Comments From President Shaw

An Ideal Setting

My dear President Shaw:

I wish to congratulate you and the College on conferring an honorary degree upon our distinguished industrialist, Henry Ford.

I have already heard your statement regarding the ideals of Mr. Ford and the College being the same reported favorably several times.

As a humble alumnus, it has often occurred to me that the reputation and environment of our institution create an ideal setting for more extensive research and a graduate school.

Very sincerely yours,

IVAN WRIGHT,

Professor of Economics,
University of Illinois,
Urbana, Illinois.

Plenty Of Fresh Air

Here's thanking you (Glen Stewart) again for getting Phil and me such good quarters at Mrs. Lynch's home. Exactly what we wanted. Cross ventilation—plenty of good air—all helping to keep us in good trim to be initiated into the freshman class of the Patriarchs' Club of M. A. C.

Sincerely,

MRS. R. RUMMLER,

#247 S. Winchester Avenue,
Chicago, Illinois.

Greetings!

Would like very much to be with "you all." But any of you who have a family of five children—all in school—each busy with his or her school affairs, can readily understand the "whirlpool" of activity in and about the home.

Besides my daily obligations to the Gulf Oil Corporation, I am involved at present in a WPA water project for our small suburban community to the extent of engineering the \$30,000 investment. In fact have had very little time for golf, fishing, or traveling—this year.

Should any of you visit the Dallas Exposition (celebrating 100 years of Texas independence) will be glad to have you come on down to Port Arthur and visit us. Phone 1144-J.

From E. W. STECK, '11.

R. No. 1, Box 188, Port Arthur, Texas.

Tuning In

It was interesting to me, as a former student at State to listen in on Station WKAR for the first time this morning.

My home is now in Cleveland and I regret that I am unable to dial your program on my radio there. My regard for the school is to be quite conservative—affectionate. I am indeed happy to see her going forward with such rapid strides in so many important fields.

Sincerely,

MARGARET M. LYONS,

11095 Lake Avenue,
Cleveland, Ohio.

China Speaking

At present I am working in the National Resources Commission of the National Government in Nanking and take charge of the statistical investigations. I have found my work quite interesting, for I always have a chance to apply what I learned in the States. Sometimes I also give special lectures for a few weeks in the colleges here. When I found leisure, I often write articles for the scientific journals.

Very truly yours,

P. T. YUAN,

(B. A. '29; M. A. '30)

2 San Yuan Hong,
Nanking, China.

Back In The Fall

"Hello Folks":

Just a line to say I am sorry to have you announce that the "Sun-up" program starting at 6 p. m. is to be discontinued till the opening of school again next fall.

I am sincerely hoping that you will be back on the air again next September. In fact, I wish you would continue through the summer. There are other programs coming on at 6 p. m., to be sure, but none that I enjoy as well all around as yours.

Very truly yours,

HERBERT W. WHITE,

906 Princeton Avenue,
Lansing, Michigan.

From The Far East

I note with pleasure of the growth of the college since our times and hope she will continue to grow until she becomes one of the foremost institutions of learning in the United States.

After graduation . . . I went to the University of

California for a year's post graduate course on a Chinese Government scholarship given me by the Tsing Hua College.

I am very glad indeed to hear of different Ionians who are getting on so nicely. I wish I can write to each separately but such seems to be impossible . . . You will have to tell each of our Ionian brothers when you see them that I send my best regards and fraternal greetings to them all.

I have been in the motion picture business for the last 15 years. I taught school for several years after I returned to China. I was with the Peacock Motion Picture Corporation for 9 years and have been with the Metro-Goldwyn-Mayer Pictures for the last 6 years. I am now one of the 3 managers in China for M-G-M and am in direct charge for North China.

In private life, I am a Rotarian and a Mason and have five children. The eldest child, Myrtle, is 19 years old and is a freshman at the Yenching University in Peiping. . . My second child is Roland who is now 18 years old . . . Roland will graduate in another month . . . and he will be one of 12 who have been exempt in taking entrance examinations to Yenching University because of high scholarship.

(Turn to page 17)

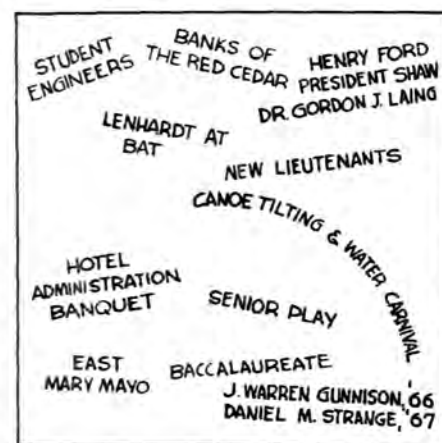

Inquiries and accepted applications for admission next fall seem to indicate that there will be a still larger enrollment this coming term than one year ago. Every effort is being put forth to try to solve in the best possible manner the many problems that will arise in connection with the housing of both men and women students. We hope earnestly that suitable and comfortable living conditions may be available for all incoming students.

The college realizes its responsibility in replacing home environment for the period of the student's undergraduate life. In this problem, as in many others, we need the help of alumni. The growth of the college, the service which it can give to the state, and our hope of more generous financial support by way of state appropriations, all depend upon the willing and hearty support of the alumni of Michigan State.

The academic year, 1935-36, has been a very busy and satisfactory one for Michigan State College. The great increase in enrollment in the fall of 1935—the largest yet known—was an agreeable surprise, even though meeting the situation required extra large expenditures for additions to staff. We are fortunate in having been spared serious difficulties in the form of accidents or disasters, and, considering the large number in the staff and the student body, the hand of sorrow has been laid upon comparatively few. Fine co-operative relationships have existed between the State Board of Agriculture, the Administrative Group, and the Faculty.

The financial situa- (Turn to page 6)

Identifying Cover

This will help you to identify the pictures used on the cover of the M. S. C. Record. The cover represents pictorially some of the major activities on the campus since the April issue.

SILVER ANNIVERSARY

"How did old 1911 turn out for its twenty-fifth reunion?" Ask the feeding force of the Union Building! They will tell you how they switched the luncheon place from the Loggia where forty places were set to the Faculty Club rooms where ninety-two plates were provided. And then to meet a last rush of loyal 'leveners, two extra tables had to be rushed in. Yes, sir, a real reunion—just about the largest Silver Anniversary yet. Forty-nine members of the class of 1911, together with families, making a grand total of 109, finally squared away for the noon luncheon.

"Cork" Sanford ably steered the short, joyful, impromptu program.

CLASS OF 1911

Each celebrant had a chance to account for his last twenty-five years of business and social life. Turn over to the "Class Notes" to get the highlights on what's been going on with the 1911 folks.

Following the luncheon the happy crowd met at the 1911 fountain for the picture shown on this page. How many of the old timers can you identify?

Notice the canes in the picture? These were not needed as support for the decrepit, but were souvenir sticks. Made of Dowmetal (carrying out the silver scheme) etched "1911-1936"—they emitted a bell-like tone when tunked on a hard surface.

Next Time You, Too, Will Return

Alumni Day Attracts More Than 700 Graduates; Classes Hold Reunions

The largest and happiest group of alumni and former students with their families came from far and near to attend one of the most successful Alumni Day programs ever held on the Michigan State Campus. Alumni Day, held this year on Saturday, June 13, was a feature of Commencement Week held under the auspices of the Alumni Association.

More than 700 alumni and former students, coming from more than twenty states, registered at the information desk in the Union. Scores of others were too busy meeting old friends and attending meetings to leave their names and addresses. The class of 1911, back for its 25th anniversary, exceeded all others in attendance. The eleveners had 109 people at their luncheon Saturday noon. The class of 1916 was second with more than 60 people present at its 20th

reunion dinner. Other classes well represented were '86, '01, '06, '21, and '26.

The annual Patriarchs' Club luncheon, with President Shaw and the State Board as hosts, continued to be an important part of the Alumni Day program. Immediately following the business meeting more than fifty men and women, out of college fifty years or more, gathered in the main dining room of the Union and were welcomed by President Shaw and Clark Brody, '04, chairman of the State Board. During the short program following the luncheon the Rev. N. A. McCune, '01, of the Peoples Church, gave a short commemorative talk in honor of those Patriarchs who had passed away since Alumni Day of a year ago.

The rest of the program was in charge of Henry A. Haigh, '74, of Detroit, who, in his informal manner, called upon several persons to respond with a short narration of their early college experience. J. Warren Gunnison, 'w66, told of the founding ceremonies when the college was dedicated May 3, 1857. He was on the campus

that day as a small boy and recalled with clearness the events of that memorable occasion. As usual Daniel Strange, '67, of Grand Ledge, the oldest living graduate, responded with an original poem dealing with the pioneer days of the college.

The Union lobby was a bedlam of noise preceding the class luncheons. Jim Hays, secretary of the class of 1911, waved his shiny silver cane to shoo his flock of 'leveners to the third floor dining room, while "Pinky" Gordon, of '06, and Bert Cooper, of '16, frantically cried out requests for their respective classes to meet in the ballroom. Many class groups held successful meetings, and a number of reunion pictures, found elsewhere in this issue of the RECORD, is evidence that "times must be better for State grads."

Following the Alumni Day baseball game, the traditional Sunset Supper was held in the Union ballroom. The class of 1911 was honored by having Jim Hays named as toastmaster for the occasion. With Gil Daane, '09, detained at the Cleveland convention, no special speaking program was arranged. However, with Jim's masterful craftiness, the new type of program was presented without an inter- (Turn to page 9)

Ford Honored By College

Receives Honorary Doctor Of Engineering Degree As 576 Students Graduate

Swingout — Lantern Night — Senior Play — Water Carnival — Baccalaureate — Commencement — and suddenly the final colorful week was over, and with it ended the undergraduate career of the 78th and largest senior class in the history of Michigan State College. Henry Ford, Detroit auto magnate, received an honorary Doctor of Engineering degree and thus became a Spartan alumnus in the same commencement exercise that awarded bachelor degrees to 540 students and advanced degrees to 36.

In conferring the degree upon the distinguished engineer, President Shaw said:

"Mr. Ford, your achievement in engineering, industry, and finance are so well known throughout all civilized countries of the world that there is no need to recount them on this occasion. Your successes have been the marvel of all peoples; you have astounded the world by developing and maintaining its largest individual industrial enterprise, unique in many respects among corporate forms of organization.

"Lord Bacon has said, 'Three things make a nation great and prosperous: first, a fertile soil; second, busy workshops; and third, easy conveyance of man and commodities from place to place.' Your industrial successes have resulted in vast developments of busy workshops, in which labor has been generously rewarded in order to make possible your ideals.

"Your inventive genius and the products of your industries have been prime factors in first relieving rural life of its dread isolation, and then in providing facilities for the improvement of the economic and sociological conditions of rural people by making available abundant supplies of

power and transportation facilities at reasonable costs.

"You have always recognized the interrelationship and interdependence of engineering, industry and agriculture, which are basic functions of the land-grant colleges to which Michigan State College belongs. You have not only advanced the interests of industrial education, but have initiated and stimulated research directed at the solution of agricultural problems as well. Your continued personal participation in the details of your business, your indomitable energy, will-power, philosophies of life, and belief in the simple life all warrant emulation.

"Michigan State College welcomes

you most heartily into the notable group of those who have already accepted the honor, which, with your consent, we now bestow upon you. By authority of the State Board of Agriculture, governing body of Michigan State College, I hereby confer upon you the honorary degree of Doctor of Engineering."

The class of 1936 exceeded last year's graduating group by forty-one. The liberal arts division led the roster with 201, followed by engineering with 93, home economics with 86, applied science with 74, agriculture with 59, and veterinary medicine with 27.

Following the commencement exercises Mr. and Mrs. Ford were guests of honor at a luncheon given by the State Board of Agriculture and the deans of the college in the faculty room of the Union Building.

Swingout on June 8 started the whirl of the last week. It was held in the campus circle directly north of the library in the grove of trees now known as the Forest of Arden. President Shaw, Secretary Hannah, Glen Stewart, alumni secretary, and Richard Colina, president of the class of 1936, gave talks.

Following the Swingout program, alumni officers of the class of '36 were elected.

Lantern Night, that annual snake dance of wriggling, bobbing lights and all-college co-eds, was held on June 9. The assembled girls marched across the campus from the Education Building, through the Botanical Gardens, and thence to the Forest of Arden where a temporary platform was erected for the occasion. The lanterns were passed from the higher to the lower classes to signify the shift in responsibilities.

"When Knighthood was in Flower" was the title of this year's senior play. It was presented on June 10 and drew a crowd that early sent up the "Standing-Room Only" sign on the bleachers before the outdoor stage in the Forest of Arden. E. S. King, associate professor of speech, directed the production.

Next came the annual Water Carnival. This year David S. Ruhe, Allentown, Pennsylvania, senior, wrote the winning theme. (Turn to page 7)

Henry Ford, as he appeared after he received the degree of Doctor of Engineering, conferred upon him by President Robert S. Shaw, at the 78th Commencement exercises of Michigan State College.

More Jobs For 1936 Class

Various College Departments Place Large Percentage Of Their Graduates

Not only are Michigan State's June graduates being employed in greater numbers than for many years, but one division of the college reports a shortage of students to fill employers' demands. Although the few available records are as yet incomplete, departmental heads are greatly encouraged by the present increased demand for college men and women.

The department of hotel administration ranks first in the percentage of graduates employed. Professor B. R. Proulx reports that all recently graduated seniors of the department are employed by leading hotels, and that dozens of requests for more workers cannot be filled.

Early figures from the engineering division of the college indicate that of the ninety-three graduates, sixty-one have been placed. Many of the remaining number are fulfilling R. O. T. C. camp requirements and will be undecided for a time. Requests for engineers are received daily from leading manufacturing concerns.

The tentative report shows that the five engineering departments rank as follows in employment: mechanical en-

gineering, twenty-two out of twenty-six graduates placed; civil engineering, sixteen out of twenty-three graduates placed; chemical engineering, sixteen out of twenty-eight graduates placed; and electrical engineering, eight out of sixteen graduates placed.

According to Dr. E. L. Austin, professor of education, seventy placements have already been made of students who obtained teachers' certificates.

Doctor Austin also emphasized that many more teachers will be placed before the beginning of the fall school term. Many requests were received for teachers of music, shop work, and commercial work, which could not be filled by the department.

Of the seventy-five graduates in economics and business administration, twenty-seven have definitely received employment and ten positions are in prospect. Graduates of this division are now employed by the General Motors Corporation, General Electric Company, Firestone Rubber Company, Goodyear Rubber Company, and the J. C. Penney Company.

Comments From President Shaw

(Continued from page 2)

tion of the college was not definitely known at the beginning of this last fiscal year, as Congressional action in August made available additional money in Bankhead-Jones funds. It has been possible for us through this twelve-month period to replace in part the cuts which had been made in salaries of off-campus and on-campus extension workers and for the majority of our research, teaching, and labor groups—a total replacement allotment of approximately \$125,000.

The students of today seem to have a more definite realization of their objectives in coming to college. They pursue their studies more diligently, and they have an awakened interest in the social and economic problems of the world. These facts are most gratifying for they are student aspirations without the loss of the genuine high spirits which we associate with collegiate age. Rapidly changing social conditions have presented new problems to the young men and women of today, but we have no doubt as to their ability to adjust themselves.

Student organizations on the campus—the Student Council, A. W. S., Panhellenic, Interfraternity Council, Mortar

Board, Tower Guard, Blue Key, and others—have exerted themselves during this past year in the recognition of high standards of scholarship and social behavior, in cooperation with the administration and in loyalty to the college.

The plantings of trees and shrubs and the grading of grounds which have taken place during the past several years are beginning now to make a decided showing and are adding materially to the natural beauties of the campus. We were glad to see the many alumni who returned for Alumni Day and the various Commencement activities. We hope that many of those who could not come back then will stop during the summer. College teaching, research, and administration—particularly in an institution in which such rapid growth is taking place—have turned into year-round jobs; you are sure to find a number of us here and glad to see you.

College Opens Farm Women's Week July 26

Michigan State College will offer the farm women of Michigan an opportunity to become acquainted with the most up-to-date methods of homemaking, and at the same time to enjoy a period of relaxation and entertainment at the annual Farm Women's Week, July 26 to July 31. The week will be devoted entirely to the interests of farm women except the final day, set aside as Farmers' Day, to which all members of the family are invited.

Women may secure expert advice on everyday problems of home management, child development, foods, clothing, and home furnishing.

Semon, '89, Heads Portland Club

Twelve Michigan State College alumni and their friends attended the annual meeting and banquet of the Portland, Oregon, alumni club, held early in May. The affair was held at the home of Arthur E. Welch, '14.

Frank E. Semon, '89, was elected to succeed F. Van Antwerp as president of the club. W. F. Staley, '88, was chosen vice president, and Mrs. W. C. Bale, wife of Charles W. Bale, '00, was named secretary and treasurer.

Other alumni who attended the meeting were: Carl S. English, '84, Kinton B. Stevens, '06, Verne L. Ketchum, '12, Emery D. Searing, '02, Herman C. Raven, '00, Leroy C. Thomas, '04, and James L. Shaw, '10.

More Than 1,000 Attend Summer Session

Approximately one thousand students are enrolled at the Michigan State College summer school, according to Professor S. E. Crowe, director of the session. The enrollment is the largest in the history of the summer school. It is estimated that the 1935 registration will be exceeded by more than two hundred.

Nearly one-half of the student body consists of regular Michigan State College students, according to Director Crowe, and the remainder is made up of a large number of high school and rural teachers from Michigan, Illinois, Ohio, Indiana, Mississippi, Kansas, New York, and Pennsylvania. The largest increase occurs in the graduate division.

More courses are being offered this summer than ever before. Early figures indicate that courses in education, English, home economics, geography, and chemistry are the most popular.

90 Graduate With High Average

44 Achieve High Honor Rating And 46 Get Honor Recognition For 4 Years of Study

Ninety June graduates were listed on the class honor roll for scholastic achievement during their four years at Michigan State College. Of this number forty-four achieved the coveted "B" plus average or high honor rating, and the remaining forty-six attained a "B" average or honor rating.

Students who attained these honors and the divisions from which they were graduated follow:

Agriculture: High honor—Morrell B. Russell, Burr Oak. Honor—Walter C. Jacob, Manchester; Peter J. Jenema, Three Oaks; Charles L. Taylor, Caro; and Leslie L. Winchell, Napoleon.

Forestry: Honor—Donald W. Smith, East Lansing; and Russell C. Stadelman, Dearborn.

Engineering: High honor—Frederic R. Ainslie, Grand Ledge; Richard W. Colina, Detroit; Harold H. Cooper, Decoratur; Stuart L. Finch, Fife Lake; Arthur D. Hulbert, East Lansing; Randolph Carl Lietzke, DeWitt; Leonard G. Schneider, Lansing; David W. Stonecliffe, Benton Harbor; Ralph D. Taggart, Port Washington, N. Y.; and Bruce E. Warner, Mt. Clemens. Honor—Newell E. Chamberlain, Grand Rapids; Guy W. DeKuiper, Fremont; Kenneth A. DeLonge, Detroit; Robert L. Featherly; Chatham; Carl J. Kuenzel, Grand Rapids; William A. Melching, East Lansing; and Raymond N. Miller, Grand Rapids.

Home Economics: High honor—Ada Mary Button, Farmington; Ruth E. Johnson, Benton Harbor; Bernadine Kraus, Lansing; Constance Majchszak, Lansing; Doris E. Reber, Petoskey; Irene F. Wagar, Flat Rock; Frieda Wiener, Muskegon; and Mary Louise Young, Elsie. Honor—Virginia F. Fouts, Grand Rapids; Marianna Halbert, Battle Creek; Barbara McAlvay, East Lansing; Vivian L. Meyer, Petoskey; Lucille Haskins Story, Trenton; and Frances E. Wilson, Harbor Beach.

Applied Science: High honor—Phillip J. Baker, Lansing; Frances E. Davis, Battle Creek; Virginia L. Ross, Lansing; David S. Ruhe, Allentown, Pa.; Curtis W. White, East Lansing; and Morton J. Wiener, Lansing. Honor—Jane Branstons, Muskegon; Robert J. Halbeisen, Charlotte; Ellen L. LaForge, East Lansing; Thomas W. Morris, Lansing; Walter H. Obenauf, Muskegon Heights; Joseph H. Venier, East Lansing; Steph-

en M. Glaza, Bay City; and Daniel J. Reck, Lansing.

Liberal Arts: High honor—Marian C. Andros, Lansing; Helen L. Anthony, East Lansing; John B. Brattin, East Lansing; Ruth Crossman, East Lansing; John H. Dart, Mason; Elizabeth M. Heald, South Haven; Dorothea E. Hilliard, Lansing; Martin L. Krauss, Lansing; Dorothy L. Langdon, Hubbardston; Helen E. Philp, East Lansing; Harold M. Richter, Manchester, Conn.; Helen M. Wilson, Traverse City; and Alice G. Wrigglesworth, Howell. Honor—Mary Isobel Blyth, Detroit; Bernadine L. Brown, Grand Rapids; Mabel Anne Eberly, Lansing; Dorcas M. Fuller, Grand Rapids; Eleanor B. Harrison, Edwardsburg; Claudia E. Ireland, Detroit; Ira J. Murray, Lansing; Elvira S. Nelson, Crystal Falls; Grace L. O'Brien, East Lansing; Retha L. Slack, East Lansing; Helen L. Snow, East Lansing; and Beatrice L. Tinglan, Vassar.

Business Administration: High honor—Matilda E. Adair, Wyandotte; and William K. Cribbs, East Lansing. Honor—Clarence Boonstra, Grand Rapids; Victor Duch, Lansing; Mildred J. Giese, Coloma; and William A. Kirkpatrick, Plymouth.

Public School Music: Honor—Pauline L. Taylor, Middleville; and Reta P. Thomas, Morrice.

Applied Music: High honor—Otto Stanley Butler, Jones; Betty D. Mack, Lansing; Gwendolyn Miller, Charlevoix; and Lucille R. Tillotson, Owosso.

Medical Biology: Honor—Mary A. Bruce, Grand Rapids.

Missing

Addresses of the following men are missing. Maybe you can tell us where they are. If so, drop a line to Lyman L. Frimodig, assistant athletic director, Michigan State College, East Lansing.

1904: (Big John) Alfson, R. H. Baldwin, M. A. Caine, Glenn J. Conyne, C. Chapman, Stewart T. Doolittle, Franklin F. Drew, Albert M. Frazer, Clyde M. Wolf, Danfield, William W. Gill, C. Hyde, William R. Kastner, M. M. McIntyre, F. G. Millar, John E. Schaefer, Richard C. Verran.

1906: Barlow, Gray K. Burrington, Phillips H. Holdsworth, Edward B. McKenna, Harry E. Moon, Carl Nern, Edward Pinnance, H. B. Shaffer.

1907: Athol A. Case, J. E. Peck, Harold Shaw, Tinsting, Garfield Verran.

1908: G. C. Carlton, Roy H. Gilbert, T. Hanson.

1909: Charles Doran, Charles W. Dunlap, Carl J. Hatfield.

1910: Leon G. Johnson, Lodiwic McGilliaray.

1912: Edward G. Culver.

1913: Cyril P. Rigby.
1914: Frank R. Davis, Guy F. Hoff.
1915: E. A. Calkins, Arthur G. Markham.
1916: Bruff W. Olin, Charles Trowbridge.
1918: J. T. Doscher, Robert R. Huebel, Earl B. Sheldon.
1920: R. G. Robinson.

Henry Ford Given Honorary Degree

(Continued from page 5)

He called it "Ballads in Tandem" and secured ideas for floats from Carl Sandburg's "American Songbag." Each float represented a poem or song from the middle-western scribe's collection. Under the management of Kenneth DeLonge, mechanical engineering senior from Detroit, the two-day water festival, beginning June 13, reached what was unofficially judged as an all-time high in river showmanship at Michigan State.

Baccalaureate exercises were held Sunday afternoon, June 12, in Demonstration Hall. Dr. Edwin Bishop of the Plymouth Congregational Church in Lansing delivered the address. Invocation and benediction were given by Dr. A. M. Jayne of the Lansing Central Methodist Church. Michael Press, associate professor of music, conducted the M. S. C. Symphony Orchestra.

Formal commencement rites in Demonstration Hall, Monday, June 13, fol-

lowed the traditional march across the campus of the graduates in cap and gown. Preceding the march the advanced R. O. T. C. students were awarded reserve commissions.

Dr. Gordon L. Laing, dean of the Graduate

Kenneth DeLonge, '36

School of Arts and Literature in Chicago University, was the commencement speaker, and Dr. N. A. McCune of the Peoples Church in East Lansing gave the invocation. The college band under the direction of Leonard Falcone furnished the musical background.

Tune In---It's MSC Broadcasting

Recent Survey Of 23 Schools Shows State Sixth In Total Time On The Air

WKAR, the radio service of Michigan State College, climaxed the most successful year in the history of the station with the broadcast of the annual Commencement exercises on June 15. A restricted schedule of two hours daily will be maintained through the summer months. A full program will be resumed in September, according to R. J. Coleman, director.

During the past season WKAR has taken a place among the leaders in the field of educational broadcasting. A recent survey of twenty-three college and university radio stations revealed that the Michigan State College station was

sixth in the nation in total time on the air, being surpassed only by the Universities of Florida, Wisconsin, Iowa, Ohio, and the Washington State College. This high position came through the enlargement of the service by the addition of many program features and also through greatly improved technical facilities acquired during the current year.

Among the most successful of the new features was the Michigan State College of the Air, a series of courses offered by radio for those listeners desiring to continue their interest in education. During the three terms a total of sixteen courses were offered, some from the studios and some direct from the college class rooms.

The enrollment in the radio courses was 907, with a steady growth being shown. The spring term registration was nearly three times that of the fall term. Letters from many listeners indicated that this service was appreciated.

Hon. Frank D. Fitzgerald, Governor of Michigan, and seven departments of the State Government have given valuable service to the state through the station. Men from the departments have presented non-political talks explaining the functions of the government.

For alumni and friends of Michigan State, the radio has provided a cross section of the college activities. Administrative officers have appeared before the microphone, as have representatives of more than thirty departments of instruction. In addition, such events as Commencement, Spartan Achievement Day Convocation, the May Morning Sing, and Band Concerts have been broadcast. Football, baseball, and tennis games, a bi-weekly sports review, and campus news, have kept college activities before the public.

WKAR is operated solely as a service in the extension field. As a medium for extending the influence of the college throughout the state, it has fully demonstrated its value. It serves, in many communities of Michigan, as the only direct contact between the people and the college and is a proved ally in building for friendly relations with the public. For alumni WKAR is the ever-present contact which can keep alive their interest in the college.

When the full schedule of programs is resumed in September, WKAR will offer again a diversified array of educational and informational material which will expand still further the field of influence of the college. Already several new courses are arranged for the

College of the Air. Other new features are in prospect and will be ready. Football games will be coming as well as activities of the student body. Make it a habit to tune to 850 kilocycles for WKAR.

Professor Patton

His Specialty Is Getting You To Sing

Alumni who attended the annual Sunset Supper, June 13, will remember Professor Fred Patton, head of the voice department of the Michigan State College Music School, as the jovial leader of songs. In addition to his teaching duties at the college, Professor Patton is dean of the summer music camp at Bay View, Michigan, and frequently takes time to appear as guest artist with leading symphony orchestras and opera companies.

For a man whose entrance into opera was, as he says, "accidental," Patton has attained remarkable heights. Formerly a business man, friends urged him to try for a role in a Cincinnati opera. Patton won the role and much acclaim, and within a short time after his first appearance with the Cincinnati Symphony, he appeared with the Metropolitan Opera Company of New York, one of the highest honors attainable by opera singers.

During the past season Patton appeared with the Cincinnati Symphony, and the Pittsburgh Mendelssohn Choir. Other engagements as an operatic, oratorio, and concert singer have taken him from coast to coast. He has more than fifty operatic roles in his repertoire.

Registrar's Office Transformed

Michigan State is taking a leaf from the psychologist's book of advice on first impressions and is dressing up her front window.

The State Board of Agriculture recently waved a \$1,200 wand over the Registrar's office and wrought astounding transformations. No longer is Miss Elida Yakeley's office the labyrinth of cubby-holes, desks, and bulletin boards that formerly greeted the neophyte. Instead, next year's class will find a single spacious room with a modernistic turn to the furniture and lights. When work is completed, there will be a new asphalt tile floor in the hallway of the building.

If you visit the campus soon, you will probably ask, "What is happening east of the Horticulture Building?" And closer observation will reveal that an artificial pond some sixty feet in diameter is under construction. The concrete pool will house numerous lily boxes and gold fish. Cattails and other bog plants around the edge will give it the true appearance of the "old swimmin' hole."

In addition to these improvements, work on the Union Building progresses rapidly. The new wing is well into the last story and will be ready for occupation by fall. The cafeteria in the basement, too, will be open to serve hungry Spartans by the time football season arrives in September.

Resolution You Should Read

You, as one of the 10,000 alumni of Michigan State College, should read the following resolution.

WHEREAS, Michigan State College has enjoyed a phenomenal increase in enrollment, (the enrollment for the present school year exceeds the highest previous enrollment figure by more than five hundred full time students, and present indications point to further marked increases in enrollment for the next school year and future years,) and

WHEREAS, the demands made upon the college for competent research in many technical and agricultural fields continue to increase, and

WHEREAS, Michigan State College was founded by the people of this State and has been maintained by them for seventy-

nine years supported through taxation and during all of that period has been of inestimable value to the State and has been and is recognized throughout the world as not only the oldest agricultural college but as one of the outstanding land grant colleges, and

WHEREAS, it has now attained a higher point in recognition and service than ever before in its bright history and is pointed to with great pride by the citizens of Michigan and other states, and

WHEREAS, inadequate monies for maintenance and operation, and inadequate college buildings, laboratories, and dormitories make it impossible for the college to properly carry on its proper functions and programs, (present annual state appropriations are more than \$300,000 less than formerly, with much greater demands brought about by increased enrollment and increased research demands),

THEREFORE, BE IT RESOLVED, that we, the alumni of Michigan State College, assembled in annual meeting at East Lansing on June 13, 1936, do hereby petition the next legislature (1) to make available for M. S. C. substantially increased annual appropriations for operation and maintenance that will enable this great asset of the State to continue to function adequately and (2) to make available immediately

Next Time You, Too, Will Return

(Continued from page 4)

ruption. It so completely satisfied the large crowd that everyone present proclaimed it the "best ever." The Girls' Glee Club, under direction of Miss Josephine Kackley, gave a fifteen minute performance that was unusually good.

The high-light of the program was the group singing under the direction of Fred Patton, head of the voice department of the school of music. His jocular mannerisms and spontaneity of action was received with great applause. By calling Helen Peterson, '33, from the audience and asking her to sing with him, Fred Patton firmly established himself with the old grads and their friends.

As a tribute to his services to the college and the Alumni Association, C. Fred Schneider

er, '85, of Grand Rapids, was presented with a large oil-tinted aerial photograph of the campus. Mr. Schneider responded to the presentation, given by Secretary Glen Stewart, and then introduced the newly elected president, Earle Hotchin, '12, of East Lansing.

capital funds to provide for badly needed dormitories, a student health center an auditorium, and additional classroom and laboratory buildings and facilities, and

BE IT FURTHER RESOLVED, that all alumni be urged by our officers and committees to become actively interested in this program and to become familiar with the great needs of our Alma Mater and make them known to the members of the Michigan Legislature and others able to be of assistance. The State Board of Agriculture and college administrative officials are invited to cooperate with the alumni and others in making available information on the college's greatest needs.

President Shaw was the only speaker on the program, but before introducing him Toastmaster Hays read a telegram from Walter Bernstein, North Wales, Pa., a special agricultural student with the class of 1911, and at the same time presented a large basket of flowers to President Shaw from Mr. Bernstein. In responding and greeting the alumni President Shaw expressed a belief that the inherent love of the college was ever foremost in the minds of alumni.

The class groups broke up after the Sunset Supper and by 9:30 Nate Fry and his eight piece orchestra had lured everyone back to the freshly decorated Union Ballroom for the alumni dance.

'Course It's Time To Talk Football

Coach Bachman Laying Plans For Fall Campaign; Members Of Squad Working Hard

Grass is growing knee-deep on historic College Field and only the feet of summer school students disturb the calm of the gymnasium, but behind all this calm, preparations are being made for another winning season in football next fall.

Coach Charles Bachman and his assistants are busily engaged in laying plans for the campaign. Prospective squad members are interested in keeping themselves in proper physical condition at their summer jobs about the state, and Trainer Jack Heppinstall is already beginning to dust off some of the equipment that will be used.

It is difficult to attempt an accurate estimate of the squad until players report after September 10. There is always the chance that some of the players will find it impossible to play. If all of those report who have promised, the team may again prove a winner. Coach Charles Bachman and his assistants were well satisfied with the results of the spring practice.

Four of the linemen who started most of the games and two of the backs who have played regularly for two years will be missing next fall. Sidney Wagner, Lansing, Michigan, guard; Joseph Buzolits, South Bend, Indiana, tackle; and Robert Allmann, Bay City, Michigan, and Louis Zarza, Hammond, Indiana, ends, have graduated. Kurt Warmbein, St. Joseph, Michigan, and Dick Colina, Detroit, Michigan, backs, are also among the alumni. These players will be missed, of course, but Coach Bachman is a firm believer in the free use of reserve material, and so next fall will find him able to put experienced players into the gaps.

It is possible that only one or two sophomores will make the grade as starters next fall. Steve Szasz, a fine halfback prospect from Chicago, is rated as a prospective regular. There are a number of sophomores who in leaner years might have stepped into regular jobs, but the prospect is that they will undergo careful training before they win starting honors. Walter Nelson, a giant sophomore from Chicago, is regarded as a fine end prospect, but it isn't likely he will displace such letter men as Frank Gaines, East Lansing, Michigan, Henry Kutchins, Hamtramck, Michigan, Bob McComb, Mus-

kegon, Michigan, and Milton Lehnhardt, Detroit, Michigan.

You may look for such line stalwarts as Gordon (Dolly) Dahlgren, Chicago, Illinois, Howard Zindel, Grand Rapids, Michigan, Vincent Vanderburg, Muskegon, Michigan, and Julius Sleder, Traverse City, Michigan, to help maintain a stiff forward wall next fall. They will have Tom Gortat, Muskegon, Michigan, Nelson Schrader, Northville, Michigan, Sam Ketchman, Battle Creek, Michigan, Howard Swartz, La Grange, Illinois, Harry Speelman, Lansing, Michigan, Gary Blunt, Port Huron, Michigan, and several others giving them a run for their jobs.

Coach Bachman has an unusually large assortment of freshmen backfield men coming up, and the prospects are that State's ball carriers will pack more weight in the next couple of seasons. Usif Haney, from Kingsport, Tennessee, weighs over 190 pounds at right halfback. Gene Ciolek, Michigan City, Indiana, at left halfback, is over 130. George Kovacich, Pontiac, Michigan, at fullback, goes 175 and John Pingel, Bay City, Michigan, another left halfback, weighs 180 pounds. Bachman has been pleased with his new ball carriers. They appear to possess talents that will make State's teams strong for the next three years.

When you return for games next fall, you will find the stadium capable of seating 30,000 instead of the 20,000 of

TENNIS SQUAD

Another winning tennis team was turned out by Coach C. D. Ball, Jr., the past spring. The Spartan racquets won 10 of 12 matches, scoring double victories over Michigan and Notre Dame. Coach Ball is shown at the left. Captain Bob Rosa fourth from the left and Captain-Elect Harold Scholtz at the extreme right. Only Ex-Captain Willard Klunzinger, fifth from left, will not return for 1937. Other players are G. Hyatt, L. V. Stonebraker, and W. G. Eissler.

other years. Workmen have virtually completed revamping the big field, adding about

10,000 more seats. It will be in first class condition for the opening game with Wayne University.

The baseball team won thirteen games while losing seven last spring, with a double victory over the University of Iowa as possibly the brightest spot on the record. Iowa played Michigan for the Big 10 title, losing to the Wolverines.

A tendency to commit errors kept the team from becoming one of the greatest in the college's history. George Hill, South Haven, Michigan, and Warren Walters, Buffalo, New York, provided some superb pitching and such veterans as Milton Lehnhardt, Detroit, Michigan, Steve Sebo, Union City, Michigan, and Irving Bartling, Detroit, Michigan, led a vicious hitting attack but all too often misplays in the field more than offset the advantages gained at the plate and in the box.

Coach John Kobs shook up the lineup several times but could not find a combination that fielded well consistently.

Ralph H. Young, director of athletics, has been confined to his home during the last few weeks because of illness. He expects to return to his office soon.

ALBERT AGETT

Michigan State will back this triple-threat halfback against any in the country next fall. Agett is a fine forward passer, one of the best kickers in the game, and his broken field running makes a threat every time he is handed the ball. He has been a star for two years and should reach his peak as the key man of the Spartan backfield this year. Agett's home is in Kingsport, Tennessee.

Leon (Bubbles) Hill made football history at Michigan State College in 1911 and 1912 as a right halfback on the

famous Aggie elevens. Next fall he will watch his two sons try for backfield positions on the Spartan eleven. Charles, shown at the left, and Hudson were both regarded as excellent varsity prospects by the coaching staff after spring practice. Coach Bachman only hopes they will play as their father did in other days.

Vance, '12, Wins Alumni Day Golf Tourney

For the second consecutive year Walt Vance, '12, of Lansing, carried the highest honors in the Alumni Day Golf Tournament, held at the Walnut Hills Country Club. Vance came in this year with a championship card of 84, winning prizes for the best score on the first nine holes, best score on the second nine holes and having the most par scores. Gil Rothfuss, '31, was runner-up with a card of 87 and won three golf balls.

Howard Rather, '17, head of the farm crops department, captured the blind bogey prize of six golf balls when his net score proved to be the exact number designated by the committee.

C. D. Hays, '86, of Kalamazoo, back for his 50th class reunion, won two golf balls for being the oldest alumnus on the course. E. B. Hill, '15, was among the prize winners, having the most birdie scores and the best score for the three par holes. John S. Hyde, '22, and J. R. McColl, '90, each carried away two golf balls for having the highest score of the day. Bart Tenny, of Lansing, lost the honor for the first time in several years.

Mark Oct. 17---It's Homecoming

Chester L. Brewer, Former Coach, Will Return As Guest Of Honor For Event

Just a suggestion! Circle October 17 on the calendar in your living room, for on that day Michigan State College will celebrate its annual Homecoming. You'll want to return to see Coach Charlie Bachman's Spartans in action and to shake hands with the guest of honor, Chester L. Brewer, whose name should awaken many memories among the State athletes of two decades ago.

Although Mr. Brewer was graduated from the University of Wisconsin, he has spent most of his career oscillating between the University of Missouri and Michigan State College. He first came to Michigan State from Albion College in 1903. At that time he filled the man-

sized position of athletic director and coach of all athletics. Seven years later he went to Missouri, but returned in 1917 to Michigan State in his old capacity. Finally, in 1922 he left the land of Sparta for the last time. Since then he has been professor of physical education at the University of Missouri.

In accord with custom, the first game of the football season will be dedicated to Boy Scouts and children of greater Lansing. Then, inaugurating a new scheme, the final contest will be called Parents' Day.

The grid schedule for 1936 lists four home games and five away:

September 26—Wayne University, at East Lansing.

October 3—University of Michigan, at Ann Arbor.

October 10—Carnegie Institute of Technology, at Pittsburgh, Pa.

October 17—University of Missouri, at East Lansing.

October 24—Marquette University, at Milwaukee, Wis.

October 31—Boston College, at Boston, Mass.

November 7—Temple University, at East Lansing.

November 14—University of Kansas, at Lawrence, Kansas.

November 21—University of Arizona, at East Lansing.

Changes Made In Liberal Arts Curriculum

Several changes in the liberal arts curriculum, eliminating unnecessary repetition of work and requiring courses in social studies and the sciences, will become effective with the opening of the fall term in September. According to Dean Lloyd C. Emmons, principal changes will be made in the modern language and English requirements.

Students entering Michigan State College who possess a reading knowledge of any modern language will be excused from further language requirements. Students may be exempted also from language courses by passing comprehensive examinations at the beginning of any term, by presenting four units of high school language, or by attaining a "C" average in second year college language courses.

A similar system of comprehensive examinations will apply to freshman English courses. Students passing these tests will be permitted to elect advance courses. Announcement that a two year Latin course will be offered, beginning in the fall, will be of great interest to prospective teachers and pre-medical students.

Courses in the physical and biological sciences, the humanities, and social studies will be required of all liberal arts students in the future. Additional courses will be offered to students of forestry, engineering, mathematics and hotel administration.

Last Minute Flashes

The State Board of Agriculture recently appropriated \$30,268 for additions to the faculty to take care of the anticipated increase in enrollment of 650 students this coming fall. The board authorized the hiring of thirty-two new members of the faculty, most of whom were graduate assistants. Approximately 4,650 students are expected for the opening of the fall term in September.

For the third time, John A. Hannah, secretary of Michigan State College, has been selected as one of the five delegates to represent the United States at the World's Poultry Conference to be held at Leipzig, Germany, from July 24 to August 2. Secretary Hannah left East Lansing on July 8. At the last session Congress passed an act appropriating \$25,000 for the erection of exhibits at the conference and the defraying of expenses of the five delegates.

Mr. Hannah plans to spend two days in Berlin as a spectator at the Olympic games.

Leonard Falcone

Under his baton the Michigan State College Band has won national recognition for its musical excellence and marching ability. An artist in his own right, he has won acclaim as a baritone soloist.

Band Concerts Draw Capacity Crowds

"Bigger and better" seemed to have been the slogan of the Michigan State College military band during its seventh annual spring concert season under the direction of Leonard Falcone.

Not only was the seventy-five piece group the largest on record, but the three programs offered this season were judged the most inspiring of any others given since the inauguration of outdoor concerts seven years ago. The concerts were given on May 13, 20, and 27, and presented as soloists George Cochrane, clarinetist; Joseph Evans, pianist; and Professor Fred Patton, baritone.

In finish and perfection of technique, the Spartan band ranks with the foremost college music groups of the country. This year, for the first time, the concerts were broadcast over the college radio station WKAR, but that did not prevent state-wide patronage almost to the point of overcrowding. And it is becoming common practice for high school directors to bring their bands to listen and learn.

In addition to the concert series, the band played for ten military parades, numerous baseball games, and commencement exercises. On June 9 it went to Traverse City for the state Knights Templar conclave.

One of the most urgent needs of this organization is a permanent concrete shell. In spite of long practice and splendid conduction, the band cannot overcome the deadening effect of the present temporary structure. A concrete shell would give resonance necessary to a truly fine performance.

Hotchin Heads Alumni Group

Julian, Taylor, Plumb, And Mrs. R. S. James Are Other Officers Elected

Earle Hotchin, '12, East Lansing, was named president of the Michigan State College Association in an election conducted by the Alumni Office in charge of Glen Stewart. Announcement of the

Earle Hotchin, '12

newly elected officers was made by C. Fred Schneider, '85, Grand Rapids, retiring president, at the annual Alumni Day Sunset Supper.

Hotchin, since his graduation in 1912, has maintained an active interest in alumni affairs of Michigan State College. He was graduated from the electrical engineering division and is employed as fire prevention engineer for the Millers Mutual Fire Insurance Company, of Lansing.

George "Carp" Julian, '15, former "Aggie" football star, succeeds Clyde Allen, '23, as first vice president of the association. Julian gained nationwide fame as an athlete when he was named as a member of Walter Eckersall's all-American team in the Macklin era. He is associated with the Olds

Motor Works in Lansing in the personnel division.

William Taylor, '23, assumes the duties of second vice president. Since his graduation from the Division of Agriculture, Taylor has taken graduate work at Harvard and has been active in educational activities of the state. He is now superintendent of schools at Lake Odessa. Otto Hess, '16, held the office during the last year.

The present treasurer of the association, Harold Plumb, '21, succeeds himself in office. A graduate of the engineering school, he is now an engineer with the Consumers Power Company in its Jackson office. Plumb is a past president of the alumni club of that city and has held the position of treasurer of the Michigan State College Association for the last two years.

Present vice president of the Flint alumni club, Mrs. Ruth Simmons James, '28, serves as women's representative to the executive committee of the association. Mrs. James has been active for many years in home economics in Michigan.

"Elevensers" Win Class Luncheon Prize

Assured of a hand-picked welcoming committee ready for their arrival, members of the reunion class groups responded this year with record-breaking enthusiasm and traveled college-ward to find friends at every function.

For weeks before Alumni Day Jim Hays and his committee of local 'elevensers' met in the alumni office to plan their Silver Jubilee reunion. The prize for the largest attendance at any class luncheon went to the 1911 crowd with 109 people (and one dog) returning. The third floor dining room was held as a fortress by this class from 12:30 Saturday noon until the class picture and the ball game at 3 o'clock. While no one will ever know ALL that was said there "Cork" Sanford, Jim Hays, Cliff McKibbin and all the others confessed it was simply 'the best ever.' The shiny silver Dowmetal canes carried by the 1911'ers were much in evidence all day.

To the class of 1916 went the award for making the most noise, but Bert Cooper says he can't help that—it was the first time many of the girls had met since graduation—twenty long years ago. More than sixty people gathered in the ballroom Saturday noon for the class luncheon and Tommy Gun-

son honored the group with some of his usual witticisms.

The 10th anniversary luncheon for the class of 1926 was held on the porch off the Union ballroom Saturday noon, with Ray Riggs acting as general chairman. Dozens of letters from people unable to return were passed around the tables and family snapshot pictures were shown by the use of a special bulletin board.

While the class of 1921 had fewer members back they nevertheless maintained the same merrymaking as other classes. The rush at the 1906 luncheon caused embarrassment to the Union officials but with additional help more tables were rushed into the Union ballroom and the forty-five 'naughty-sixers' were soon tamed. Pinky Gordon, class secretary, was in complete command of the 1906 class all day.

N. Y. A. Gives Work To 512 Students

Five-hundred and twelve Michigan State students received benefits under the National Youth Administration student aid program during the past college year. Director Glen O. Stewart reports that 90 per cent of these students were from the State of Michigan; 366 were men students, and 146, women students. Under the Emergency Relief Act of 1935 Congress allotted a comparatively small amount to assist the youth of the country, and the present Congress, which recently adjourned, included an additional amount in the appropriation for the coming year to continue the work of assisting unemployed youth.

Many requests are coming to Mr. Stewart's attention, relative to students seeking part-time work while pursuing their college courses at State. There is every reason to believe that the demands for part-time jobs will be far in excess of the allotment given to the college for the coming year. The Faculty Committee, appointed by President Shaw, will work with Mr. Stewart in making the selection of students who appear to be most deserving. These choices will not be made until the latter part of August.

An entirely new application blank is being prepared and will be sent to all deserving students during the latter part of July. Upon entrance into college and after showing a receipted statement for fall term fees, those students selected will be assigned to various campus projects where the rate of pay will be 30c and 35c an hour. These students will earn from \$10 to \$20 a month, and in many cases this represents from one-third to one-half of the total expenses for the year.

Alumni Groups Hold Weekly Meetings

The Michigan State Alumni Club of Rochester, New York, meets on the first Monday of each month at the Arcade Restaurant, 35 Main Street, East. Harlow R. Brigham, president of the club, says he hopes many State people will join the group for these luncheon sessions.

The Chicago alumni have found it most convenient to meet at the LaSalle Hotel Friday noon of each week. Basil J. Creager, of the Sales Promotion staff of the hotel, is an energetic worker on behalf of the State alumni, and Ben Halstead, of the Metropolitan Trust Company, 11 South LaSalle Street, urges more of the men to drop in for a luncheon chat.

"CLOSE BESIDE THE WINDING CEDAR"

The recently formed Tri-Phy fraternity, a combination of the former Trimolira and Phylean societies, was initiated June 13 as the forty-fifth chapter of Beta Kappa, national fraternal group. An installation team from Allegheny College, of Meadville, Pennsylvania, inducted forty Michigan State men into the order. Following the ceremonies, the new initiates and guests from all fraternities of the college attended a formal dinner at the Olds Hotel.

Six men of the junior class, whose activities in college affairs merited recognition, were initiated into Excalibur, activities honorary for senior men. The traditional tapping ceremony took place June 13, during the intermission of the annual Senior Water Carnival. Men tapped and their present campus positions are: Vincent Vanderburg, Muskegon, president of the senior class (1937); Ronald Garlock, Lansing, president of the student council; Lawrence Distel, Lansing, editor of the Michigan State News; John Hamman, Hartford, president of the inter-fraternity council; John Day, Cass City, president of the Union Board; and Steve Sebo, Union City, member of the athletic council and co-captain of the 1937 baseball team.

Donald Hittle, East Lansing, was elected president of the Michigan State College chapter of Pi Kappa Delta, national forensic fraternity, at the annual banquet of the group, June 4. Awards were made to twelve members who distinguished themselves as orators during the past season. Nine members of the freshman debating squad received awards for participation in the state tournament. Other officers chosen were: Don O'Hara, East Lansing, vice president; Maryan Ashley, Lowell, secretary; Fred Balen, Lansing, treasurer; and Jean Beukema, Holland, corresponding secretary.

An all-time record for sales of the Wolverine, Michigan State College year-book, was established during the past year. More than 1900 copies of the 336-page book were distributed to students at the close of the school year. Under the supervision of Ira J. Murray, Lansing, managing editor, and Carl J. Nos-

al, also of Lansing, business manager, a staff of sixty students began work in September arranging picture appointments and collecting interesting features for the book.

Miss Jean Ballard, of East Lansing, was named head of Mortar Board, national senior women's honorary society, at the traditional May Morning Sing, at sunrise, May 1, before the Beaumont Tower. Miss Ballard is one of five outstanding women of the present junior class who was chosen for membership in the organization. This is the highest honor that can be attained by Michigan State College co-eds. Music for the colorful affair was supplied by the college glee clubs and the a cappella choir. Others initiated into Mortar Board were: Lawain Churchill, New Era; Bette Hatch, Rochester, N. Y.; Helen Ryerse, St. Ignace; and Jane Shaw, Royal Oak.

Jean Ballard, '37

Mabel Eberly and Maryita Kreag, Lansing, and David S. Ruhe, Allentown, Pennsylvania, were declared the principal winners in the annual short story, poetry, and essay contest sponsored by the English Department. Miss Eberly was awarded the \$30 first prize in the short story competition for her contribution, "A Kitten for the Novelist". A group of poems, "It Isn't the Wind," submitted by Miss Kreag, brought the author a \$15 award. The Lawson essay award of \$25 went to Ruhe for his essay, "The Good Old Earth."

Others who qualified for prizes were: Arthur S. Taylor, Newberry; David V. Cleary, Jamestown, N. Y.; Joseph N. Watson, East Lansing; and Virginia Bailey, Flint.

An interesting study of Michigan State College men and their attitudes toward college life and religion was

recently completed by Rollo R. May, director of men students at the Peoples Church and student Y. M. C. A. secretary. Through personal interviews, May concludes that students as a whole do not tend to be irreligious, that they will respond to an adequate religious program, and that college tends to liberalize rather than destroy the student's religious beliefs. Many other interesting conclusions are drawn by the author in this study, "Portrait of Men Students," which originally appeared in the magazine, "Christian Education".

The Michigan State College International Relations club was host to more than two hundred representatives of twenty Michigan colleges at the ninth annual Model League of Nations Assembly, May 8. Governor Frank D. Fitzgerald welcomed the delegates at the opening session held in the state legislative chambers. Elmer Perrin, Northville, president of the club at Michigan State, acted as secretary-general of the assembly.

All-College Elections

Michigan State College class officers were elected recently in the all-college elections. Here they are—and maybe the list includes the name of a student from your city.

Seniors

President: Vincent Vanderburg, Muskegon, Michigan.

Vice president: Kathleen Woodlock, Lansing, Michigan.

Secretary: Grace Newins, East Lansing, Michigan.

Treasurer: Ellwin Willett, Bad Axe, Michigan.

Juniors

President: Howard Swartz, LaGrange, Illinois.

Vice president: June Hungerford, Sault Ste. Marie, Michigan.

Secretary: Lucy Tranter, East Lansing, Michigan.

Treasurer: Robert Bruce, Hamburg, New York.

Sophomores

President: Clarence Dennis, Ludington, Michigan.

Vice president: Elsie McKibbin, East Lansing, Michigan.

Secretary: Sally Howell, Saginaw, Michigan.

Treasurer: Ernest Bremer, East Lansing, Michigan.

All College

Athletic Council Representative: Steven Sebo, Union City, Michigan.

Cheer Leader: Howard Clark, East Lansing, Michigan.

Mirroring The Alumni World

In Which You Will Observe How Some Other Staters Are Establishing Themselves

Patriarchs

Bartlett A. Nevins, '75, long prominent in civic and business circles, died suddenly at his home in Detroit on December 23, 1935. Mr. Nevins served as postmaster of Otsego, Michigan, under the Harrison administration, and later as state representative. For many years he was engaged in the manufacturing business in Otsego. After moving to Detroit he became interested in the real estate development in that city. During the last decade he traveled widely, both in this country and in Europe.

The following tribute to Mr. Nevins appeared in an Otsego paper at the time of his death: "Wherever he went he was keenly interested in the life of the people and in their opportunities for a fuller enjoyment of human privileges. His mind saw the future as the development of the best in the past; he was always ready to embrace the new, if it was built upon principles which had been proved enduring. In exploring unfamiliar paths, his mind was independent and unhesitating. He was a genuine pioneer." Mr. Nevins is survived by a daughter, four brothers, and two sisters.

Word has been received of the death on November 30, 1935, of **Russell Allen Clark**, '76. He and Mrs. Clark had been living with their daughter in Knoxville, Tennessee, where he passed away. She writes that he suffered from two strokes of paralysis. Previous to his death he was very active and found much delight in corresponding with many of his classmates.

Clifton B. Charles, '79, active in Western Michigan banking and agriculture for more than forty years, died in Bangor on June 2, following a long illness. Though much of his life had been spent in financial activities, Mr. Charles preferred to be known as a farmer rather than a banker. Among his many activities he served on several civic bodies. He was an avid reader and maintained one of the finest libraries in Western Michigan. Surviving are his wife and one daughter.

H. M. Wells, '85, recently moved from his home near Lansing to Howell, Michigan, where he lives on Route 4.

1891

Henry B. Winegar is back in Birmingham, Michigan, where he lives at 1031 Chapin Street.

1896

Willis E. Finch gives his address as Bird-in-Hand, Pennsylvania.

George W. Munro, who lives at 202 Waldron Street, West Lafayette, Indiana, is professor of thermodynamics at Purdue University.

1900

Charles W. Bale is working for the U. S. Engineering Department on the Bonneville Power and Navigation Project in Portland, Oregon, where he lives at 2327 N. E. 18th Avenue.

L. E. W. Johnson manages the Albany, New York, branch of International Harvester Company. His address in Albany is 76 Lenox Avenue.

1905

Robert F. Bell is structural engineer for the Carbide and Carbon Chemicals Corporation in South Charleston, West Virginia.

1906

Rasmus Rasmussen is in Oakland, California, as district manager for Bates and Rogers, a Chicago construction company. Box 883 reaches him.

1907

E. A. Wilson is executive director of the Public Welfare Board of North Dakota. He lives in Bismark.

1909

Charles Oviatt expected to start June 10 with Mrs. Oviatt on a trip through some southern states to attend the International Convention of Rotary at Atlantic City and then wander up through Maine, Quebec, Ottawa, and northern Michigan enroute home. He writes that he is still in the creamery business in Sheridan, Wyoming, as president and manager of the Sheridan Creamery Company, but a great deal of his time and efforts this past year have been given over to work as Rotary governor for the district embracing Wyoming and Colorado and parts of New Mexico and Nebraska.

William Carl Chapman, advertising executive of the Ford Motor Company, died in Detroit on February 7, and was buried in Lansing.

E. B. Hulett manufactures paint out in Los

Angeles, where he is located at 1033 Mission Road.

1910

James Waldron is located in Tucson, Arizona, with the Rural Rehabilitation Division of the Resettlement Administration.

Julius W. Chapin is on the loan committee of the Federal Land Bank of St. Paul. His home is in St. Paul at 219 N. Griggs Street. His 18-year-old daughter, Annetie, was graduated in February from St. Paul Central High School.

1911

Highlights on those present at the twenty-fifth reunion:

O. G. Anderson, with Buick at Flint, has a freshman son at State.

Maurice Buck, Muskegon county surveyor, had a really handsome daughter with him, Dorothy, 13 years. At home was Frances, 9.

Ethel Caldwell Avery lives at Benton Harbor. Had husband with her.

J. DeKoning—Grand Rapids—chief engineer for Gallmeyer Company. Children: Paul, 22, and Marcia, 18.

Herbert and Winifred (Felton) Duthie, Grand Rapids. Children: Herbert Jr., 19; Katherine, 17, and Mary, 10.

Helen Eichele Gardner, Detroit. Children: Barbara Jane, 18; Esther Louise, 12.

Z. C. Goodell, Lansing, insurance. Children: John, 18, and Janet, 15.

Colina Heads 1936 Class

Richard Colina, president of the senior class, was elected president of the class of 1936 of the Michigan State College Association at the annual senior Swingout June 8. Other officers of the new alumni group are Helen Snow, women's director; Jane Elizabeth Lentz, women's secretary; Archie Ross, men's director, and Daniel Reck, men's secretary.

Richard Colina is a Detroit product. At Michigan State he has served as vice president of the Varsity Club, vice president of Excalibur, and member of the Student Council. He is a member of Tau Beta Pi, honorary engineering fraternity, and of the local chapter of Trimouira-Phylean. For the past two seasons Dick marshaled the Spartan football squad from the quarterback position. He

was graduated with high honors, and recently received the annual Athletic Council award for scholarship and athletic ability.

Helen Snow lives in East Lansing. She was president of the Alpha Phi Sorority and also vice

president of the senior class in her last year. A member of Pan-Hellenic Council, she also found time for the Union Board, the A. W. S. Council, and vice presidency of the Y. W. C. A. She was graduated from the Liberal Arts college.

Jane Elizabeth Lentz comes from Nashville, Michigan. During her college career she was on the A. W. S. Council, chairman of the freshman lecture program, and a member of Kappa Kappa Gamma. She majored in home economics.

Archie Ross acquired the reputation of an athlete at Michigan State. This Grand Rapids Physical Education major played excellent football and was a member of the Varsity Club.

Daniel Reck, a Lansing man, captained the '35-'36 basketball team, was elected cadet colonel of the State R. O. T. C., and is a member of the Varsity Club. He was general chairman of the Blue Key party committee, member of the J-Hop committee, and active on the Senior Ball committee.

Helen Snow, '36

Richard Colina, '36

Charles N. Frey, director Fleischmann Laboratories in New York City. Children: Martha Ann, 14; Charles, 6, and Florence, 4.

J. G. Hays, East Lansing, extension dairyman at M. S. C. James III, sophomore at State; Andy, 17, and John, 11.

Charles A. Hamilton, Grand Rapids, maintenance engineer for the Board of Education. Anne, 16.

A. Henrikson, Detroit, field superintendent Michigan Milk Producers' Association. One daughter was graduated from M. S. C. in 1934, one son now attending, two born on successive fourth of Julys.

Mabel Robinson Hock, Detroit. Escorted by husband: he a '12 man.

B. W. Keith, nurseryman at Sawyer. Lydiabeth, 13; Samuel, 15.

A. L. Lane, St. Louis, machinist. Miles, 23; Robert, 20; Norman, 16, and Duane, 13.

C. S. Langdon, Hubbardston, farmer and insurance. Daughter Dorothy was graduated from State this year, and Louise, 19, attending.

C. W. McKibbin, Lansing, real estate. Cliff Jr., 22, was graduated from State this year; Jack, 20, a sophomore; Elsie, 19, a freshman.

Elizabeth Palm, East Lansing, librarian in Lansing.

Stanley H. Perham, Indianapolis, consulting engineer.

Benjamin C. Porter Jr., with Grand Rapids Savings Bank. Elizabeth, 15; Margaret, 13; Benny the 3rd, 10.

Fred J. Richards, Flint, city appraiser. William, 16; Doris, 13. (Richards lost his cane; did anyone find one?)

G. A. Sanford, Motor Wheel, Lansing. Mary, 19; Marcia, 13.

Walter C. Schneider, Lansing, craftsman with Reo. Lucinda, 22, was graduated from M. S. C. in 1935; Paul, 19, now attending.

Ralph W. Scott, East Lansing Reo Motor Car Company. Eunice, Mildred, Dorothy, Graydon, and three grandchildren!

Ralph W. (Bob) Sloss, Milwaukee, U. S. Forest Service. Sally, 14; Ann, 10.

Guy H. Smith, Detroit, chiropractor.

Charles P. Thomas, Lansing, engineer. Willard, freshman at M. S. C., and Marilyn, 15.

C. B. Tubergen, Milwaukee, autos and garages.

W. H. Urquhart, Detroit, manager Forging and Casting Company. Barbara, at M. S. C.; Robert, 18, and Susan, 15.

H. Basil Wales, Milwaukee, U. S. Forest Service. Sabra Helen, 11.

Edwin E. Wallace, Detroit, engineering inspector. Kathryn, 17.

E. P. Wandel, Jackson, general manager Hinkley-Meyers Company. One child named Bennett.

Thomas C. Whyte, Detroit, teacher Northern high school. Eleanor, 16; Marjorie, 14.

D. D. Wood, Milwaukee, U. S. Forest Service.

K. D. VanWagenen, Basin, Wyoming, state agricultural extension. Walter, 21; Blanche, 19; Margaret, 13.

Helen Dodge Stack, East Lansing. William (all-state H. S. football), 18; Betty, 16.

John W. Knecht, Grand Rapids, manager street transportation system. Ruth was graduated from M. S. C. this year; couple of boys and another girl.

Carl H. Knopf, Muskegon county agricultural agent. Six boys—brought two as samples.

Alexander MacVittie, Detroit, high school teacher.

Mary B. Pennington Otte, Grand Rapids. One son, now at U. of M.

Harry S. Peterson, Detroit. A three-months-old baby, besides three older children.

Clare Severance, Fenton, farmer.

Fred G. Wilson, Madison, state forestry service.

Edmund C. Sauve, Lansing, professor of agricultural engineering at M. S. C.

H. E. Dennison, East Lansing, extension, American Jersey Cattle Club. Lee, 14; Barbara, 12.

1911'ers who couldn't get to the 25th reunion—here's what they said in letters displayed in the Union:

Walter Bernstein, North Wales, Pennsylvania. Dairy and Food Commissioner. Wired flowers with best wishes.

W. C. (Doc) Walker, president of 1911 class, wired regrets from Los Angeles. Doc is with J. A. Utley, Detroit building contractor; is in Los Angeles supervising construction of General Motors plant. Children: Hillson, 18, and Austin, 17.

Margery Kedzie Perkins, Lafayette, California. Sent snaps of family, Donald, 21; Rosamond, 11. An older daughter, Margie, has a three-year-old son.

Bess Schneider Foster, Greenwich, Connecticut, sent a photo of family, Dorothy, 16; Robert, 9. Bess reminds that she is "one of the three twins."

Evelyn Kopf Barnes, Washington, D. C., couldn't come because her only child, Barbara, had to have the family car to attend her own reunion, Wellesley, '35.

Ed Steck, Port Arthur, Texas, sent photo showing fine family of five children, three boys and two girls. Ed ordered one of the souvenir canes, too.

Flora I. Bates is pastor's secretary in Glendale, California.

Harry Lee Baker is state forester, Tallahassee, Florida. H. L. B. Jr. is 15.

C. L. Rose, Evart, federal farm credit administration. Has a boy, David, one year old.

Huber Hilton, Denver, Colorado, U. S. Forest Service. George, 11.

George R. Wilcox, Cadillac, Pneu-hydro Machinery Company.

E. G. Hulse, St. Johns, Gar Wood Industries of Detroit. Margaret, 20, enters State next fall; Jean Mary, 16.

William W. Shanor, high school teacher at Erie, Pennsylvania, sent snaps of Pauline, 20, and Mary, 10.

D. C. Carpenter, visiting professor at California Institute of Technology, Pasadena, California.

Bess Frazer Morgan, Monterey Park, California, has boy and girl twins, aged 12.

Maude L. Bennett Steger, Hudson, Michigan, sent snaps of Leo, 14; Bernard, 13, and John, 12.

Frank L. True, Armada, farmer. Martha, 14; Mary, 11; twins, Jack and Janet, 9; Elizabeth, 4 months.

G. H. (Ossie) Osbourne, Montreal, Canada.

G. H. Collingwood, Washington, D. C., U. S. Forest Service.

R. P. Holdsworth, Amherst, Massachusetts, head of Forestry Department.

Vern C. Schaeffer, Sturgis, farmer.

John R. Cornwall, Ashtabula, Ohio, with American Fork and Hoe Company. One son, Robert.

W. R. Olmsted, Saginaw, chief engineer Nelson Brothers, Virginia, 23; Louise, 21; Helen, 20. Son, Sherman, 17, is state high school champ 120 high hurdles.

J. G. France, San Diego, California, specialist agriculture extension, University of California. Marian, 22; Allan, 20; Harriet, 18.

1912

Frank and Lucile (Hawkins) Barrows are living in Grand Rapids at 1136 Underwood avenue. S. E. Frank is assistant to the works manager of Leonard Refrigerator Company.

1913

Laurence C. Piatt gives his address as 1701 Avondale Avenue, Charlotte, North Carolina, where he is on leave of absence from the Mutual Life Insurance Company, New York. He says that Maurice C. Piatt, w'18, lives in Grosbe Pointe Farms, Michigan.

1914

Ove F. Jensen, Dupont's ammonia salesman,

gives his address as Box 88, Chapel Hill, North Carolina.

Ruth Pickett is in the avocado growing business in Carlsbad, California.

1915

John W. Nicolson, vice president of the Henry Field Seed Company of Shenandoah, Iowa, writes that an abundant supply of moisture and more prosperous conditions generally in the corn belt have combined to swamp them with orders for seeds and nursery work. His company also maintains a line of powders and sprays designed to kill pests from bugs to dandelions.

1916

Paul V. Tower resigned from the U. S. Forest Service to accept the position as forester for the Ford Motor Company on June 1. "P. V.'s" headquarters will be at Iron Mountain, Michigan. On August 15, Frieda Meisel Tower and the quartette, Robert, Frederick, Paul Jr., and Lyman will give up their home in Pontiac and join him in Iron Mountain.

1917

J. A. Kerr is president of Kerr Hardware Company in Niles, Michigan, where he lives at 22 North 13th Street.

William C. Eggert is kept busy as electrical engineering inspector for San Francisco, where he lives at 1050 Shrader Street.

Fred Jacks has hung out his shingle—or whatever it is that chiropractors use to mark their places of business—at 1701 Ruddiman, North Muskegon, Michigan.

1918

Headquarters of Thomas W. Keating's activities as sales engineer are at 1015 Texas Street, El Paso, Texas.

Lee H. Tucker writes on Central Mutual Insurance Company stationery to the effect that he is moving to Baltimore, Maryland, where he may be reached at 512 Equitable Building.

1919

Ethel L. Hopphan has moved in Cincinnati to 3304 Jefferson Avenue. Ethel is bacteriologist for the Cincinnati General Hospital.

Margaret J. Johnston is directing Hiram House Camp at Chagrin Falls, Ohio. This is a year around camp for boys and girls.

1920

Harold Atkins is a real estate broker in Akron, Ohio, where he lives at 360 Eastland Avenue.

Virginia Flory Griffiths (Mrs. E. K.) writes as follows from 96 East Main Street, Buckhannon, West Virginia: "There has always been such a scarcity of news about my class and that of 1921 and 1922. Goodness knows they raised enough 'old Ned' on the campus—surely a host of them have survived the depression. As for myself—I'm earning no special renown just now, too busy raising four fine youngsters, Dorothy Jean, 10; Wilma Constance, 7; Donald Kingsley, 6, and George Edwin, 3, to bring my renown like Cornelia's Jewels. We were asked to take this territory on a month's notice so made the move so suddenly we hardly feel adjusted as yet. West Virginia is so different, it is neither northern, southern, eastern, nor western. So I spend a lot of time doing club work, looking up history, etc., trying to understand sympathetically this strange environment into which we have been so suddenly thrust."

Friends and classmates will be grieved to learn that Marian L. Normington died April 28 in a hospital in Amarilla, Texas, following a month's illness. Funeral services were held May 2 from the home in Ionia, Michigan. Miss Normington received her M. S. degree from the University of Chicago in 1923, and for the past eight years has been head of the home (Turn to page 18)

STATE GRADUATES IN THE NEWS

Fry, '17, Writes Book On Personality

Considerable interest is being shown in a recent book, "The Anatomy of Personality," of which Dr. Clements C. Fry, '17, is co-author. Doctor Fry is associate professor of psychiatry and mental hygiene at Yale University.

Dr. C. C. Fry, '17

The new volume, written in collaboration with Dr. Howard W. Haggard, associate professor of applied psychology, also of Yale, is an attempt to assist the average person in getting an insight into his personality and into the personality of others. More than six years of effort were required to complete the book.

Doctor Fry was graduated from Michigan State College in 1917 with the Bachelor of Science degree. During the war he served as chief sanitary engineer with the Red Cross. He completed work at the Northwestern University Medical School in 1923 when he received the M. D. Degree.

After serving his term of internship at the Louisville City Hospital, Doctor Fry became chief resident medical officer and senior physician at the Boston Psychopathic Hospital. A short time later he began his teaching work as instructor of psychiatry at Harvard University, where he served until obtaining his present position.

Sends Students To Michigan State College

One of the most ardent boosters for Michigan State College is Arthur L. Bibbins, '15, vice president of the Grange League Federation Mills, Incorporated, a farmer's cooperative organization, of Buffalo, N. Y. Bibbins, a former professor of farm crops at the college and an ex-captain of the Spartan baseball team, is instrumental in sending many students to the school.

His interest in Michigan State athletic teams is great, and frequently while making business trips, he stops at East Lansing to see teams in action. For a time Bibbins managed the Grange League Federation baseball team, one of the best in New York.

Following his service in the War, Bibbins studied crop rotation at the Rothamstead Experimental Station in Aberdeen, Scotland. Later he became a member of the Michigan State College faculty, and in 1922 became affiliated with his present organization.

4-H Club Work Keeps This Man Busy

A model host and one of Michigan State's most ardent alumni supporters is Ray A. Turner, '09, senior agriculturist in the U. S. Agricultural Extension Service in Washington, D. C., and head of the Boys' and Girls' 4-H Club work in thirteen central states.

R. A. Turner, '09

Marine Band from the nation's capitol. His interest in music led to the establishment of the 4-H Club music appreciation hour which may be heard monthly. These broadcasts consist of music by the band described and interpreted by Turner.

At the annual 4-H Club camp in Washington, Turner is a popular figure. In addition to his duties as supervisor of musical activities, he conducts all sight-seeing tours for the boys and girls. His many articles on 4-H Club cooperative extension work are widely read.

While teaching agriculture in Hillsdale, Michigan, shortly after his graduation from Michigan State College, Turner was elected president of the Michigan Association for the Advancement of Agricultural Teaching. In 1918

he became state 4-H Club leader with the extension service at Michigan State College, and continued in this position until going to Washington in 1924.

His interest in alumni affairs is evidenced by the many interesting letters concerning former State students which he sends frequently to alumni headquarters, and his cordial greetings extended to alumni who visit him in Washington. He is also a past president of the alumni club of that city.

C. R. Erickson, '22, Passes Bar Examination

Claude R. Erickson, '22, who holds four degrees from Michigan State College and studies law as a hobby, recently passed the Michigan bar examination. Erickson was graduated from the college with a B.S. degree in engineering, and has since received the M. E., the C.E., and the E.E. degrees.

C. R. Erickson, '22

Following his graduation he was employed by the City of Lansing with the Board of Water and Electric Light Commissioners, and his present position is that of assistant city engineer. Erickson has become well known for his work on power stations throughout the state. The present generating plant at Michigan State College is his own design.

At college Erickson distinguished himself as a student, and was selected for membership in Tau Beta Pi, engineering scholastic honorary society. His interests are by no means confined to engineering and law. He is a student of art and astronomy also, and—well, a pretty busy man.

Let's Read The Letters

(Continued from page 2)

Of several Chinese that have attended M. S. C. 20 years ago, there are only Mr. W. C. Nee and myself left as I understand it. Both Mr. P. K. Fu, my roommate in the "Bedbag Alley" in my sophomore and junior years, and Mr. Chan Horn, who took post graduate work at M. S. C., are dead.

Sincerely,

MING S. LOWE, '15,
43 Cousins Road, Tientsin, China.

Thank You!

I appreciate the Record more than words can tell—your covers are splendid.

Sincerely,

(Mrs.) VIRGINIA FLORY GRIFFITHS,
96 E. Main Street, Buckhannon, West Virginia.

Mirroring The Alumni World

(Continued from page 161)

economics department of West Texas State Teachers College at Canyon.

On January 1, 1936, R. E. Trippensee joined the growing Michigan State family in Amherst, Massachusetts, when he took over his duties as professor of wildlife management at Massachusetts State College.

Geophysicist in the Houston, Texas, office of the Gulf Research and Development Corporation is Ralph D. Wyckoff, who lives at 1215 Barkdull Avenue.

1921

Pearl McComb Teter is living at 406 E. Hildebrand Avenue, San Antonio, Texas. Her husband, Major J. J. Teter, was formerly on the military staff at the college.

1922

Daniel Dentyl II will be a year old on August 12. He has two brothers and they all live with their parents, the Daniel DenUyls, in West Lafayette, Indiana.

Allen and Rhea (East, '20) Monroe have their home at 128 Campbell, Jackson, Michigan. However, Allen is located at present in McKenzie, Tennessee, as project superintendent for the Soil Conservation Service.

1923

Leslie C. Davies is located in Charleston, South Carolina, as a civil engineer, at the U. S. Navy Yard, for the Public Works Department.

Harry G. Smith is assistant general manager of the Hoosier Lamp and Stamping Corporation at Evansville, Indiana.

Henry F. Small is power engineer for Consumers in Alma, Michigan, where he lives at 519 Richmond Street.

1924

Llewellyn B. Karr is district club agent at Onaway, Michigan.

Walter H. McLean is in the plumbing and heating business in Pigeon, Michigan.

Mrs. Joseph A. Mihn (Blanche Redman) must have seen plenty of the flood waters this last spring since she lives in Johnstown, Pennsylvania, at 1190 Mendon Highway.

1925

Charles V. Green, promising young scientist, was drowned in Eagle Lake near Bar Harbor, Maine, April 18. Details of the tragedy are not known as Doctor Green was fishing alone when last seen alive. Following his graduation in 1925, Doctor Green continued his studies and earned his master's degree in 1927. He then served two years under Doctor Hunt as chief assistant in the zoological laboratory. He obtained his Ph. D. from the University of Michigan, and for the last few years was a member of the staff of the Roscoe J. B. Jackson memorial laboratory of cancer research at Bar Harbor. His widow survives him.

Glenn W. Bradt, a former zoology instructor at the college, is now in the game division of the Michigan Department of Conservation.

H. G. Bogie writes that LeRoy Johnson teaches chemistry at Morgan Park Junior College, Chicago, Illinois. Bogie works for Sherwin-Williams and lives at 4 East 111th Street.

H. F. Hollenbach supervises station maintenance results for the Michigan Bell Telephone Company in Detroit. He lives in Grosse Pointe Park at 1312 Buckingham Road.

1926

C. C. Noecker lives in the Washington Apart-

ments, in Nashville, Tennessee, where he is distribution engineer for the Tennessee Electric Power Company.

Leota Hinkle is home economist for Consumers Power Company in Grand Rapids.

Mr. and Mrs. Carman D. Miller announce the birth of Robert Manning on May 19.

Ralph L. Tellman and Ruby Cash, '34, celebrated their first wedding anniversary on March 30. Tellman is assistant construction engineer with the Michigan Emergency Conservation office in Gaylord, Michigan.

J. F. VanArman is cost accountant and efficiency engineer with Tyler Sales-Fixture Company, largest manufacturers of steel grocery equipment in the world, of Niles, Michigan, where he lives at 1111 Howard Street.

Alice Windes is dietitian and manager of a ten-room at 94 Kings Highway in Brooklyn, New York.

Simon E. Wolff, agronomist in the Soil Conservation Service, lives at 1148 Clara Street, Fort Worth, Texas.

1927

Ronald L. Bird is located at Roscommon, Michigan, at the forest fire experiment station as technical assistant to the station director.

L. Camilla Johnson teaches clothing in the senior high school in Rockford, Illinois, where she lives at 2229 Oxford Street.

The Norval Tyrrells (she was Henrietta Schmitt, w'31) are at home in New York City at 161 West 16th street.

Sherman B. Vaughan gives his new address in Detroit at 1015 Hibbard, No. 26.

1928

Robert S. Ballmer is an instructor in the department of internal medicine at the University Hospital in Ann Arbor.

Mrs. Irvin Holmes (Pauline Gibson) has been teaching dramatic art at the Wilde Conservatory in Lansing for several years. She says that their young son Richard, age four, is decidedly dramatic right now and stages big performances daily. Mr. Holmes, who is assistant agricultural statistician for Michigan, gave a course in statistics at the college this year. The Holmeses live at 117 N. Pennsylvania Avenue, Lansing.

Duncan Hudson recently moved to Flint, where he is living at 7105 N. Saginaw Street. He is in the research laboratory at the Buick Motor Company.

Louise Kincaid is now Mrs. C. E. Pinney, of 724 State Street, Brighton, Michigan.

H. C. Bogie, '25, reports a recent visit with Harold F. Laver who is working for W. P. A. with offices in the Board of Education building, Cleveland. His mailing address is Bonnyview Road, South Euclid, Ohio.

C. Russell Parker is senior examiner for the Federal Home Loan Bank Board in Indianapolis, Indiana, where he lives at 2853 Guilford Avenue.

Myhren C. Peterson is assistant state director of a community sanitation program with the Minnesota State Board of Health in cooperation with the United States Public Health Service. His headquarters are in Minneapolis.

Stuart E. Sinclair is chief metallurgist for the Geometrie Tool Company of New Haven, Connecticut, where he lives at 1202 Whalley Avenue. He reports the arrival of Dorothy Gay on February 13 of this year.

William B. Spurrier is assistant to the city engineer of Highland Park, Michigan.

LeRoy Stegeman is on the staff at New York State College of Forestry, Syracuse, as instructor in zoology.

Raymond D. Fisher is sales representative in Columbus, Ohio, 327 Algonquin Avenue, for Valier and Spies Milling Company, of St. Louis.

Hilton Kiebler works for the Michigan Millers Mutual Fire Insurance Company and lives in East Lansing at 116 Kensington Road.

Charles and Patricia Quinlan (w'32) Mitchell live in Grand Rapids, Michigan, at 1728 Linden Avenue S. E.

Wilfred Newell is boys' work secretary in the Detroit Y. M. C. A., located at 2051 W. Grand Boulevard.

Vernon Rauhut, General Foods salesman, lives in Flint at 121 E. Baker Street.

1929

Arthur M. Nelson and Marjorie J. Reed were married in New York City on March 5. They are living in New York at 25 Prospect Place, Apt. 2107.

Caspar H. Rehkopf gives his new address as 6418 W. 26th Street, Berwyn, Illinois.

Social hostess at Presque Isle's Grand Lake Hotel is Ilo Smith.

Reese, Michigan, will reach W. H. VanPetten.

In a recent letter to Miss Yakeley, P. T. Yuan gave his address at National Resources Commission, 2 San Yuan Hong, Nanking, China.

1930

The new editor of the Tekonsha Patriot, Tekonsha, Michigan, is Meredith Clark, former editor of the Vicksburg Commercial.

Ruth Gettel Terrill (Mrs. C. A.) directs food service at the Flint Y. W. C. A. located at 201 E. First Street.

At the Pontiac (Michigan) State Hospital Audrey Glenn is assistant physician in psychiatry.

James G. Hayden is assistant traffic engineer for the National Safety Council, Chicago.

Arthur and Deci (Watkins, '31) Howard are living at 614 N. Cleveland, Jerseyville, Illinois, to be near Arthur's work at Camp Graham, Pers Marquette State Park, near Grafton.

Helen Janney is now Mrs. Howard J. Brown, and lives at 828 Forest Avenue, Fort Wayne, Indiana.

Floyd S. Markham is assistant professor of bacteriology at Ohio State University, Columbus.

Mrs. Charles Mulligan (Gertrude Morony) is living in Sarnia, Ontario, at 394 Cromwell Avenue.

L. N. "Joe" Retter, Firestone's export credit manager, lives at Akron at 137 N. Highland.

Leo T. Sherman is senior draftsman for the U. S. Engineers in Vicksburg, Mississippi, where he lives at 1101 First North.

The Forestry Department reports that Anton J. Tomasek has just been appointed state forester for the state of Illinois, with headquarters at Springfield, at the State Capitol Building.

Addison F. Wilber, Lewis J. Workman and L. L. Arnold, '31, are fellow engineers at 440 Custom House, Denver, Colorado.

1931

Lauren H. Brown has moved to 30 Emerson Place, Watertown, New York, where he is employed as field man for the Federal Land Bank of Springfield, Massachusetts.

Florence Cooley works for the Kroger Food Foundation as assistant home economist. She lives at 261 E. Auburn Avenue, Cincinnati, Ohio.

Horace S. Craig gives his address at 6141 15th Street, Detroit.

O. F. Edwards recently joined the faculty at University of Illinois as instructor in bacteriology. He and Mrs. Edwards (Lucile Niebling, '28) and son, Garth Frazelle, are living at Champaign at 1506 W. Church Street.

Ruth Endlich (Mrs. Thomas E. Caldwell) lives at 16 E. Fourth Street, Pittsburgh, California.

Wayland and Kathryn (Overholt, '29) Hart and their year old son are living in Clayton, Michigan.

Associated Press Editor James S. Haskins lives in Highland Park, Michigan, at 121 Highland Street.

M. A. Huberman is with the United States Forest Service in New Orleans, where he lives at 1727 Marengo Street.

R. Wallace Peterson and Ruth Gregory of Harlan, Kentucky, were married August 15, 1935.

They are now living at 1621 T Street, Washington, D. C., where Petersen is regional director of CCC camps.

Milford Martin is married and living in Boyne City, Michigan, but his M. E. C. W. work is at Camp Wolverine near Clarion.

Donald W. Shull and **Alice Hodges**, former supervisor and instructor in the Hackley Hospital School of Nursing in Muskegon, were married in Rochester, Indiana, on May 19. Mrs. Shull was graduated from the Hackley Hospital School of Nursing in February, 1926, and became a member of the hospital staff in June of the same year. Mr. Shull is sales engineer with the Worthington Pump and Machinery Corporation in Detroit.

Vern M. Smith is service manager for W. & J. Sloane of 711 12th N. W., Washington, D. C.

1932

Frances Ashley sends her new name and address as Mrs. Robert D. Andrews, 1010 Elliott Street S. E., Grand Rapids, Michigan.

Adelia Beuwkes is a dietitian at New York Hospital, 525 East 68th Street, New York City.

Kenton, Michigan, reaches **Maurice C. Christensen**, foreman of Jumbo CCC Camp. Christensen was married May 30, 1936.

Frank W. Conover is office manager at the Firestone Service Store at 18 South Cass, Pontiac, Michigan.

Jacob Fase is education adviser at CCC Camp Mineral Lake, Marengo, Wisconsin.

Dale and Gertrude Findlay Boyles are living in Detroit at 472 S. Harding Avenue.

Harold E. Haun troops for the State Police at Paw Paw, Michigan.

A first lieutenant in the 319th Cavalry, **Kenneth Lafayette** commands the 610th Company CCC at Stockton, Illinois.

Announcement has been made of the marriage of **Wilford H. Rohlf** and **Nina Maxine Hover** on June 6, 1936, in Akron, Michigan.

Stanley L. Slater is assistant engineer at the Michigan Northern Power Company in Sault Ste. Marie, where he lives at 326 E. Spruce Street.

Doris Streeter Muir (Mrs. Donald S.) gives her address as 427 W. Vine Street, Kalamazoo, Michigan. Her husband, who was graduated from Kalamazoo College in 1931, is coaching and teaching at Mendon.

Arthur Ungren and **Leah J. Lambertson** were married January 3, and are living at 1190 Steward Street, Detroit. Art is advertising manager for the Michigan Farmer.

John F. VanAntwerp is employed at Vitex Laboratories, Inc., in Harrison, New Jersey, but makes his home at 60 North Arlington Avenue, East Orange.

Richard R. Hutchison and **Margaret White**, '31, were married January 17. They are living at 812 Stockton, Flint, Michigan, where Hutchison teaches art in Pierson and Martin schools.

Jack Zant is sales engineer for Green and Melville of Detroit, where he lives at 12650 Sorrento.

Oscar Day is chief statistician for the Farm Credit Administration of St. Louis, and lives in Webster Groves, Missouri, at 115A N. Rock Hill Road.

Beatrice L. Kelly, who formerly worked for Dr. F. S. Kedzie, is a technician at the N. W. Larkum Clinical Laboratory, Inc., in Lansing, where she lives at 550 Norman.

Alan C. Nelson is a chemist for the Sherrill Oil Company in Pensacola, Florida.

Arthur Smith is technical promoter for the Calcium Chloride Association in Detroit. He and **Dorothy Wickstrom** were married August 31 and are living at 7720 Calhoun, Dearborn, Michigan.

Joy Vaughan teaches home economics at Grand Blanc, Michigan.

1933

Ralph and Loraine (Laramy, '32) Brunette are living in Brookville, Indiana, where Ralph superintends a soil erosion camp.

William and Helen (Gillette, '32) Carver celebrated their first wedding anniversary last April 20. They are living in Lansing at 333 N. Francis Street. Mr. Carver is employed in the die room office of the tool division at the Olds Motor Works.

As county home demonstration agent, **Margaret A. Cole** has headquarters in Marquette, Michigan, where she lives at 347 E. Hewitt.

Carl Dunn is president and general manager of Capital City Glass Works, Inc., 433 River Street, Lansing.

R. C. Hammerschmidt is personnel manager at Cliff Dow Chemical Company in Marquette.

Laura Ledbetter Smith (Mrs. W. A.) has moved at 365 Vineyard, Benton Harbor.

Russell K. Mead works at the Blue Valley Creamery in Grand Rapids, where he lives at 412 Sheldon Street.

Arthur H. Neeley (M. S. '33, Ph.D. '35) is a chemist in the State Department of Agriculture in Lansing.
