumni Fund will be the most important item upon the alumni ledger of this new year.

—GLEN O. STEWART,

Who's Who Among the Alumni

Peter V. Ross, '95, Ag., started out life in Southern Michigan, his parents, emigrants from Central New York, having settled there in pioneer days. His early career was that of a country boy, working on his father's farm in the summer and teaching district school in the winter. After graduation he taught for a time in the public schools of Idaho and Montana; then entered the University of Nebraska, where he studied law and political science. His legal education finished, he located in San Francisco, where he still resides. He practiced law there for eighteen years, his pen busy much of the time turning out articles and books on legal subjects. In 1903 he married Elizabeth A. Bates, well known Christian Science writer and practitioner. Retiring from the legal profession in 1917, he has since devoted all his attention to Christian Science, acting at various times as practitioner, reader, teacher, and lecturer. As Christian Science lecturer he has, during the last nine years, toured United States and Canada repeatedly. Twice he has visited Europe, speaking in practically all the cities of Great Britain and in the principal cities on the Continent. During the summer of 1929 he pioneered South America, lecturing in its important centers. Trips to the other continents have been deferred because of lack of time. His travels bring him in contact with many of the alumni. Invariably, so he says, he finds them making good in a most substantial way, a credit to a truly great institution of learning. (To the left)

John Parke Finley, '73, Colonel, U. S. Army, retired, was born April 11, 1854 at Ann Arbor, Michigan. He is another one of that fast growing list of Michigan State graduates who has attained prominence in the military service of the U. S. Government and foreign service. He has had 42 years of continuous duty in the U. S. Army, attached and detached. At the present time Colonel Finley is occupied in special research work at the University of Michigan but is usually in New York City where he is actively engaged as manager of the National Storm and Aviation Insurance Bureau, also serving as consulting meteorologist and statistician. Perhaps no other alumnus of the College can be credited in a biographical sketch with having filled so many military and civil service appointments. In foreign service Colonel Finley filled many important roles at the American Embassy, Constantinople, Turkey, in 1913-14. He was appointed by the Mohamendan chiefs as their Ambassador, with highest powers of representation at the Turkish court, with the Malay-Arabic titles of Tuan Maas and Vekil-I-Mutlach. He later received a special decoration by the Turkish government. He has written many articles for publication in the sciences of meteorology and climatology. (To the right)

Julia P. Grant, '06, Home Ec., entered public school work in Lansing following her undergraduate work at the College. In this position she held the title of supervisor of domestic art. After leaving Lansing she became identified with the work of the Detroit public schools, acting as supervisor of domestic art or clothing in the department of vocational education. At the present time she holds the position of supervisor of home economics in the Detroit schools. During the meeting of the National Home Economics association last June Miss Grant was chairman of general arrangements. Aside from her splendid work in the field of home economics Miss Grant has always been a leader in philanthropic work. She has given generously of her time to the Red Cross and the National Needlework Guild. Miss Grant has been an enthusiastic supporter of the Detroit Home Economics association. This association has extended to environs of Detroit, and a very great deal of the success made by the association is due to Miss Grant's leadership. The Detroit branch of the Michigan State college alumni association has always been ably supported by her and at one time she was the leader of the local alumnae group who helped greatly when funds were needed for the women's lounge in the Union building. She has a genius for friendship and kindness, which brings many of her associates to her for advice and friendly helpfulness. (To the left)

New Building Program Given Board Approval

Shaw Announces Additional Aid Not Needed; Another Dormitory Planned

MICHIGAN STATE Marches On! Because of the enterprise and sagacity displayed by President R. S. Shaw an extensive building program of unusual significance to the

growth of the College and to employment conditions in the building trades in central Michigan, was adopted by the State Board of Agriculture at its monthly meeting at the College Friday, September 11.

While exact figures as to the cost of the contemplated new buildings were not arrived at by the members of the board, the approximate expenditure was unofficially placed at \$650,000, of which \$200,000 will be borrowed from a Detroit financial house, to be repaid over a term of years from the income of a new women's dormitory, one of the units included in the program.

Through the economies practiced under the administration of President Shaw the expense will be met without additional state aid or burden on taxpayers. Funds to the credit of the College building fund, appropriated by the 1929 legislature, and the reserve and rehabilitation fund of the school, built up during the last few years, will be drawn upon for the approximately \$450,000 necessary for construction, over and above the financing from outside sources.

The program includes: (1) renovation of Wells hall, men's dormitory; (2) addition to the engineering shops; (3) installation of an additional boiler in the central heating power plant to take care of the demands of the new buildings; (4) construction of a stock judging pavilion; (5) erection of a new women's dormitory; (6) remodeling the Women's building for offices; (7) refitting Abbot hall for music instruction; (8) building an additional wing to the gymnasium.

NEW BUILDINGS COST \$475,000

New buildings will total about \$475,000, including the loan for the women's dormitory; the remodeling and renovation plans account for the remaining \$170,000, as nearly as unofficial estimates could be learned. President Shaw, while declining to discuss these matters, stressed the fact that his estimates to the board were necessarily tentative and were approved as such.

The president pointed out that the building up of the reserve and rehabilitation fund of the school had not been accomplished to the detriment of the

teaching staff of the College but had been brought about largely through savings in his own office.

The most important unit of the program is the new women's dormitory which will accommodate 180 girls, making it nearly as large as the recently opened women's dormitory designated by the board of agriculture as Mary Mayo Hall. The best information on the new building's cost is that the College will advance the initial payment of about \$100,000, allowing for starting of construction pending completion of the negotiations for the loan required. The present new dormitory was financed in the same manner.

TO MOVE JUDGING PAVILION

Wells hall has been in use for 25 years, during which time little has been done toward repair or improvement. "It is planned," according to the president's statement, "to make the building livable and comfortable, by finishing the fourth story, repairing, replastering, and redecorating the entire building, installing showers, and modernizing dining room facilities in the basement, and providing quarters for social and recreational activities."

The new stock judging pavilion would be located south of the Red Cedar river near the new barns, according to plans, its present location making the task of bringing the animals from the stock barn to the present judging pavilion in the agricultural building "very difficult and expensive," the announcement explained. The two floors of the agricultural building, released for other use by the new stock judging building, would be placed at the disposal of the agricultural engineering department.

In commenting on the necessity of remodeling the present women's dormitory, President Shaw said: "The great need of the College is for more office, classroom, and laboratory space, and this building could be made to meet these needs for 10 or 15 years to come." Classrooms would be built into the old building.

MUSIC BUILDING TEMPORARY

ABBOT hall's adaptability as a music practice building, was pointed out to the board by the president. The solid brick walls and double floors make the building nearly sound proof. The addition of a third floor would be required. This step is apparently regarded only as a makeshift arrangement, in consideration of the present money stringency general throughout the nation. "During the present depression," it is explained, "with the unusual mental state of mind of legislator, taxpayer, educator, etc., it would seem unwise to take even the initial step toward a huge building project in the form of an auditorium . . ."

The wing for the gymnasium was originally contemplated when the present structure was built. Since then, the college enrollment has about doubled.

A three-unit transformer was recently constructed in the electrical engineering department without the use of a single bolt, rivet or screw. The apparatus was assembled entirely by the aid of a stable arc welder loaned by the Lincoln Electric company of Cleveland.

A contribution to the Alumni Fund will keep the RECORD coming another year.

TRA, LA, LA! MUSIC PRACTICE FOR OLD ABBEY

Eastern Alumni In Renaissance Movement

Alumni Secretary Finds Spartan Groups Interested in College

THIS SUMMER a welcome opportunity came to me to visit a number of alumni clubs in the East, to organize several new resident centers into active chapters and to spend

four very pleasant days at Cornell university in conference with the board of directors of the American Alumni Council.

Home again after a strenuous, yet pleasant trip, I cannot help but feel that the economic depression, unemployment and consequent financial conservatism have not seemed to seriously affect the activities of our alumni association. Local clubs have not passed an idle summer. This phenomenon, in itself, has most promising ramifications. More old grads affiliated with the alumni association this summer than in several seasons past.

TWO MEETINGS IN OHIO

In speaking of Toledo one naturally remembers the recent collapsing of the many financial centers. But many of our alumni had not heard of the bad news and a fine group were on hand at the country home of Leslie Sanborn, a few miles from the city on the evening of August 16. A picnic dinner with lots of eats, ice cream for all, and a friendly contest of barnyard golf topped the evening. The Toledo alumni are committed to advertising the College by placing pictures of the Campus in local high schools. Several students will enter college this fall from Toledo.

At Cleveland on the evening of August 17 more than a dozen grads, with wives and husbands, gathered at the home of Mr. and Mrs. Harry Driskel. After an evening of bridge a chatty conversation ran into the wee hours but the interest of Michigan State was always uppermost in the minds of all.

BUFFALO DISTRICT NOW ORGANIZED

STOPPING in Buffalo on August 19 gave me an opportunity to renew friendships with many State grads. Johnny Walker, the energetic 4-H club agent of Erie county, was responsible for rounding up more than 25 people to attend a picnic and organization meeting at Como Park, Lancaster, just a few miles distant from Buffalo. It was a great pleasure to talk to this group because of their keen interest in Michigan State activities.

The organization meeting resulted in the following officers being elected: President, Justin Cash, '25; first vice-president, Charles W. Knapp, '12; second vice-president, Carl F. Barnum,

By Glen O. Stewart, '17

'12; secretary-treasurer, John Walker, '22; directors, Mrs. Ione Barker Cash, '25, John J. Harris, '12, and Miss Gertrude Meyers, '21. Others who attended the picnic included: R. L. Wirt, '25, and wife, Mrs. C. P. Barnum, Mrs. J. D. Walker, Mr. and Mrs. George Meyer, Miss Agnes Schillo, Ellsworth A. Pierson, '26, and wife, Mrs. J. J. Harris and children Roberta and Robert.

ROCHESTER AND SYRACUSE

Ed Walker, our Rochester leather expert, gave over his cottage on the lake to the local club. Ed and his wife were in Maine but Carl Warren, '20, president of the club, organized his efficient picnic committee and the steaks were done over the charcoal to the satisfaction of all.

Driving into Syracuse on August 21, I found Al Bibbins, '15, an excellent golf instructor and the Bibbins family ideal hosts. About a dozen people were entertained at the Bibbins home that evening and between Dean Hugh Baker, '01, and Dean Reuben Nye, '12, of the Syracuse university faculty I felt that I was undergoing an undergraduate quiz. We had a fine time and Syracuse will miss the Bibbins family and G. L. F. men when their offices are moved to Buffalo this winter.

It was a real privilege to stop at Willard Straight hall at Cornell from August 22 to 25. This building is used as the Union building of the university and the 18 alumni secretaries who attended the board meeting of the American Alumni Council enjoyed fully

the hospitality of the Cornell alumni workers. Informal visits were made with half a dozen M. S. C. alumni.

NEW YORK ANXIOUS FOR ARMY GAME.

All through the East I found old grads interested in the athletic program of the College, but when I reached New York city I found football enthusiasm boosting the alumni mercury well up into the fever-heat zone, threatening to break the tube. Needless to say after a conference with Norm Weil I was assured that the old gang would all be out October 10. A full account of the alumni program is given in this issue.

PHILADELPHIA ALUMNI ORGANIZE

CHOOSING the occasion of my visit for the first formal attempt to organize an alumni club Philadelphia alumni certainly put on a real party. First of all, credit for starting this meeting dates back ten months ago when "Uncle" Frank Kedzie suggested to Phil Rose, '99, and George Davis, '21, of the Curtis Publishing company that he thought the alumni of Philadelphia were just as wide awake as those of Washington, D. C., and surely ought to set out this year to experience a real renaissance of interest and activity.

That they succeeded was indicated by the attendance at the dinner arranged for me at the Benjamin Franklin hotel on the evening of August 31, with twenty-five alumni present.

THE following people registered: Phillip Rose, '99, and Mrs. Rose, Mary Ross Reynolds, w'03, George F. Davis, '21, Sibyl Titus Davis, w'21, M. B. Wilford, '20, and Mrs. Wilford, Keith M. Farley, '23, and Mrs. Farley, W. S. Hulse, w'13, Lt. L. K. Cleveland, w'17, Scott B. Lilly, '09, and Mrs. Lilly, Frank V. Warren, '98, and Mrs. Warren, H. Groothuis, '12, and Mrs. Groothuis, N. L. Reed, '19, Georgiana Lambert Fould, '10, Mrs. Kathryn Branch Etris, '23, G. S. Etris and John R. Lambers, '06.

Officers elected were: President, Frank V. Warren, '98; first vice-president, George Davis, '21; second vice-president, Kathryn Branch Etris, '23; secretary-treasurer, Mary Ross Reynolds, w'03, board of directors additional, Phillip Rose, '99, and M. B. Wilford, '20.

Two days later the Pittsburgh, Pa., boys met at the Smithfield grill for dinner and an evening of reminiscing. Saul Semenow, '16, and Carmen D. Miller, '26, serve that group as president and secretary. Unemployment has taken quite a toll from this alumni group but the suggestion just received from Tom Skuce, '24, of Morgantown, West Virginia, that their vicinity be in-

(Continued on page 7)

PHILLIP ROSE, '99

—the busy editor of the *Country Gentleman* found time to head the organization meeting at Philadelphia.

Inspection of Wells Hall Reveals Big Secret

Reason: Surprising Transformations to Give Men Showers in Campus Dormitory

WELLS HALL UNDERGOES CHANGES

SOME ALUMNI there still are, whose sole recollection of their College days is of Wells hall, men's dormitory. They remember it as their home on the Campus, as their recitation and laboratory building; boarding hall and literary headquarters. Its halls were even their gymnasium.

Consequently our alumni as a whole, apprised from time to time that certain things have happened to Wells hall, ought to be interested in learning just what those things are.

The recent period of amazing transformation around the Campus, which has added an array of new structures, has made no small impress on the only dormitory available for men students. This beneficiary is the somewhat revered structure which has proudly born the name of Wells hall, after Honorable Hezekiah G. Wells, president of the State Board of Agriculture in 1886 and long after.

SECOND WELLS HALL

The present Wells hall, referred to by the old-timers as the "new" Wells, was built and first occupied during the school year of 1907. It replaced the original Wells hall built in 1877 and destroyed by fire February 11, 1905. The now existing dormitory was built in six compartments or wards, with fireproof walls between, and with an outside entrance for each. Every floor contained five rooms and a lavatory, making accommodations in the building for 156 students. The fourth floor with its gable roof was finished in the same manner and furnished very pleasant quarters for six literary societies. The English basement contained a large kitchen with serving rooms, pantries, storage rooms, dining rooms with a seating capacity for 300 or more, besides living rooms for the help.

EXTERIOR FORM PRESERVED

The putting of new wine in old bottles has been characterized as folly, but no folly is here evident in placing practically a new dormitory in old walls. The only distinguishing feature of the present exterior, as contrasted with the old, is furnished by the addition of six new gable windows, attractive in

their outward appearance, and more practical in the performance of their functions within. They allow for rearrangement of the old society rooms into five modern dormitory rooms in each ward.

Across the Campus, then, the old ivy-covered red building still looms as a familiar bulk, but let us step inside and look around for a few minutes—or a few hundred words. No sooner do we cross the threshold of any ward than a sense of transformation comes over us. We are not standing on the old oil-soaked floor of splintered boards, but on a highly polished jasper floor covering. The old stairways of battered treads, up which many an upperclassman has fought hosts of sanguinary opponents, is also covered and made to look like new.

Every room gives the impression of greater size by reason of the light-tinted walls and ceiling, and the addition of panel stripping. A number of rooms are being fitted with new beds and practically the entire stack of old mattresses have been replaced with the new "restful" type.

We have heard that the big surprise of the renovation awaits us on the third floor. We are at once curious to discover that one room has been labeled the "BAWTH". Horrors! It's come to that in Wells hall. Nevertheless, what was once a haunted study room is now completely equipped for a shower room, with clean white enamel tile partitions. A hidden cupboard revealed also that a few pressing boards were to be available for the Saturday afternoon mezzanine hurdlers, who trot out a few worsteds in place of the old corduroys.

DINING ROOM NOW A LOUNGE

Seeking the English basement, we proceeded from end to end, entering Ward A and emerging at Ward F. We are at once curious to discover that the "senior" dining room of a decade ago had befallen a most complete change. Here, where Mother Farleman fed dignified sweater-clad seniors, was another big surprise. This east dining room had become a large and luxuriously appointed lounge—furnish-

ed to seat comfortably more than forty people at one time in roomy davenport, upholstered, and comfortable windsor chairs. Needless to say, this social room will be an innovation to Wells hall and a very welcome addition to the new dwellers.

The former kitchen and west dining room will remain as heretofore and the one boarding club for men on the Campus will be known as Club A.

To Start Student Inspection

FACULTY inspection of men's dormitories ended in 1925. Since then a creeping air of carelessness has triumphed in the care of most rooms. Under a new system to be launched this year an organization of students will partly supplant the one time faculty supervision of dormitory quarters. Some committee of the faculty, now engaged in student housing problems, will assist the group in inaugurating the new student supervisory system.

EASTERN ALUMNI IN RENAISSANCE MOVEMENT

(Continued from page 6)

cluded in the Pittsburgh club will do a lot to add to their membership.

At some meeting of the alumni board I am going to ask consideration of a retiring allowance for worn down secretaries of the M. S. C. association; this allowance to be sufficient to provide visits to all alumni clubs, with time enough for a real visit with each.

OFFICE ROUTINE AGAIN

I am indebted to the alumni of the foregoing towns for a delightful trip. You have asked me to come back. I now warn you that if I do I shall check up on the efforts you will have made to do something for Michigan State college.

East Lansing, Saturday, September 12; ninety-three in the shade.

Kindest regards to the East.

A contribution to the Alumni Fund will keep the RECORD coming another year.

Cavort with college chums on the Campus. Homecoming October 31.

Coaches meet the alumni, alumni meet the coaches who are responsible for this year's team. They don't look so gloomy do they? Left to right: "Mike" Casteel, "Jim" Crowley, "Judge" Carberry.

OVER THE SPARTAN GOALPOSTS

Team's Chances Candidly Discussed From the Sidelines

GAMELY facing one of the hardest schedules with one of the smallest squads in recent years is the football situation this fall. When Coach James H. Crowley rallied his forces for the first drills he discovered that attendance at the early season camp did not meet with his expectations. While all of the letter men returned, the failure of many of last season's reserves and some of the freshman hopes to report caused a shrinkage that impressed the Spartan coaching staff at once.

The old story about a team being as strong as its reserves has come home to followers of the team in the early season practices. Coach Crowley has a first string lineup that looks formidable but lack of supporting troops is cramping his style in developing the team. If he could be sure that the team would go through the season with a minimum of injuries or other losses of talent, he might forget some of his worries.

LINE LACKS RESERVES

THE line is hardest hit. There are two ends, one tackle, a pair of guards and a center ready to answer the call. All of these are tried players who helped State to one of its most successful seasons a year ago. There was not a single lineman beyond those who was considered a first string reserve. Two tackles, Warner and Exo, had scholastic troubles in their path. Guard and end reserves were known to be lacking last spring.

A general impression existed that Crowley would have a great set of backs right at the start this fall. He has a combination of ball carriers, four of them that looks good. Monnett, Eliowitz and Kowatch are the only first string reserves returning. Gone are such valuable men as Carl Nordberg, Gerald Breen and Roger Grove. Grove's punting and pass throwing, as well as

BY GEORGE ALDERTON

his piloting experience, were valuable assets and it is no small task to replace him. That is one of Crowley's big backfield problems.

CROWLEY MAKES STATEMENT

COACH CROWLEY sized up the situation in a statement concerning the outlook as follows:

"We are facing the stiffest schedule in years. The returning veterans are all capable players and if I could be sure of their being available for every minute of each game, the job of putting a strong team together would not be too difficult. Just now we are faced with the task of developing reserve material. This is made necessary by the failure of some of our hopes to materialize. Some did not return to college, others fell by the wayside scholastically. We cannot stand many losses in material without seriously affecting our chances of winning our major games or giving those opponents a hard fight. We are all hoping for the best and I can assure everyone interested that State will be in there battling. If hard work will bring about

success, I feel sure we shall attain our share of it."

Graduation or completion of competition periods eliminated such star performers as Cecil Fogg, end; Don Ridler, tackle; Claude Streb, guard. Last year Crowley had three ends on even footing and both Fase and Vandermeer are back. Haun, a reserve, and Keast, a sophomore, are the best of the second string hopes. In Arthur Buss, Benton Harbor sophomore, line Coach Carberry believes he has a youth who will fill Don Ridler's shoes at tackle. Ralph Brunette is back for his second year of regular duty at the other tackle. Supporting these two are Dave Hosler, a reserve last fall, and Rueben Dill, who played two years as a guard, but after being out of college a year, has returned and is being groomed for a tackle. Dill is a bright prospect.

Geoge Handy and Captain Milton Gross are generally rated as the starting guards. Handy alternated at both guards last year, doing yeoman duty in both spots. He helped out Claude Streb particularly in playing the entire Colgate game and appeared many times thereafter. The leading reserves, both coming up from the freshman squad, are Ferrari and Lay. The former is a brother of George Ferrari who played here as a tackle several seasons past. He is not nearly as large as his kin. Lay seems to have the makings of a fine guard in time. Just how fast he comes along this fall is something to guess about.

It looks as though Francis (Bud) Meiers, the battling 170-pound center from Muskegon, would get some help from the reserves this fall. Hames Dekker, a six-foot sophomore, from Grand Rapids, and Paul Beyers, 250 pound East Lansing youth, showed up

Nov. 14	Michigan
Nov. 21	Detroit

well in early practice. Beyers has a knee that is troublesome.

SHIFT BACKFIELD MATERIAL

CROWLEY changed his backfield plans in the first few days. First he sent Joe Kowatch, who played at both half and full last fall, to an end position in view of the need of reserves there. He tried Jerry Jones, Bay City sophomore, at quarterback. Finally Crowley moved Kowatch back to quarterback, a position that he worked in spring football. His weight and experience made him a valuable man although the ends had to suffer. Jones was shifted to halfback, a position that he filled so well in spring football. Bernard McNutt, a bright fullback hope from the freshmen, was installed in the post at once and looked as though he will develop into a star. Abe Eliowitz was moved to a halfback position from full and Bob Monnett, the star of several games a year ago, occupies his old left halfback position.

Yet another shift developed when McNutt was removed and Eliowitz sent to fullback. Jones was then inserted at right halfback. Crowley believed this to be his best combination.

The quarterback reserve is again Sam Schwartzberg who saw most of his service against Detroit in the final game last fall. Liberty, a reserve of last fall, and Kircher, a freshman, Ken Lafayette, another reserve, join with Warren as the real support in the other backfield posts.

WILL MISS GROVE'S PUNTING

Crowley is grooming three punters in Eliowitz, a left-foot kicker, Jones and Warren. None have shown anything like the sensational form that was attained by the departed Grove. Eliowitz probably will have the passing duties on his shoulders in at least the first couple of games.

ALMA, co-champions of the M. I. A. A. with Kalamazoo, last season, opens for State Sept. 26. Then comes the stubborn Cornell college of Iowa, a team that defeated the Spartans 13 to 6 here four seasons past. Either is anything but a set-up. Army at West Point on October 10 is the first big game. The Cadets are an eastern football power beyond which there are few, if any, that loom larger. From this point on it is tough sledding. Illinois, Wesleyan, an unknown as to strength, comes to East Lansing October 17, and then Georgetown and Syracuse follow in order as the big home attractions of the year. Ripon may or may not serve as a breather on Nov. 7, but Michigan and Detroit on the next two Saturdays round out a strong schedule. The Syracuse game October 31 will be Homecoming.

The coaching staff this year is the same as of last year Glenn Carberry is tutoring the line while Miles (Mike) Casteel teaches the backs and does the chief scouting for the Spartans.

BUREAU OF EMPLOYMENT FOR ALUMNI

Can you find a place for a Michigan State man or woman in your organization?

Want a job? Look below.

During the present economic depression the Record will attempt to make contacts for alumni with other graduates of the College who have openings in their organization.

* * *

INSURANCE SALESMAN—A nationally known insurance firm has an opening for several college men experienced in selling insurance and establishing sub-agents. A dignified permanent position with excellent opportunity for advancement.

* * *

SALESMAN—The state manager of a securities company wants several district men, willing to build up Michigan territory. They must be able to contact people, and show sales ability. They will be given thorough training, commission and bonus.

Welcome Spartans!

TO Spartans everywhere: As president of the New York Michigan State Alumni club I welcome you to New York city and West Point for the M. S. C.-Army game October 10. We alumni here have been working for several months on plans for this memorable occasion, and believe we now have arrangements completed for what will be one of the really great events of Spartan history this fall.

The full program for the day is printed in this issue of the Record. If you are driving to West Point plan to arrive by 1:00 p. m. in time to review the West Point cadets. It will be a wonderful spectacle.

After the big game, and we predict VICTORY, you will find us all ready to show you a good time at the West Point hotel where the New York alumni club will sponsor one of the largest State dinners ever held in the East. You will have plenty of time to celebrate here before your train leaves—if you must leave on that evening. Welcome brothers and sisters of Michigan State. We're glad you're going to be here.

—Norm O. Weil, '17, president Michigan State club of New York city, 247 Park avenue, The W. S. Tyler Co., New York city.

According to advance information from the registrar's office the fall enrollment will be nearly up to last year's high. More freshmen have asked for admission, while many upperclassmen will find it financially impossible to return. Freshmen enrolled from September 23 to 25.

Brown New Mentor Of Distance Men

FOURTEEN distance runners form the squad from which Lauren P. Brown, former varsity star here and now cross-country coach, will pick his harrier squad to represent Michigan State this fall. Included in the group are four veterans, a rather capable looking assemblage of freshman material and some reserves from last year's team.

Brown succeeds Morton Mason as coach of the cross-country team. He was one of the stars that Mason developed during his years of coaching at the College. Mason resigned this summer to go to Duke university where he is continuing his studies in chemistry.

The new coach held the mile and two mile records at the College as well as the cross-country record when he completed competition. He won the famous 3000 meter steeple chase at the Penn relays in his senior year.

"BROWNIE"

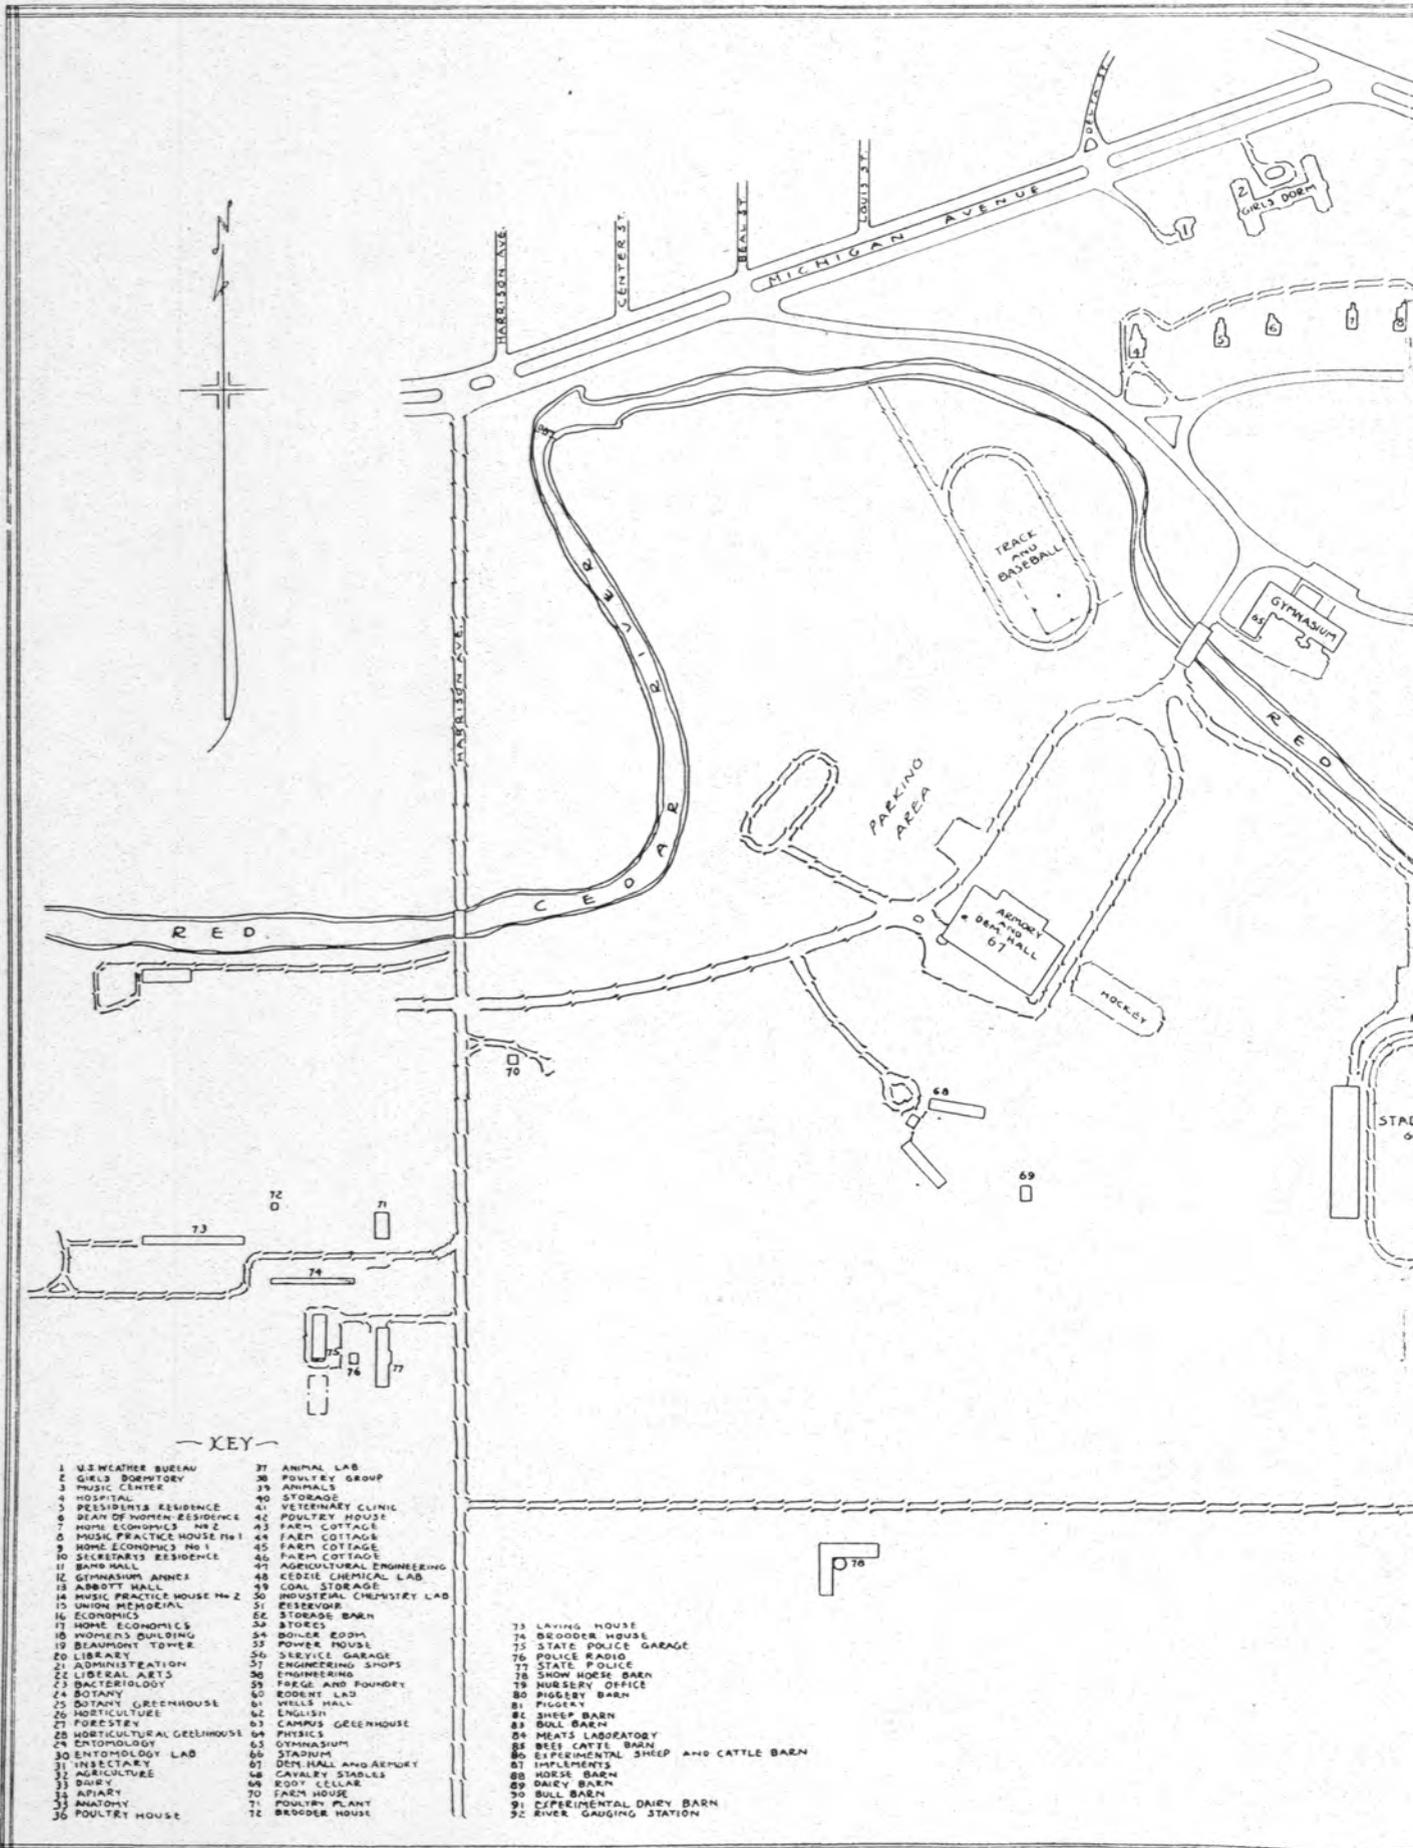

Leading the harriers this fall is none other than the national intercollegiate champion, Clark S. Chamberlain. Clark captured the I. C. A. A. A. championship in New York last fall and last spring added to his honors by stepping the fastest college mile and two mile of the year. He is a star of the first calibre, better than anything in the country when it comes to college cross-country running.

Charles T. Price, Robert Elliot and Earl Steimle are the other veterans returning. In the ranks of the reserves and sophomores are Walter Wissner, William Guy, Leslie Hurd, Otto Pongrace, Charles Warren, Robert Wilson, Clifton Cobb, Fred Potter, Harry Russell and Wallace Bryant.

TEACHERS TO MEET

The teachers of District five will hold their fall meetings at Petoskey October 1 and 2. Carl Brown, local chairman, announces an alumni reunion dinner for the evening of October 1, at the M. E. church.

A similar meeting for the teachers attending the upper peninsula meeting at Sault Ste. Marie is being planned for Friday evening, October 2. The banquet will be served at the Country club at 5:30 o'clock. Secretary Stewart will attend both meetings.

T. GLENN PHILLIPS
LANDSCAPE ARCHITECT & CITY PLANNER
1901 CHARLEVOIX BLDG. DETROIT, MICH.

MARRIAGES

WALTER-WOOD

Howard C. Walter, '24, and Beatrice Wood of Albion, Michigan, were married August 9, 1930. They are living at Eau Claire, Michigan, where Walter is superintendent of schools.

TUBBS-KOON

Harold B. Tubbs, '28, and Magdalene Koon, of Edgefield, South Carolina, were married March 23, 1931. They are making their home in Detroit.

PAGE-HART

Burnus G. Page and Ilah A. Hart, '20, were married January 1, 1931, at Climax, Michigan. They are residing in Tekonsha, Michigan.

SNIDER-JOHNSON

Lewis D. Snider, '30, and Faye Johnson, w'31, were married Easter Sunday, April 5, 1931. They are living in Lansing at 324 Bartlett street.

KRATZ-BLACKBURN

Oscar A. Kratz, '07, and Viola Blackburn were married March 14, 1931, at Covington, Kentucky.

BERSEY-FACKLER

Arthur T. Bersey, '28, and Dorothy G. Fackler, w'33, were married in the St. Paul's Episcopal church in Lansing August 1, 1931. They are living in Detroit where Bersey is an experimental engineer for the Maise corporation.

BRISBIN-PERKINS

John D. Brisbin, '28, and Olivia M. Perkins of Williamsburg, Kentucky, were married June 11, 1931, at the home of the bride's parents. They are living in Lansing.

PAINE-HUNTER

Philip L. Paine, '27, and Alice L. Hunter, '29, were married in Lansing June 18, 1931.

FREMONT-WOODWORTH

Perry Fremont and Elizabeth Woodworth, both '27, were married in Chelsea, Michigan, August 1, 1931.

KAISER-SCHRAM

John D. Kaiser, '28, and Myla Schram were married July 3, 1931, at the Peoples church in East Lansing. They are now living in Lansing at 1719 William street.

THORP-PLANT

Frank Thorp, Jr., and Margaret Plant, '26, were married in Chicago June 18, 1931. They are living at 1207 W. Oregon street, Urbana, Illinois, where they are both members of the faculty of the University of Illinois. Mr. Thorp was formerly a member of the bacteriology staff at M. S. C.

FLESER-PRESTON

Donald W. Fleser, '27, and Margaret D. Preston, '30, were married June 6, 1931, at Charlotte, Michigan. They are living in Flint at 1510 Monterey avenue.

LOOMIS-BASSLER

Ralph E. Loomis, '31, and Eunice Bassler were married at the Olivet Baptist church in Lansing on June 20, 1931. They are living in Lansing at 832½ East Main.

LOVEDAY-FRIEGEL

Frederick Loveday, '29, and Virginia Friegel were married in Owosso, Michigan, on July 7, 1931. They are making their home in Mt. Pleasant.

MORSE-HEUHS

Henry B. Morse, '30, and Vera Heuhs were married in the McCune chapel of the Peoples church, East Lansing, on July 3, 1931. They are living at 1605 S. Pennsylvania avenue, Lansing.

WORKMAN-BOWERSOX

Lewis J. Workman, '30, and Irene Bowersox were married in Denver, Colorado, June 16, 1931. They are living at 954 Emerson street, Denver. Workman is a designing engineer with the U. S. bureau of reclamations at Denver on the designs of the Hoover Dam Boulder Canyon project.

Forestry Head Reports

THE FORESTRY DEPARTMENT will have many new faces this fall. Professor P. A. Herbert (Cornell '21) who was assistant professor here from 1922 to 1926 returns to head the department. For the last five years Professor Herbert has been senior forest economist of the Forest Taxation Inquiry of the United States Forest Service. A new associate professor has been appointed, Harold Newins (Yale '11), who will teach the forest utilization series. Professor Newins, who is resigning from the position of state forester of West Virginia to come here, previously taught both at Oregon Agricultural college and Pennsylvania State college. He also has been installation engineer and manager for commercial dry kiln companies. During the World War he was in charge of the inspection of all aeroplane wood for the War Department.

The other new member of the staff is A. B. Bowman (Penn State, '22), who comes to the College from the United States Forest Service in Idaho and Montana. Mr. Bowman has specialized in mensuration and forest protection and will teach these subjects here. The old staff, Professors Westveld, Dressel and Mr. Kroodsmas and Robbins, augmented by these new men and additional equipment will offer the students a course in forestry second to none in the country.

IN MEMORIAM

HARLAND FIRTH ANDERSON, 1924

H. Firth Anderson, '24, died July 4, 1931, from injuries received in an automobile accident near St. Johns, Michigan, on the evening of July 3. Mrs. Anderson, formerly Irene Bowser, w'27, and their two-year-old son were injured severely, but recovered.

Mr. Anderson had been with the state highway department since his graduation, and at the time of his death was divisional bridge engineer with headquarters at Cadillac. He was a member of Trimoira fraternity.

HERBERT RUDOLPH BOWLES, 1913

Herbert R. Bowles, '13, died in Phoenix, Arizona, on May 17, 1931. A short time previous to his death he was a financial financial counsellor in Detroit, Michigan, where Mrs. Bowles (Florence Chisholm, w'13) now resides at 287 Louise avenue.

LYNN STUART BRUMM, 1912

Lynn S. Brumm, '12, died July 1, following a sunstroke suffered while working in a hayfield at his farm home near Sharon, Pennsylvania.

Brumm was formerly farm superintendent of the Michigan School for the Deaf at Flint, and for the past twelve years had been manager of the McDowell Farm, Inc., near Sharon.

He is survived by his widow and two sons.

EUGENE FRANCIS LAW, 1883

Eugene F. Law, '83, circuit judge of St. Clair county 28 consecutive years, a resident of Port Huron 48 years, and one of the most prominent members of the legal profession in Michigan, died at his home July 22, 1931. He received his law degree from the University of Michigan in 1892. He is survived by his widow.

WARD HENRY PARKE, 1908

Word has been received of the death of Ward H. Parker, '08, in Kansas City, Kansas, July 1931. Parker, known as "Tiny," taught chemistry and assisted in coaching for two years following graduation. He was an automobile dealer in Kansas City at the time of his death. He is survived by the widow, Sara Losey Parker, and one son, Jack, 12 years old.

D'ARCY L. WERNETTE, 1920

FRED D. WORKS, With 1909

Fred D. Works, w'09, and D'Arcy L. Wernette, '20, vice-president and secretary of the surveying firm of Williams & Works, Grand Rapids, were killed July 28, 1931, when their automobile was demolished by the Michigan Central's Wolverine flier at Allen road crossing, five miles southeast of Grand Rapids.

Mr. Works is survived by his widow and three children. Mrs. Wernette, Ruth Williams, '16, and two children survive Mr. Wernette.

Physical Education Staff Adds Specialist

ANNOUNCEMENT was made last week by Ralph H. Young, director of athletics, that Thomas Aycock, for ten years a member of the physical education staff at Oklahoma A. & M., had been secured as a new member of the physical education staff here.

Mr. Aycock will take up his new duties this fall as associate professor of health and physical education. His work here, according to Director Young, will be entirely teaching of health education and handling classes in corrective work.

During the past year Mr. Aycock has been at the University of Iowa, and received his master's degree there in June.

Bissell Likes Catalogue

CONGRATULATE you on the very fine edition of the Alumni Directory, a copy of which is always on my desk and consulted frequently.

I find that I have a large number of the M. S. C. family in my door yard, so to speak, and I am meeting them from time to time and all hands indulge in the old but not time-worn game of "reminiscing." I have attended a number of the reunions of the Southern California bunch; expect to go with Frank E. Wood, '09, tomorrow evening to a dinner at the University club in Los Angeles, in honor of Coach Crowley. Doubtless, Schoolmaster, '26, the peppery and efficient secretary, will send you a story of the affair.

In addition to my M. S. C. family, I find a large Ames contingent and a lot of Cornell friends, besides a number of folks like myself, retired "profs" of various institutions whom I have known well in the years past.

Then Monrovia people are very fine and interesting to know. They come from all parts of the country and like me, are content to be here.

Besides the RECORD, I see the East Lansing Press and have many letters from those who have not yet come to California. You see, I am a booster. The enclosed photo shows my bungalow and that of my sister at the left. My brother and his family live in Glendale, not far away, where Hasselman used to stamp around.

Yours truly,

G. W. BISSELL.

Box 116, Monrovia, Calif.

THE R. E. OLDS HALL OF ENGINEERING

Additions Approved to Engineering Building Will Provide Needed Laboratory Facilities

AFTER fifteen years of uninterrupted quiet, in so far as building operations are concerned, the engineering division is to have its routine interrupted somewhat by the extension of its laboratory facilities. The additions, anxiously looked forward to for at least four years, are to be a reality by January, 1932.

The engineering building is to be extended to the south by an ell-shaped addition. One branch 47 x 70 feet will provide expansion for the mechanical engineering power laboratory on one floor, and the sand, cement, and highway materials laboratories on the other.

The present forge and foundry building is to have a third bay, the east end of which will provide added room for the foundry, and the west end a laboratory for the heat treatment of steel. The foundry will be provided with a traveling crane and a small laboratory for the performance of standard foundry tests. A lecture room will be available for both the foundry and the heat treat laboratories.

FIRE OF 1916 RAISED BUILDING PROBLEM

An interesting fact was brought to light in considering the extension of the mechanical engineering power laboratory, viz., that this extension had just been considered at the time the engineering building was rebuilt, after the fire in 1916, but in order that the original appropriation for the building be available the building had to be rebuilt on the original foundations. This precluded any enlargement of the building and the laboratory remained as it was before the fire. It is readily apparent that a laboratory which was adequate for 225 engineering students, the enrollment in 1916, would be cramped with 615 students, the number enrolled last year.

The present steam and gas power equipment will be moved into the ex-

tension and a new floor, level with the basement of engineering hall, will be put into the old laboratory. A traveling crane and balcony in the new addition will provide facilities and room for testing lighter equipment and for calibrating of instruments.

The civil engineering department will welcome the addition of the concrete and highway testing laboratory as the facilities in this field have been very meager, and not all commensurate with the work that department has been doing in the state's road building problem.

Robinson Resigns

THE State Board of Agriculture at its meeting on July 17 formally accepted the resignation of Dr. C. S. Robinson, head of the chemistry section of the agricultural experiment station.

Dr. Robinson will establish his new home in Tennessee, where he has accepted a position in the school of medicine of Vanderbilt university at Nashville, as professor of bio-chemistry. He has been connected with the chemistry work of State's experiment station for the past 22 years.

During his residence here Dr. Robinson and members of his family have been active in the affairs of the city and church. About a year ago Dr. Robinson returned to East Lansing after spending a year in Germany and other European countries pursuing advanced studies.

Homecoming, Saturday, October 31. Come!

A contribution to the Alumni Fund will keep the RECORD coming another year.

ALUMNI AFFAIRS

1873

Frank L. Carpenter, Secretary
1346 Sigsbee Ave. S. E., Grand Rapids, Mich.
George E. Kedzie is a mining and geological engineer in Berkeley, California, where he lives at 43 Maryland avenue.

1874

Henry A. Haight, Secretary
539 Penobscot Bldg., Detroit, Mich.
M. T. Ranier writes from Mysle, South Dakota: "I am supposed to be retired from active service as a minister but am preaching every Sunday to the little community in the mountains of South Dakota known as the 'Black Hills' and enjoy it as well or even better than any work I had in my nearly 50 years of active ministry. The scenery is superb and people replicas. I still have my home at Belvidere, S. D., which is my permanent address. Was 80 June 30 but feel as young as I did at 30."

1876

Ervin D. Brooks, Secretary
710 S. Park St., Kalamazoo, Mich.
Cass E. Herrington may be reached at 680 Emerson street, Denver, Colorado, where he is an attorney.

1882

Alice W. Coulter, Secretary
457 Union Ave. S. E., Grand Rapids, Mich.
H. S. Hackstaff lives at 1821 Crenshaw boulevard, Los Angeles, California. He is president of the H. S. Hackstaff company. He says: "Same business (carbonic gas) many years, and still active at 73."

1883

Frank F. Rogers, Secretary
700 W. Washtenaw St., Lansing, Mich.
William A. Bahlke is a lawyer, farmer, and banker at Alma, Michigan, where he lives at 608 State street.

1886

Jason Hammond, Secretary
Porter Apts., Lansing, Mich.
Jason E. Hammond is manager of the Michigan Retail Dry Goods association, 232 Capitol avenue, Lansing, Michigan. Hammond is also associate secretary of the Grand Rapids Merchants' Mutual Fire Insurance company.

George L. Spangler is a lawyer in Forest Lake, Minnesota.

1887

George J. Hume, Secretary
R. 3, Lansing, Mich.
H. W. McArdle writes from 224 N. Eighth street, Fargo, North Dakota: "Still at the same old stand. Forty years of service as secretary-treasurer of this institution (North Dakota Agricultural college) on April 15, and still going strong. Enjoying good health and glad to get any news about classmates. Visited Lansing and the Campus and had lunch in the Union building May 15, but found no one I knew

except Mrs. Mary Cone Wheeler, a graduate from this school."

1888

Charles B. Cook, Secretary
R. 1, Owosso, Mich.
Henry Thurtell sends his blue slip from 1217 Delafield place, Washington, D. C., with the following note: "Lawyer. Busy day by day, week by week, and all the time with cares respecting railroad rates and practices."

1889

Edward N. Pagelsen, Secretary
Box 315 Panama City, Fla.
Mary Smith VanDervoort writes that she has just returned from a four months' trip in the Orient and the Philippines. Mrs. VanDervoort lives in Urbana, Illinois, at 706 S. Colen.

1890

R. B. McPherson, Secretary
Howell, Mich.
Lewis Spaulding lives at 1015 W. Watson, Lewistown, Montana.

1891

W. O. Hedrick, Secretary
220 Oakhill, East Lansing, Mich.
Frederick W. Ashton may be reached at 444 N. Beverly drive, Beverly Hills, California.

L. G. Barber is ill with sciatic rheumatism at his home, 131 N. Euclid avenue, Westfield, New Jersey.

On March 28 more than two hundred teachers, principals, and superintendents from northern Indiana met in an educational conference at Manchester college, North Manchester, Indiana. The noon luncheon was a tribute to Professor Willis A. Fox, who, after forty-seven years of work in education, is retiring voluntarily from active service. During the year 1929-30 Dr. Fox, accompanied by Mrs. Fox, enjoyed a year's leave of absence traveling in various parts of the United States, Canada, Mexico, and the West Indies. Professor and Mrs. Fox will make their home at Angola, Indiana, where for eighteen years Mr. Fox was dean of education at Tri-State college.

1893

Luther H. Baker, Secretary
205 Delta St., East Lansing, Mich.
William L. Harvey is president of the International Milling company, 1190 Flour Exchange building, Minneapolis, Minnesota. Harvey lives in Minneapolis at 2740 West Lake of Isles boulevard.

1894

Clarence B. Smith, Secretary
1 Montgomery St., Takoma Park, D. C.
M. F. Loomis may be addressed at R. 3, Pontiac, Michigan.

1896

William K. Clute, Secretary
608 Central Trust Bldg., Grand Rapids, Mich.
D. T. and Myrtle Peck (w'98) Randall are living in Plymouth, Michigan, at 233 Blunk avenue.

G. W. Williams is director of factories for the Creamery Package company of Chicago. Williams lives in Oak Park at 341 S. Humphrey avenue. He reports that R. A. Simonson, '30, is located with the same company at Lake Mills, Wisconsin, and that Harold Kerr, '30, is with the company's engineering department in Chicago.

1897

Hubert E. VanNorman, Secretary
Care Borden Co., 350 Madison Ave., New York City
H. E. VanNorman sailed July 1 for Copenhagen, Denmark, where he delivered an address before the International Dairy Congress meeting July 14 to 17. VanNorman planned to visit scientific institutions in Germany, France, and England before returning. VanNorman is director of research for the Borden company in New York city.

1901

Mark L. Ireland, Secretary
Fort Bliss, Texas
Gordon E. Tower lives in Salem, Oregon, at 480 N. 24th street.

1902

Norman B. Horton, Secretary
Fruit Ridge, Mich.
Orla L. Ayr, agriculturist for the Tennessee C. I. & R. company at Birmingham, Alabama, was at caller at the Alumni office July 13. He spent several days visiting his brother in East Lansing.

Marguerite Nolan Lemp is living in Boise, Idaho, where she is owner and manager of the Lemp Insurance agency. Mr. Lemp passed away four years ago as the result of a fall from a galloping horse during a polo game. Mr. Lemp was the foremost polo player of the northwest, and was captain of the Boise team for years. He had just been elected mayor of that city, with an overwhelming majority, the largest in Boise history. Their son John Lemp was graduated in June 1930 from Princeton, and their daughter, Catherine, was graduated the same year from the University of Washington.

Matt A. Crosby is an agricultural economist for the government and at present is engaged in a survey of the production and utilization of sweet clover in the great plains states—Texas to the Canadian border. In Fort Collins, Colorado, he saw Dr. C. P. Gillette and B. O. Longyear; in Wyoming, K. D. VanWagenen and just missed seeing Charles Oviatt. Crosby lives in Washington, D. C., at 1424 K street N. W.

1904

R. J. Baldwin, Secretary
East Lansing, Mich.
Robert D. Maltby is an agent for the federal board of vocational education, 1523 L street N. W., Washington, D. C.

He is located temporarily at Coronado Beach, Florida.

1905

V. R. Gardner, Secretary
East Lansing, Mich.

Bon Bennett French (Mrs. Harry A.) lives in Beloit, Wisconsin, at 1276 Prairie avenue.

A. A. Fiske is in general insurance business at 735 N. Water street, Milwaukee, Wisconsin, where he lives at 1570 E. Olive street.

1906

L. O. Gordon, Secretary
R. 3, Muskegon, Mich.

E. N. Bates sends his blue slip from 86 U. S. Appraisers building, San Francisco, California, with the following: "No change in position. We greatly enjoy THE RECORD. Naturally I always turn first to see '06 news. Sometimes it startles me to see how near to the front of the alumni news '06 occurs. I was delighted to get the alumni catalog."

H. L. Francis may be reached at Humboldt 44, Mexico City, Mexico.

Edward B. McKenna gives his address as 1441 Lawrence, Detroit, Michigan.

Ernest F. Smith writes from 4816 Hanover avenue, Richmond, Virginia: "No change in residence, family, job or salary, and consider myself lucky at that. I am still with the C. & O. railway and we hope to get these eastern railroads merged and a 15% increase in tariff soon. Very sorry that I couldn't get to the '06 reunion. I recently called on Wilbur, '08, who has a greenhouse and nursery business at Dumbarton, Virginia, just a little ways out of Richmond. He has a charming wife, two fine boys, and a comfortable home."

1907

George Brown, Secretary
East Lansing, Mich.

On June 12 Neal C. Perry received a bachelor of arts degree from the Fresno State college, California. Perry majored in education with a special secondary in public school music and piano, and the degree was granted with "honorable mention." A feature of the commencement program was a selection by the Fresno State college symphony orchestra conducted by Mr. Perry.

Earl P. Robinson sends his blue slip from Durham, New Hampshire, with the following: "Our son Francis graduated from the University of New Hampshire recently. I'm anxious for the M. S. C. folks in New England to get together and will be glad to do all I can to bring it to pass. Assistance of alumni office and help of volunteers solicited. Neil Stuart, '29, taking graduate work here, lives at our home. Harold Iddles, '18, as professor of chemistry, is recognized as a strong addition to the faculty."

Zenas E. Colby is general superintendent of the Baker-Perkins Co., Inc., of Saginaw, Michigan, where he lives at 816 Delaware boulevard.

EASTERN ALUMNI PLEASE NOTE

MICHIGAN STATE vs. ARMY
West Point, New York
Saturday, October 10th

2:30 P. M.

PROGRAM FOR THE DAY

1:00 P. M.—Review of West Point Cadets, Parade Ground
(A gorgeous and inspiring sight)

2:30 P. M.—Michigan State vs. Army

6:00 P. M.—Dinner at West Point Hotel

Your opportunity to meet old friends; to shake the hand of President R. B. MacPherson and other officials; to see your college friends.

Reservations should be made at once. Tickets may be had by applying only to Norman Weil, 247 Park Avenue, The W. S. Tyler Company, New York City.

Football Tickets - \$2.25 each

Dinner Tickets - 2.00 each

The West Point Hotel, beautiful in appointments and situated above the Hudson River, promises a real treat providing we have 100 or more for dinner. It is important therefore that you advise regarding dinner as well as game reservations.

Do not apply to either West Point or to our athletic office for tickets to Army Game. **Send** checks **only** to Mr. Weil at address given.

Tickets will be mailed to you (registered) on October 1st.

It is requested that you apply for reservations **at once**. Seats will be allotted in order of receipt.

1921

Maurice Rann, Secretary
1409 Osborn Road, Lansing, Mich.

Arthur R. Delamarter has been appointed by the American Near East foundation as principal of the Boys' school of the Albanian-American institute at Kavaja, Albania, operated by the foundation. Accompanied by Mrs. Delamarter and their son, he sailed in July on the S. S. Lapland for his new post.

Lansing accorded a hearty welcome to its most distinguished flying son, Art Davis, when he returned from the south where he had spent several days in quest of further race and stunt prizes. He was officially escorted to the Capital City airport by a fleet of local planes which met him several miles outside the city. The city's officialdom and the Eastern high school band met Davis at the airport and conducted him to the Hotel Olds where a banquet was staged in his honor. Davis' numerous trophies, won in air events in many parts of the nation, were on display at the hotel. Among them was the beautiful Cincinnati trophy which he captured last winter in the Miami air races.

1923

Wm. H. Taylor, Secretary
Okemos, Mich.

Joseph B. Edmond is associate horticulturist at Mississippi A. & M. college.

Carl H. Hemstreet sends his blue slip from Shelby, Michigan, with the following: "Still county agricultural agent of Oceana county. Have two sons, Douglas 4½ and Robert 1 year. Gordon ('23) and Mattie Vincent ('22) Morrison and their two children spent the week-end with us at Stoney Lake recently, climbing the largest body of shifting sand in the world outside of the great deserts, chasing Indian lore and interviewing the Ottawa Indians fishing in Stoney Lake and swimming in Lake Michigan. Gordon and I went for a swim every morning before breakfast."

It's

THE HOTEL OLDS

OF COURSE you expect more than just a room wherein to deposit your luggage and a bed upon which to recline at day's end. You expect convenience, for one thing—convenience of service and of location. You expect things to be pleasantly comfortable, too . . . Everything "tip-top," in short, from the responsiveness of the elevators to the softness of your mattress. Ample reason then for stopping at the Olds where just such modern comforts and conveniences are offered for your enjoyment.

GARAGE AND PARKING FACILITIES

If you are not here to see them through College

*We have a plan which will make
possible the completing of your
children's education.*

The new John Hancock Family Income Provision, which can be applied to old or new standard John Hancock Life or Endowment policies of \$5000 or more, guarantees your family, if you are not here to see them through, an annual income of 12 percent of the amount of your life insurance until the children are of age. Then the full amount of the life insurance is paid to your estate or beneficiary.

This *Family Income Provision* is available under three plans: the 20-year plan, where the children are very young; the 15-year plan, where they are older and their period of dependency shorter; the 10-year plan, where the children have reached their "teens" and a still shorter period of family income will be needed.

Talk to a John Hancock representative or, if you prefer, write for our descriptive booklet, "Income for the Family," to assist you in selecting the plan which is best adapted to your family needs.

JOHN HANCOCK INQUIRY BUREAU, 197 Clarendon Street, Boston, Massachusetts
