# THE M. A. C. RECORD

VOL. XXVII. No. 21

EAST LANSING, MICHIGAN

MARCH 10, 1922

AN M. A. C. BOARD OF PUBLICATIONS was created by the college Committee of Deans last Monday. The new board, which was established at the instigation of students interested in the *Holcad* and the *Wolverine*, will have general advisory supervision of all student publications. It will audit books of business managers, consult on editorial policy, and serve as a "clearing house" for all publication questions. The membership of the Board consists of the editor and business manager of the *Holcad*, the *Wolverine*, and the *Michigan Agriculturist*; the co-ed editor of the *Holcad*; the president of the men's student council; the president of the women's student council; the head of the college English department; the Alumni Secretary; the Supervisor of Publications; and a financial man from the college secretary's office, to serve as auditor.

CLOSING ITS SUBSCRIPTION campaign this week, the staff of the 1922 *Wolverine* checks about 1,100 subscribers on its books. While the number is lower than that taken for the original printing estimates, close cutting of corners has enabled the board to see its way through to financial success. The customary order from the college for *Wolverines* to be distributed to high schools in the state for advertising purposes helped in the final count, although fewer books than usual were ordered as a result of forced economy in all phases of the college finances.

THE "FAIR-CO-ED" grew better at each performance last week. Successful at Owosso and Jackson, the play became a real triumph at Lansing, where presentations were given on Thursday and Friday nights. Critics generally were loud in their praise, coach, players, and management all coming in for a full share of glory. It is safe to say that M. A. C. gained considerable added prestige as an "all-around" college as a result of the "Fair Co-Ed", its second Union Opera.

DAILY BACTERIOLOGICAL examinations are made of the college swimming pool in order to guard against any possible pollution of the water. Constant re-circulation of the water and minimum doses of chloride of lime are means of keeping the bacterial count of the water down. All this, of course, in the interests of health for M. A. C. students.

PLANS FOR AN M. A. C. get-together to meet the college debate team when it reaches Fargo, North Dakota, on its western trip are being made by alumni in the Fargo section. H. W. McArdle '87, writes from the North Dakota Agricultural College, where he is secretary-treasurer, telling of plans for the gathering.

THE ANNUAL GENERAL college elections will be held on Saturday, March 11. At this time students will vote for members of the student council, the Union Board, and the Liberal Arts Board, and for varsity yellmaster, *Holcad* officers, Y. M. C. A. officers, etc.

QUESTION OF A CHANGE in the form of student government was discussed at an open forum meeting in the Gym last Wednesday evening. A proposed new constitution was presented and discussed from all angles. It is probable that students will vote on the question of adopting the new form at a special election early in the spring term.

JOSEPH C. LINCOLN, famous New England humorist and writer, who was scheduled to speak at M. A. C. on March 9 as a number on the Liberal Arts program, was forced to postpone his engagement because of serious illness in his family.

COMPLIMENTS FOR THE WORK of the M. A. C. military unit were contained in an official communication received from Washington by Maj. F. G. Wrightson this week. The letter followed the favorable report of an examining officer who inspected the college military work a few weeks ago.

GENERAL SECRETARIES of the four denominations with whom the East Lansing People's Church is cooperating in student religious work were on the campus Wednesday and Thursday of this week consulting with heads of the local church.

A GENERAL ACTIVITY honorary society, which was created by vote of the student body at last spring's general election, has chosen the name *Excalibur*, and is holding regular meetings in preparation for active work in the future.

REPORTS BY P. L. BUTTRICK, of the college forestry department, who has just returned from a survey of the area hit by Michigan's recent sleet and ice storm, indicate that damage to trees in certain sections of the state exceeds that by any similar storm of which there is a known record. The loss will run into hundreds of thousands of dollars, according to Buttrick, while it will take fully a quarter of a century for many of the forests to recover. Limbs were stripped from the tree trunks and tops broken out. The college forestry department is sending out information on care and treatment in salvaging shade trees in the cities affected.

SCABBARD AND BLADE, honorary military fraternity, initiated five men into membership last week. The usual pre-initiation and banquet ceremonies were observed.

## Old Athletes Set To Trim Varsity

Fifteen of the best basketball men who have worn the Green and White in recent years will be ready to take their place in the alumni line-up when the "old-timers" engage the present varsity on Saturday evening, March 11, during the second annual Alumni-Varsity reunion. "Baldy" Spencer, Blake Miller, Lyman Frimodig, Larry Kurtz, Al Garratt and many others will take part in the fray.

Indications are that nearly fifty former monogram men will gather for the reunion. The Central Michigan Alumni Association is to hold its annual meeting on the same date, holding a joint banquet with the varsity men.

A business meeting of the Varsity Club, at which various matters of athletic policy will be discussed, is to be one of the features of the week-end.

## Chamberlain In Europe

Word has been received from Clem C. Ford '05, that Paul Chamberlain '88, sailed recently for Europe. Chamberlain is to be in Switzerland for several months. His address will be: Care Thomas Cook and Sons, Geneva, Switzerland.

## Sororian Alumnae Meet

Lansing Sororian Alumnae held their regular monthly meeting at the home of Mrs. Merritt Reeves, Park Lane, East Lansing, on March 1. Freshmen and Senior girls of the active chapter were guests at the dinner. The next meeting on March 29, will be at the home of May Persons Kirby in Lansing.

## Calhoun Alumni Hold Big Meeting

Nearly fifty alumni and former students of the college gathered at Battle Creek last week for a meeting of the Calhoun County Alumni Association. Director C. L. Brewer delivered the principal talk at the banquet, telling of developments and conditions on the campus during recent months.

The following resolution was passed at the meeting: "Resolved: That it is the sense of this Association that the name of the Michigan Agricultural College shall be changed to Michigan State College, and that copies of this resolution shall be presented to the President of the college, and to the State Board of Agriculture, and that they shall be published in the M. A. C. Record."

The following were in attendance:

D. A. Munro '02, Charles M. Stephens '04, F. S. Jacobs '21, H. J. Kurtz '21, E. D. Menke '21, E. A. Yoke '13, O. S. Clark (freshman) '67, Roy P. Norman '14, Jas. A. Elliott '97, Agnes M. Elliott, Bert Miller '20, Roy T. Schroeder '23, H. C. Bartlett '17, H. A. Goss '17, H. L. Woodland '20, Chester S. Wagner '10, A. G. Cummings '10, J. H. Brown '87, J. Homer Gordon '02, E. A. Richmond '02, C. P. Chidester, E. C. Ingerson, Ellen Thomp-

son '14, Katherine Ransom '12, H. K. Wrench '18, Mrs. Wrench, C. H. King '21, A. J. Carpenter '07, Mrs. Josephine Carpenter '08, Roy M. Hamilton '14, Mark A. Chambers '14, Lucius D. Sears '16, Josephine Zachariah '20, Therese Scudder '21, Elsie Johnson '16, H. F. Forsyth '05, Mrs. Forsyth, B. J. Owen, C. L. Brewer, Harold King '19, R. M. Roland (Dad) '15, D. R. Stillson '11, Mrs. Stillson, A. E. Johansen, Boyd Redner '20, Nenna Dunlap '19.

## D. F. Fisher '12, Makes Important Discovery.

An account of important discoveries in horticultural fields, made by D. F. Fisher '12, has just been received at the Record office from H. J. Eustace '01, formerly professor of horticulture at M. A. C., and now branch advertising manager for the Curtis Publishing Company, at San Francisco. Eustace apparently considers Fisher's work of real importance to the fruit growers of the Northwest. The following is his letter:

"D. F. Fisher's ('12) researches have resulted in a contribution to the horticultural industry of the Northwest that is valuable beyond the power of anyone to calculate. When apples, especially certain varieties, are held in storage they frequently develop a trouble known as 'scald.' The skin becomes brown and the attractiveness of the fruit is spoiled and, consequently, its commercial value. For many years this has been an annoying and expensive trouble to apple growers and dealers. Many scientific investigations have been made to determine the cause and to discover a control, but they have been unsuccessful.

"Fisher's investigation had to do with a wrapping paper, treated in some special kind of an oil—he calls it an 'istar.' An apple wrapped in this treated paper keeps in perfect condition for a long time beyond its ordinary season. Last June I had the opportunity to inspect some Grimes Golden apples that he had placed in storage in October. A quantity of these apples were picked from the same tree and packed and stored on the same day. Part were wrapped in this treated paper and another wrapped in the same kind of paper, but not treated. The results were as conclusive and clean-cut as I have ever seen. Every fruit wrapped in this special paper was as green and fresh and in as excellent flavor and condition as it ever was, while all the fruit wrapped in the untreated paper were badly 'scalded.'

"Fisher's discovery is the sensation of the apple industry in the Northwest. I think the teachers who enjoyed him in their classes in his student days believed he would do something like this. More power to him! Every one of his many friends will be glad to hear of his splendid success and I only wish that they might hear the good things the fruit growers say of his work for them. He is as

modest as he ever was and I had as hard a time to get the above facts out of him as I did to make him admit some of the things that he has accomplished."

## ATHLETICS

### Hope Defeated in Season's Best Game

Coming from behind in the last few seconds of play, the varsity basketball team defeated Hope College 29 to 28 last Thursday evening. The game, which was by all odds the best seen on the local floor this season, was a battle from whistle to whistle. Both teams showed clever passing and shooting and a carefully developed defense.

The lead changed hands three times in the last two minutes. After a foul shot by Gilkey had given the M. A. C. five a one point lead, Hope scored from the floor with only 42 seconds to play, assuming what looked to be the winning margin. Shortly after the next tip-off, however, the local squad worked the ball to the middle of the floor, from which point Foster sank a beautiful goal, reversing the lead for the final score. But 14 seconds remained when the shot was made.

Hope, rated the strongest team in the state, lived up to advance reports, and only a sensational return to form enabled the varsity to win. Captain Hensley, shaking off completely the slump which marked his play in recent games, played a wonderful floor game and scored four baskets from the field. Gilkey, with three field goals and seven points from the foul line was again high score man of the game.

### Victory Over Chicago "Y" College Ends Season

Coach Lyman Frimodig's basketball squad closed its 1922 season last Saturday afternoon with a 25-21 victory over the Chicago Y. M. C. A. College. The game was slow, as compared with the fast Hope game two days before, and brought out nothing of the varsity's speed.

Captain Heasley, Gilkey, Foster and Matson played their last game with the varsity, as all will be lost by graduation next June. Award of monograms and election of next year's captain will be made in the near future.

### Wrestlers Lose Return Match to Michigan

The wrestling team lost a return match with Michigan University Tuesday evening by the score 18-15. An earlier meeting at Ann Arbor was won by the M. A. C. mat men, giving the two teams an even break for the season. The usual seven weights were included in the competition, ranging from the 115 pound class up to heavyweight.

### High School Track Meet To Detroit Eastern

The first Annual M. A. C. Interscholastic Track Carnival, held in College Gym last Saturday evening, was won by Detroit Eastern High School. Good times were made in the various track events, while the high school boys set very creditable marks in the field numbers, a record of five feet ten inches in the high jump being one of the best performances of the meet.

Eleven teams were entered in the Class A events, with smaller entries in the Class B and Class C competition.

DEBATE TEAMS TO REPRESENT the college in a series of dual debates during April have been selected in try-outs held under the direction of the English department. One team will meet Purdue University, Colorado State College, and Olivet College at home during the month, while a second team will leave on April 5 for a two weeks' trip which will take them through fourteen states and as far west as Colorado and Montana.

## MARRIAGES

### WOOD-KIMMEL

Deville Wood '11 and Zella Kimmel '11 were married in Lansing, February 21, 1922. They left immediately en route for Sandakan, British North Borneo, where "Woodie" is director of agriculture and conservator of forests for the British government.

## CLASS NOTES

'07

Benjamin H. Halstead is practicing law in Petoskey and lives at 625 East Mitchell Street.

'08

T. L. Hankinson is teaching Zoology at the Michigan State Normal School at Ypsilanti.

Homer C. Skeels is botanist with the office of Foreign Seed and Plant Introduction, Bureau of Plant Industry, Washington, D. C. His work is to identify seeds and plants introduced by the office; keep a sample of each introduction and see that the names on all material sent out are correct. The seed collection contains about 40,000 samples, probably the largest collection in the world. His daughter, Alice Skeels, is a freshman at M. A. C. this year.

'02

H. I. Brunger, 153 Western Avenue, Mansfield, Ohio, says, "No change in address, position, condition of servitude, nor any material improvement in financial condition."

Postal authorities have sent word that Frances Sly may be addressed at Box 1275, Station C, Los Angeles, California.

'04  
George W. White continues at Atascadero, California.

Postal authorities have notified us of another change in address for Hannah Bach Rexford,—1544 Glynn Court, Detroit.

'07  
E. A. Willson is county agent for Cass County, North Dakota, and has his headquarters at the Court House, Fargo.

'08  
Lillah M. Haggerty sends this, "My address (6821 Olmsted Avenue, Chicago), is the same but my occupation is different. Since the new year I have been traveling representative for the King Richardson Company of Chicago. I expect to spend the next three months in Southern Illinois. I like my work and enjoy the people here. Hope I come across some M. A. C. people in my travels."

This comes from Ray A. Small, "The enclosed scrap of paper will help change my mailing address for the Record, to 206 State Capitol Annex, Madison, Wisconsin. A list of M. A. C. men in Wisconsin would be much appreciated. You may be interested to know that I have watched the alumni notes with considerable eagerness, in such Records as have finally reached me, and if I should have a chance to meet an M. A. C. man in his local habitat he may be sure of a call, anywhere in this state. My particular responsibility is change of ventilation and sanitation in all places of employment in Wisconsin, and I find it is some big, lively old place to work in. Of course the routine matters are attended to by the local deputies, but some of the specific problems make me wish I had worked harder on my thesis in 1908."

'11  
U. S. Crane of Fennville, Michigan, sends this, "Still raising the best apples for the best exchange in the best state in the best country in the world. The past points optimistically to the future. Mrs. Crane and I are striving to bring a couple of junior co-eds and one hort. up to the age when they can join the Mormon Family at M. A. C. and come home to bake a cake and push a plow."

John A. Blust says, "Am following a pedagogical life. Located near the driest spot in Canada, (Allerston, Alta.), the place noted for the rain that the rainmaker failed to bring. Harry W. Rowley '12, is located at Cooldale Is. Irrigation engineer for the C. P. R."

'12  
Russel A. Warner is now on the regular staff of patent attorneys with the General Electric Company at Schenectady. He lives at 109 Avon Road and thinks that Robert Ammon Warner can hold his own with the class of about '44.

This comes from LeRoy L. Jones, Route A, Lafayette, Indiana, "Am on my eighth year as Extension Poultryman for Purdue University. Last year purchased 17 acres just one

mile from the Purdue gates. Wife, three children, 500 hens and self are enjoying life at the 'Top O' The Hill'. Hope to be with you in June. Can a fellow drive up in a 'French Ford' (Chevrolet) and still run the bluff that he is a near millionaire? I have never been back when school was in session. I want to come."

'13  
Arthur J. Runner, 2112 Sixth Avenue, Bay City, says, "At the same job, agriculture and natural science in Bay City High School. Landscape gardening on the side. Like my job. I am busy plugging for M. A. C. and though a loyal Ag., I very much favor the proposed change in name. We have nothing to lose and a great deal to gain by the change. The present name is not truly representative."

Marjorie Mack Killins was born January 22, 1922, to Mr. and Mrs. Ray Killins (Grace Mack). The Killins are living in Ann Arbor.

Almyra Lewis vonThurn, 507 Oklahoma Avenue, Anadarko, Oklahoma, says, "After three months spent in Tulsa we have decided to stay in the 'sunny south,' and have come to Anadarko to live. Saw robins today and it is garden planting time. Certainly a change from Minnesota."

'14  
Word has been received from the postoffice at Los Angeles, California, that Francis Kenney and Hazel Cook Kenney '15, are no longer at 930 Stock Exchange Building. Wake up, you '14-ers, and locate them for us!!!

W. W. Barron and Mabel Tussing Barron '14, are living in Lansing at 226 South Logan Street.

Fannie Haynes Zimmerman is living in East Akron, Ohio, at 1751 Preston, Avenue.

U. C. Zeluff, Box 283, Tampa, Florida, sends this, "Same old job keeping 'injurious bugs' from coming into the country. Would like to get all names of M. A. C. people who are now living in Florida. Would like to form a Florida M. A. C. Club even though the membership wouldn't be very large to start with. Weather fine here. Wish you could all come on down for a visit." It isn't just clear to us what his occupation is. He might be most anything from a bacteriologist to an immigration officer.

Melvin A. Russell has changed his offices to the Federal Building, Minneapolis, but gets his Record at his home, 95 N. Prior Avenue, St. Paul, Minn.

'15  
Born to Mr. and Mrs. Frank L. Williams at Whittier, California, a daughter, Patricia, on February 20.

J. Sam Hartt is a consulting engineer in Madison, Wisconsin, with offices at 421 Gay Building.

Anna Van Halteren Vernier has requested us to send her Record to the Rose Apartments, 114 Stimson Place, Detroit.

'16  
E. G. Hamlin, Pakesley, Ontario, writes,

"Expect to be up here for another month anyway, and then? No other news of any importance. Chief Fuller has been over east of here in Newfoundland, making other people pay for his honeymoon."

Harold Horan is with the Highway Department at Lansing and lives at 206 Clifford St.

C. E. Thompson has moved to 11341 Brush Street, Detroit.

R. A. Runnels reports no change, still with the Veterinary Department at the College.

'17

Janice Morrison Zette' may be addressed in care of the Carlstrom Field, Arcadia, Florida.

S. J. Culver says, "Teaching agriculture in Sterling Township, Illinois. Working hard at present to wipe out corn root rot in this section of Illinois. The Michigan Agricultural College display at the National Grain Show in Chicago sure made these corn belt farmers know Michigan is coming along strong. Was on the campus for a short visit December 31. Mrs. Culver and I plan on being home in June this year by all means."

M. S. Tarpinian may be addressed at P. O. Box 702, Lupkin, Texas. He is a chemist and bacteriologist of that town and also Physicians' Service Lab director.

Jack Russell sends this in from 415 Madison Avenue, Lansing. "Had a letter from Glenn Hacker '16, who is down in Lexington, Ky. He is fine now but has recently been discharged from the hospital minus his appendix. Will L. Mason '13, is in Youngstown, Ohio, with the American Tar Products. Ralph Morgan '17, is with the extension department at Birmingham, Alabama. Cliff Reynolds '12, is in Detroit with office of sales manager for the Knoch Chemical Company. Jack Mass '16, was in Lansing last week and visited East Lansing and the Phi Delta House Sunday. Jack is sales engineer for Dry Kilns. Due to heavy road building schedules for all parts or sections of the country, both the Michigan Bridge and Pipe company and the Way Products company should have splendid seasons. We build corrugated culvert pipe, bridges, road tools, etc., at the Michigan Bridge and Pipe company, and at the Way Products company we manufacture Yule Hand Hoists and steel dump bodies for every make of truck, including the Ford."

'18

Earl Waters is no longer at 00 Elmhurst Avenue, Detroit. Can anyone tell us of his present location.

W. R. "Red" Collinson sends the following. "Please change my address to 904 East St. Joseph Street, Lansing. I have recently moved into my own home which I just built and can assure you that it seems good not to be afraid of getting 'kicked out' any minute. Sure have been some busy man for the past six months, working at the state highway day times (where I am assistant road engineer now) and then tearing out to East Lansing to sell suits and overcoats for the

Farm Bureau—some contrast—but it brought returns and that's all I wanted. I have six rooms and a sun parlor, all newly furnished, which are at the service of any M. A. C. people who happen my way, day or night, and they will be assured of a royal welcome. Here's hoping we may soon yell 'Michigan State!'"

The following comes from Paul Jamieson, Fort Collins, Colorado, "I have been working in Colorado as extension specialist for eight months. The only M. A. C. man I have seen is Harry Schaffer '18, who is a chiropractic doctor in Denver. Harry is well and says he likes his work better than doctoring horses and cows. Colorado is a good state. I wonder why more M. A. C. people have not come here to seek their fortunes. We have three children now. The last is Lois Annette, three months old. Mrs. Jamieson and I will welcome M. A. C. friends at any time. Our address is Fort Collins."

'19

Louise Hubbard is teaching Household Science and Art at Greenville, Michigan.

Gertrude Newbrough may be addressed at 41 Hague Avenue, Detroit.

Einar Ungren may be addressed at P. O. Box 391, Lansing.

'20

Information has been received from the postoffice to the effect that Joseph Wagner is now at 219 S. Spring St., Bucyrus, Ohio.

William C. Boman is now in Marshall, Michigan, at 518 E. Green St.

Ludovico Hidrosollo may be addressed at 1029 Calle Oregon, Manila, P. I.

Kenneth Kernen and Reeva Harris Kernen (w'22) announce the birth of Vernon Edward on November 11. The Kernens are living at 527 Ruby Street, Saginaw, W. S., Michigan.

'21

William F. Thomas is teaching at Perry, Michigan.

Lois Remage is a nutrition worker with Tuberculosis Association of Rochester and Monroe County, New York. She is enjoying her work very much and can be reached at 121 Mulberry Street, Rochester, N. Y.

Harold P. Conrad is practicing veterinary medicine in Owosso, Michigan, and may be addressed at 200 East Main Street.

Paul Lemon is a resident engineer for the Michigan State Highway Department at Saginaw, and lives at 921 East Genesee Street.

Harold J. Plumb is now living in Jackson, Michigan, at 123 North Wisner Street.
