

The RECORD

Insect Hunters

April, 1942

Michigan State College

★ ★ THEY GAVE ALL ★ ★

THE war has been brought home to Michigan State college. Not only are hundreds of her men in fighting and auxiliary forces, but nine have died in service for their country. In these columns The Record pays tribute to State's gallant men.

★ **ROMMY (ROMKE) STEENSMA**, w'42. Killed in action with the Netherlands East Indies air force in Java, January, 1942. Student, 1938-40, in the Veterinary division. Entered college from The Hague, Holland.

★ **ROBERT WALDO HARNER**, '39. Killed in an airplane crash at Fort Knox, Kentucky, January 6, 1942. Graduated December 15, 1939, from the Applied Science division. Entered college from Newton, Mississippi.

★ **ETHAN ROBERT CUNNINGHAM**, w'39. Killed in action in the Philippine Islands, January 23, 1942. Student, 1933-34, 1935-39, in the Hotel Training course. Entered college from Detroit, Michigan.

★ **GORDON O. KIBBE**, w'40. Killed in an airplane crash at Victoria Field, Texas, January 27, 1942. Student, 1936-38, 1939-40 in Liberal Arts division. Entered college from Allegan, Michigan.

★ **ARTHUR ALFRED AMRON**, '40. Killed in action in the Philippine Islands, January 28, 1942. Graduated, June 10, 1940, from Hotel Administration course. Entered college from Rockaway Park, New York.

★ **WALTER STERLING BEAMER**, '36. Killed in an airplane crash near Hachita, New Mexico, February 9, 1942. Graduated, June 15, 1936, from the Business Administration course. Entered college from Negaunee, Michigan.

★ **DONALD GORDON HALL**, '40. Killed in an airplane crash near Buena Vista, Virginia, February 16, 1942. Graduated, September 6, 1940, from the Applied Science division. Entered college from Middleville, Michigan.

★ **DUANE TRIPP CROSTHWAITE**, w'42. Killed in a bomber crash near Boise, Idaho, March 16, 1942. Student, 1938-41, in the Engineering division. Entered college from Pleasant Ridge, Michigan.

★ **EZETIC PAUL LAUZUN**, '40. Killed in a bomber crash near Livermore, California, on April 12. Graduated June 10, 1940, from the engineering division. Entered college from Lansing, Michigan.

Letters

This Is A Record

I note that you have published something about some families who have contributed to the life and history of M.S.C.

I think a number of "old timers" would be interested in a story on the Carpenter family. Five brothers and sisters graduated from the college. They were Prof. R. C. Carpenter, '73, Judge William L. Carpenter, '75, Prof. L. G. Carpenter, '79, Mary Carpenter Mayo, '88, and Jennette Carpenter Wheeler, '98.

Three of them taught at the college, and Judge Carpenter was a member of the State Board of Agriculture.

Yours sincerely,

N. S. Mayo, '88, Highland Park, Illinois.

From Parrott (M.S.C. Staff—1900-'03)

The man without a name in the picture of the faculty basketball team on page 14 of your January number is Lester

Leland Locke, like myself associated with mathematics staff of that time.

I suspect that this note will prove superfluous, for I am sure that that picture will set to fluttering the heart of many a one of your alumnae of that period and that accordingly you have by this time been numerously advised.

Yours sincerely,

Alfred H. Parrott,
North Dakota Agricultural college.

P.S. Fond memories of the happy days I spent on your campus are often revived thru a nephew of mine who is now associated with your chemistry staff, Thomas Lester Canniff.—A.H.P.

(Others who identified Mr. Locke were J. M. Churchill, '03, Canastota, New York, and E. A. Seelye, '04, Lansing, Michigan.)

Co-eds Of '85

How natural the co-eds (The Record, January, "Days of Yore") of '85 to '89 look. They were the brightest spots on that old campus. Good for Stanley to

get that pose in the long ago. At present I am with my son on his Guard's Prairie farm in Cass county, almost a neighbor of Mr. Reynolds who has just passed on the Kedzie cane to our beloved honorary president, Henry A. Haigh, '74.

I have a grandson, who proposes to become the third generation of Staffords to be familiar with M.S.C. There may be others, as at present I claim twenty grandchildren.

Sincerely,

John C. Stafford, '88,
Lawrence, Michigan.

P.S. I claim to have put in more 8c hours of work on M.S.C. farm, garden, ice wagon and William's Hall lamps than any other student during 1886, '87, and '88.—J.C.S.

From Goodman, '40

I don't know who to thank for giving you my Camp Livingston address, but it sure was nice to continue receiving my copy of The Record while down there. My address has been changed again so I thought it best to get the mailing list corrected myself this time. The new address is

Lt. William F. Goodman, '40,
% The Postmaster, New York

On The Alert

I want to thank you for the January issue of The Record. Please continue to send it here.

It is certainly gratifying to read about the measures the college is taking to better prepare the students for an active part in the nation's war effort.

Things are still very quiet here, but we are ready for any enemy that might appear. We are on the alert at these jungle gun positions twenty-four hours a day. However, the soldiers don't mind it in the least. All they want is a chance at the Japs and then go home.

Lt. William L. Porteous, '41,
Canal Zone.

For Better Understanding

... In October 1940, I resigned as president of Lord & Thomas and took a leave of absence to go with the Government. At the request of Nelson Rockefeller, Coordinator of Inter-American Affairs, I accepted the position of Director of the Communications Division. I made a three-month tour of South America studying the influence of radio, motion pictures, news material, etc. on inter-American friendship and understanding. At the present time, I have an office with the Coordinator in the Commerce Building, Washington, and another one at 444 Madison Avenue, New York, and divide my time about equally between the two offices. ...

Sincerely yours,

Don Francisco, '14,
444 Madison Ave., N. Y.

On The Cover

Thousands of insects, housed in Michigan State's collection quarters back of the entomology building, represent bugs which may infest your Victory garden this spring.

On the cover examining the 10,000 specimen collection are three M.S.C. students and one faculty instructor who specialize in insect extermination, which saves Michigan approximately \$4,000,000 annually. You see, top to bottom, Philip R. Brown, senior from Attleboro, Massachusetts; William Sockman, senior from Ferndale, Michigan; and Earl Winters, who finished college in December, 1941, and is now with the Coast Artillery, Camp Wallace, Texas. The man, back to the camera, is C. W. Sabrosky, instructor in entomology. Mr. Sabrosky recently became a fellow of the Entomological Society of America, an international professional organization for the advancement of science.

If you're a novice at gardening, don't be surprised when the sod you plowed up for the first time this spring doesn't produce big red radishes, nice juicy tomatoes, and fine crisp carrots. The soil may contain the proper chemical ingredients, but those pesty white grubs, wireworms or cutworms may sap the strength from the plant nerve center. To destroy cutworms, Eugenia I. McDaniel, associate professor and research associate in entomology, recommends spreading poison bait over the seed bed several days before planting. This usually kills the bugs and permits normal growth.

The collection, started by Professor A. J. Cook, '62, former head of the department of entomology, contains the nation's most prized collection of Coccidae, scale insects found on shade trees and certain greenhouse plants.

Last year the entomology department received 10,000 requests from Michigan's nurserymen, industrialists, and farmers for information on how to control insects and bugs. Bulletins can be obtained by writing to the college bulletin department. There'll be a small charge for out-of-state requests.

College Ring

Alumni and seniors may now order an official Michigan State college ring with green tourmaline stone set in yellow gold.

The design, adopted this year, includes

NEWS ABOUT THESE ALUMNI

By Gladys M. Franks

PATRIARCHS

Reunion, Alumni Day, June 13

1888

The nutritional laboratory in the new veterinary college building at the University of Habana, Cuba, has been named in honor of **Dr. Nelson S. Mayo**, formerly in the Cuban government service. He and Mrs. Mayo are spending the winter in Mount Dora, Florida.

Dale A. Smith has moved to 4307 Harvey Way, Long Beach, California.

1892

Golden Anniversary, Alumni Day, June 13

1895

The November issue of the Texas Law Review contained an article by **Clay Tallman**, entitled "The Public Domain," covering the high points in the story of American public domain.

Peter V. Ross, internationally-known lecturer, has written a book, "A Digest of the Bible, the authorized version condensed for easy reading." A folder about the book and a clipping from the February 25 edition of the Christian Science Monitor in which Mr. Ross comments on restoring the American landscape were sent to the Alumni Office by **Dr. Fred Moran**, '15, of Paterson, New Jersey. Mr. Moran points out that there is a V in Mr. Ross' name and five paragraphs in each of the clippings.

1896

Grayson E. Miles, former electrical engineer, has retired and lives at 1529 Bancroft street, San Diego, California.

1897

45th Anniversary, Alumni Day, June 13

1898

Calvert Wardwell is building manager for the Michigan Millers Mutual Fire Insurance company in Lansing where he lives at 1608 Sunnyside.

1899

Lieutenant Colonel **Willis E. Mills** has retired from active duty in the Army and is engaged in stamp dealing in Burbank, California, where he lives at 723 E. Palm avenue.

1901

Fred S. Curtis is employed at Basic Magnesium Inc., near Luning, Nevada.

1902

40th Anniversary, Alumni Day, June 13

1903

H. Ray Kingsley is senior engineer for the War department, working out of the Columbus, Ohio, office at 232 N. High Street.

1904

T. B. O'Dell is employed as a supervisor at the U. S. Rubber company in Mishawaka, Indiana.

Paul and Alta (Gunnison, '05) Pierce have moved to Greenville, Michigan, where they live at 208½ S. Lafayette street.

1905

M. Leland Kingsley is construction superintendent for Shreve, Anderson & Walker, of Detroit, where he lives at 13856 Grand River avenue.

1906

Ralph G. Bird is sales engineer for Williams Patent Crusher & Pulverizer company of St. Louis, Missouri. He and Mrs. Bird (**Louisa Taylor**, w'05) live in Webster Groves at 904 N. Rock Hill road.

1907

35th Anniversary, Alumni Day, June 13

1908

Clyde Severance is science and band instructor in the high school at Homer, Michigan.

1909

Raymond Kurtz, supervisor at the Bendix Products company, lives out of Elkhart, Indiana, on Route 3.

1910

Thomas M. Hooper, former plant engineer for the Post Products division of General Foods corporation, died in a Battle Creek hospital on February 2. Mr. Hooper was employed by the Post Products plant for 22 years, first serving as powerhouse superintendent and then as plant engineer, a position he held for ten years. He retired about two and a half years ago because of illness. Before his employment by Post Products, Mr. Hooper was associated with the Consumers Power company in Lansing, Jackson, and Battle Creek. He is survived by his wife, a daughter, and two sons.

Julius Chapin is located at 1450 Pallister, Detroit, as horticulturist for the Lohrman Seed company.

Eugene Hallock, principal materials engineer for the War department, lives in Washington, D. C. at 3811 Beecher Street N. W.

James Matthews heads the materials unit, machine tool branch, of the War Production board in Washington where he and Mrs. Matthews (**Irma Himmelberger**, w'08) live at 3051 Idaho avenue.

1911

C. B. Tubergen is located at Milwaukee, Wisconsin, with the Surplus Marketing administration with offices at 1050 Empire Building.

1912

30th Anniversary, Alumni Day, June 13

Horace V. Geib is principal research inspector for the Soil Conservation Service in Washington where he lives at 2222 Eye street N. W.

1913

Word has been received of the death of **Mamie M. Knickerbocker** on December 21, 1941, in Kalamazoo, Michigan.

Joseph Bridges is a real estate broker in Detroit where he lives at 201 E. Kirby avenue.

J. V. Hilbert will spend several months in Arizona where he may be reached at Desert Village, R. 3, Tucson.

Raymond Kroodsma has accepted a position with the University of Tennessee as head of the forestry section in the experiment station. He is making his home in Knoxville at 2125 W. Clinch avenue.

G. L. Lardie, chief engineer for the Electro Metallurgical company, lives in Niagara Falls, New York, at 717 Fourth street.

1914

Carl Nilson is head metallurgist on naval ordnance at the Hudson Motor company in Centerline, and lives in Grosse Pointe at 1329 Audubon.

1915

Lowell Beal is vice president and engineer for Giffels & Vallet Inc., of 1000 Marquette building, Detroit.

Another letter from **Ming Lowe** has reached the Alumni Office, this time through **Paul Armstrong**, general manager of the California Fruit Growers exchange in Los Angeles. The letter which Mr. Armstrong received on February 8 was written on October 12 in Tientsin, where, for the last eleven years, Mr. Lowe has been manager for Metro-Goldwyn-Mayer of China. His territory last fall included Tientsin, Peking, and Tsinanfu in Shantung province. The main office is in Shanghai. Mr. Lowe recalled the years spent on the campus and mentioned many of his classmates, most of whom he has not seen since graduation. His last visit to the campus was in 1919 when he brought Chinese government students to this country to enroll in various colleges. Mr. Lowe may be reached at 43 Cousins road, Tientsin.

James E. Palmer is an investigator in the field department laboratory of California Fruit Growers exchange in Ontario, California. He lives in Claremont at 465 West 6th street.

Edgar Rice is development engineer and department head at the Western Electric company in Baltimore. He lives in Towson, Maryland, at 104 Bonnie Hill road.

Arthur L. Sayles is located in Elyria, Ohio, as trainmaster for the New York Central railway.

1916

Word has been received of the death of **Roy W. Weinburg**, of Vicksburg, Michigan, on September 8, 1941.

Floyd Carlson is executive director of the regional planning commission with offices in the Municipal building in Harrisburg, Pennsylvania.

E. G. Hamlin is superintendent of CCC Camp S-125 at Slatteryville Springs, New York.

Ruth Price and **Floyd A. Kilmer** were married on August 21, 1941, and are living in Dayton, Ohio, at 466 Shiloh drive.

(Turn to Page 16)

Alumni Day, June 13

*Other College Events Include Commencement,
Baccalaureate, Water Carnival,
And Lantern Night*

THE eighty-fourth annual commencement will be held on Alumni Day, June 13. Dr. John J. Tigert, who since 1928 has been president of the University of Florida, will give the address to approximately 850 seniors eligible for graduation. The event will be staged in the Jenison Fieldhouse at 3 o'clock Saturday afternoon.

Baccalaureate services will be held on Sunday afternoon, June 7, in the auditorium. Dr. Paul L. Thompson, president of Kalamazoo college, will speak.

According to Glen O. Stewart, director of alumni relations, there will be no blackouts to obliterate the joy and satisfaction of human companionship that comes with Alumni Day activities.

The class of 1917 will take over the Union ballroom Friday evening, June 12, for its big history-making silver anniversary. Twenty-five years ago this month a few members of the 1917 class left the campus for World War I, to be followed later by scores of other Michigan State men. According to Mary La Salle, class secretary, about 40 members of the 1917 group still live in Lansing and East Lansing.

Howard Rather, head of farm crops, is general chairman of the anniversary. Various committees have been formed and reservations for hotel rooms in Lansing and for reunion dinners should be sent to the alumni office. L. L. Frimodig, assistant director of athletics, has promised a special golf tournament for the afternoon of June 12, and "Babe" Smith, Chi Fick, and A. J. Patch have challenged all newcomers who indulge in serious card tricks. The banquet is open to wives, husbands, children—in fact it will be a 1917 family night. Details will be mailed to each class member.

President John A. Hannah announced the college will again play host to the Patriarchs' club, Saturday noon, June 13, when members of the class of 1892 will be inducted into the Fifty-Year club. The dinner will be served in the Union Memory room.

Luncheons planned for Alumni Day include those for the classes of 1897, 1902, 1907, 1912, 1922, 1927, 1932, and 1937. They will be held in the Union building, starting at 12:30. The annual

sunset supper will not be given this year because of crowded conditions at the Union due to commencement.

Other regularly scheduled events during Senior Week are the Water Carnival, June 12 and 13, and the spring term play, June 10 and 11.

H. C. Rather, '17
*He heads the Silver-Anniversary
Committee*

Summer School Facts

You should know these facts about Michigan State's twenty-ninth summer school, directed by Professor S. E. Crowe.

1. First session begins on June 23, ends July 31. Second session starts August 3, ends September 4. This arrangement provides a full quarter of work for the first time during the summer at M.S.C. It also places the college on a four quarter basis, making it possible for students to enroll at the beginning of summer school and proceed continuously on an accelerated program.

2. More than 600 courses in agriculture, engineering, home economics, applied science, veterinary science, and liberal arts are announced in the summer school catalogue. These include forestry, medical biology, physical education for men and women, police administration, business administration, hotel administration, and music.

3. Three-week and six-week courses in agricultural education, vocational education, and technical agriculture will be offered to meet the needs of teachers handling agricultural responsibilities in their communities.

4. During the second term a curriculum workshop will be provided for teachers. Any teacher or administrator with experience in educational work may enroll for the course provided he has a problem upon which he seeks a solution.

5. Courses in elementary education, meeting the requirements of the State Teachers Certification code, will be offered in the first and second sessions. These courses may be taken by principals, supervisors, and others for graduate credit.

6. One year's work in first and second-year languages is offered this summer. These sessions begin June 24 and run eleven and six weeks, respectively.

7. Beginning with the summer session, the new two-year general curriculum, established at Michigan State college recently, will accept its first students. Admission will be granted to any Michigan high school graduate, regardless of academic standing or pattern of subjects, and who is recommended by the principal on morals, conduct, and capabilities. Out-of-state students will be acted upon individually. Purpose of the new curriculum is to provide a general education for students who plan on only two years of college. Students will enroll in at least four of the following courses: survey of human biology, introduction to the social sciences, survey of physical sciences, introduction to the arts, home and family life, English writing and speech laboratory. Students will also be required to meet the regular requirements of physical education and military science.

8. For more detailed information on Michigan State's summer session write to Professor Crowe, who directs the summer quarter.

Advice On Gardening

Vegetable specialists at M.S.C. have figured out exact amounts of seeds needed for the 1942 Victory garden. Every farm family in Michigan is encouraged to have such a garden as part of the war emergency effort suggested by the Michigan War Defense board.

Amounts listed by Perry Bowser, extension specialist in horticulture, indicate these important vegetables:

Stringless green beans for a family of five to eat fresh and to can for winter use would occupy 300 feet in garden rows and would require a pound of seed. Red beets, 150 feet, one and one-half ounces of seed. Early and late cabbage should

total 200-row feet of plants from a quarter ounce of seed. Carrots, 200 feet, one ounce of seed.

Sweet corn should include some of the new and sweeter hybrids, planted at intervals to include 300 feet of rows in hills. An ounce of chard seed will plant 50 feet; two small packages of leaf lettuce seed will plant the suggested 50 feet. Those who want mustard greens can plant 100-row feet from a half-ounce of seed. Two ounces of onion seed, probably Yellow Globe, will plant 200 feet in a row or rows.

A quarter-ounce of parsnip seed will plant 100 feet. Peas can occupy 200-row feet from 1½ pounds of seed; radishes planted at intervals early in the season can use 50 feet of row space from a half-ounce of seed. Spinach seed is scarce, but those who can get it can use 1½ ounces for 125 feet. Tomato plants for a family of five need 200 feet of row space for the suggested 60 plants.

Vocational Conference

A two-day vocational conference, sponsored by State student organizations, was recently staged at Michigan State college. Forty vocations in various fields of study were discussed by specialists in the field of vocational guidance.

As the conference key-note, Dr. Alfred J. Cardell, director of the test service division of Science Research associates and professor of vocational psychology at Boston university, spoke to the student body in the auditorium.

Vocations discussed included air hostess, commercial aviation, the four branches of military service—Army, Navy, Coast Guard, Aeronautics—F.B.I., mechanical engineering, chemical engineering, forestry, wild life conservation, farm management, retailing, dietetics, interior decorating, teaching, social work, advertising, journalism, personnel, secretarial, accounting, and statistics.

Speakers, directing the round table discussions, came from Detroit, Lansing, Chicago, Cleveland, Toledo, and New York. Roger Blackwood, junior liberal arts student from Detroit, directed the conference with the aid of student and faculty assistance.

Press Notes

Sigma Delta Chi, men's national professional journalism fraternity and Matrix, local women's journalism society, entertained students and faculty at Open House in the three publication offices last January for the first time in the 73-year-old history of student publications. Pictorial displays, a demonstration of the new State News teletype machine, and refreshments highlighted the celebration.

One of the outstanding events

Highlights

"You have an obligation to your country to complete your college education in the least possible time . . . to be available for productive effort as soon as possible." So spoke President John A. Hannah in his second address of the school year to Michigan State's student body. Because of limited space in The Record it is impossible to publish his entire address. Printed copies of his talk can be obtained by writing to the Department of Publications. Below are highlights.

★ Education is the training of the mind which each one by his own activity must do for himself. Pouring facts into a mental vacuum is not education, nor can anyone educate any mind except his own. College may assist by furnishing the atmosphere and means helpful in the developing process.

★ The man of trained intelligence is a public asset. We go forward only through the trained intelligence of individuals. All of us are the beneficiaries of the trained intelligence of a few. It is this assumption that justifies the tremendous expenditures in public education. The public is contributing more than two-thirds of the total cost of your college education, and a total of almost

\$3,000,000 a year for the operation of this college. The college fees that you pay are equal to less than one-third of the cost.

★ Even if the war is a long and costly one, most of us who fight in it are going to return. We are going to marry and raise families and live normal lives. We have a fundamental, personal stake in the winning of this war. It is not somebody else's war; it is our war. It is not for the benefit of someone else, but for the survival of those decencies that will make life tolerable for ourselves, our families, and the generations that follow us.

★ Let us recognize that this is no time for less than the maximum effort in quantity and quality, and that an education or a well trained mind will always be a great asset in war or peace. The greatest contribution we can make as individuals to ourselves, to our families, and to our country is to proceed with our college training effectively and at an accelerated rate, fitting ourselves for effective service in the Army, Navy, or Marines, if that is necessary, or for useful work as engineers, veterinarians, farmers, scientists, or home economists to serve in war or in peace.

sponsored this winter by Sigma Delta Chi was the fourth annual Collegiate Press convention. Approximately 120 student journalists, professional newspapermen, engraving salesmen, and class-A high school journalism instructors attended the roundtables, clinics, and banquet.

Quartermasters Unit

The R.O.T.C. recently expanded to include a new Quartermasters unit. Officer in charge is Major J. B. Jiskra. Fifty men have been authorized for the unit on the basis of examinations taken winter term. They will be trained in services and problems connected with feeding, housing, and transporting armed forces, will be sent to the Quartermasters Service school, commissioned as second-lieutenants, and enter active duty.

M.S.C. Authors

First attempt to compile the writings of State's faculty made this winter by J. G. Duncan, assistant bulletin editor at the college, revealed that 390 articles were written by about 236 staff members. The report appeared in the winter number of the Michigan History magazine.

Man's Best Friend

An all out campus drive started last winter by Blue Key to raise funds for the purchase of a Leader Dog to be given to Paul Olson, blind liberal arts student, member of Green Helmet, and a scholar, is nearly completed.

Through individual gifts, contributions from campus organizations and proceeds from certain college dances, it is now assured that Paul will be able to train with his dog this summer at the Leader Dog league sponsored by the Lions club of Michigan at Rochester.

Major Letters

Major letters and gold miniature basketballs have been awarded nine members of the basketball squad for its highly successful season. The group consisted of four seniors, two juniors and three sophomores.

Those winning the honors were: Seniors—Chester J. Aubuchon, guard, Gary, Indiana; William R. Burk, guard, Hammond, Indiana; Joe E. Gerard, forward, North Webster, Indiana; and Melvin E. Peterson, guard, Muskegon, Michigan. Juniors—Dudley P. Jones, forward, East Chicago, Indiana, and Carl

F. Petroski, center, Schneckady, New York. Sophomores—Fred A. Stone, center, Chicago, Illinois; Roy H. Deihl (eq), forward, Sturgis, Michigan.

A minor letter was awarded to Oliver G. White, sophomore forward from Cleveland, Ohio.

Former Professor

From the San Francisco Chronicle comes the following news:

"Dr. William F. Durand, Stanford's grand old man of aviation, goes back to active duty at the age of 82, building airplanes.

He was appointed recently by President Roosevelt to the National Advisory Committee for Aeronautics, filling the position left by the resignation of Dr. Robert E. Doherty, president of the Carnegie Institute of Technology.

"Emeritus professor of mechanical engineering at Stanford since 1924, Dr. Durand first served on the committee from 1915 to 1933. He was chairman from 1916 to 1918."

Dr. Durand came to Michigan State college in 1887 as professor of mechanics and director of the shop. In 1891 he resigned to become professor of marine engineering and principal of the graduate school of marine engineering and naval architecture at Cornell university. He left Cornell in 1904 to become professor of mechanical engineering at Stanford university. Before coming to Michigan State he was an officer in the engineer corps of the U. S. Navy.

Music Festival

About 1,300 students from 34 high schools in Michigan took part in the annual Michigan State Choral festival held on the campus April 10 and 11. Edwin Stein, '38, instructor in music and director of the men's glee club, was in charge of the event on the campus.

Sponsored by the Michigan School Vocal association, the song fest included 82 soloists, 18 ensembles, 20 choirs, and 13 glee clubs from competing schools. Climaxing the musical event was a massed chorus of 1,100 voices, accompanied by the Michigan State College Symphony orchestra, directed by Alexander Schuster.

Patent Granted

Gilbert W. Hebblewhite, '06, has recently been granted a patent by the United States Patent office for a circular metal airport hangar, which offers greater convenience in the housing and removal of airplanes than the traditional square or rectangular building.

Mr. Hebblewhite claims his design of hangar is less expensive to build, offers less resistance to the wind than do structures with flat sides, and has the primary

advantage of offering entrance or egress at any point.

A graduate of M.S.C. Engineering division, Mr. Hebblewhite is a structural engineer at the Jarvis Engineering works, Lansing, Michigan.

Celebrates Anniversary

In a letter recently from Harry Eustace, '01, of San Francisco, California, came some interesting news about Harry Schuyler, '13, who recently completed 25 years of service with the Leffingwell Ranch company at Whittier, California.

On his anniversary, Mr. Schuyler was presented with a large bunch of red roses which graced his desk the morning of the celebration and a gift from his fellow workers at the ranch. Along with these presentations came messages of good wishes from his staff and the hope that he would be with them for another 25 years.

Mr. Schuyler came to Whittier 25 years ago from Winnipeg, Canada, as assistant district manager for the California Fruit Growers exchange. Today he is the manager for the ranch. During the years as manager he has contributed much to the fruit growing industry in the Whittier district and the state of California. He has also found time to take an active part in community development.

Last fall when Michigan State played Santa Clara, Mr. Schuyler entertained the boys to a Spanish barbecue and Spanish entertainment in his orange grove.

Entomologist Weed, '89

Howard E. Weed, '89, recently discussed his experiences with former entomologists at the Oregon State Entomological society, according to a dispatch from the Oregon Journal, Portland, Oregon.

Said Mr. Weed, "The study of entomology in America began in the early '70s, when Dr. C. V. Riley became the entomologist of the United States department of agriculture. At that time the Central West was overrun with a horde of grasshoppers doing millions of dollars of damage to the wheat belt. The best known entomologist of America is Dr. L. O. Howard, who for the past 20 years has been the United States entomologist. Now retired and still living in Washington, Dr. Howard is known as 'the grand old man of entomology'."

Mr. Weed, proprietor of the National Iris Gardens at Beaverton, Oregon, is a fellow of the Association for the Advancement of Science. He is the author of several books on landscaping and spraying and recently donated large collections of insects to the department of entomology at Oregon State college.

Suggestions On Reading

A recent issue of the "List of Books Cataloged," put out each month by the college library, calls attention to the national defense bibliographies which have been compiled by H. G. Fitch, reference librarian. These bibliographies deal with about 30 different topics, such as, censorship, espionage, first aid, inter-American relations, merchant marine, nursing, priorities, strikes, taxation, and women and the war. The material listed includes periodical articles, pamphlets, U. S. government documents, and new books. Mr. Fitch, who adds supplements each month, will be glad to send copies to any interested alumni.

In connection with the activities of the local faculty committee on civilian morale, a panel discussion was recently held in the Union Annex to discuss "Building Morale in War Time." In the preliminary outline for the treatment of the topic, reading was itemized as a special morale builder. Librarian Jackson Towne served as a member of the panel and found no disagreement regarding the general value of reading among the panel members, but some uncertainty as

to the extent of the role that reading has played and should play now.

Mr. Towne emphasized that the number of books dealing with the war is legion, such deservedly popular items as Shirer's "Berlin Diary," Gunther's "Inside Latin America," Joseph Davies' "Mission to Moscow," and Guedalla's "Mr. Churchill" are rivaled by hundreds of others, "and anyone setting out to keep in touch with all the new war books might easily drive himself into a nervous breakdown!"

The current reading public instinctively realizes this, "and seeks relief and recreation in historical novels." Four of the biggest circulators in public libraries today are: "Frenchman's Creek," by Daphne du Maurier; "The Sun Is My Undoing," by Marguerite Steen; "The Ivory Mischief," by Arthur Meeker, Jr.; and "Saratoga Trunk," by Edna Ferber.

"Each of these classifies as a 'costume piece,' and at least three of them fall more or less into that long list of historical fiction which begins with 'The Three Musketeers' and comes on down through 'Anthony Adverse' to the present."

The four members of the Pennington family, left to right, Vera, '45, Richard, '44, Naval Reserves, Mrs. Ray (Louise Smith, '17) Pennington, and Phyllis, 40.

"We never considered going to any other school."

Family Tradition

By Ruthmary Mangold

FOR 87 years, since the founding of Michigan State college in 1855, students have come and gone like the changing of seasons along the Red Cedar. Some of them have forgotten the old school, and the pain and pleasures of college life.

But others, in fact an increasingly large number each year as figures indicate, return in proxy to relive the departed school days. At least 25 per cent of State's enrollment has been preceded by members of their families.

A recent survey reveals that about 1,500, or about one-quarter of the students now enrolled, are alumni offspring, and a surprising number of these boasts as many as three or four former State members in their families.

A few cases revealed that students had been preceded by five or more members, and one freshman coed uncovered an amazingly long line of family predecessors.

She is Vera Pennington, class of 1945, an Alpha Gamma Delta, and an active member of the varsity debate team, and the medical biology club.

Vera expressed no unusual wonder at the number in her family who have attended State. "It was always more or less expected that we would go through State," she said, in referring to

herself and her brother and sister. "For years now, someone in our family has been in school here."

In fact, it turned out that from 1907 until the present time, there have been only seven years when one of this family or a near relative has not been attending State. And these dates exclude several grandparents who were enrolled during the late 1900's.

The first in the family history to attend M.S.C. was a great uncle of Vera's. He was William A. Reddick, '63. Reddick stayed in school for only one year, however, that of 1859-1860.

He was followed by both of Vera's grandfathers, Mark H. Smith, '85, who attended State for the year, 1881-82, and John H. Pennington, '92, who was enrolled only during 1888-89. These former State students are living in East Lansing.

Mark Smith, Vera's maternal grandfather, sent both son, Harold, and daughter, Louise, to the school which he had attended. Harold received his degree in engineering in 1914, and is now with the electrical engineering department of Louis Allis company. Louise, home economics student, graduated in 1917. She was an Ero Alphan and a member of Omicron Nu, home economics honorary.

The children of John Pennington, Vera's paternal grandfather, were Ray and Mary Marie. Ray, a civil engineer, graduated in 1917, the same year as Louise Smith, his future wife. Ray was a Delphic, a member of Beta Sigma, engineering society, and of the rifle team. He and his family live in East Lansing.

His sister, Mary Marie, received her degree in home economics in 1930, and is now teaching at Wyandotte, Michigan.

Besides this direct line of M.S.C. students, there are numerous cousins who are State alumni.

Both Grace and Mary Pennington, of the classes of 1915, and 1911, respectively, are related to this family. Grace was a home economics student, a member of Omicron Nu, and like her sister, Mary, a Feronian.

Other close relatives of this family to attend State were the Biery trio. John Biery, an engineer of the class of 1925, was a member of Tau Beta Pi, engineering society. Mabel L. Biery, 1927, was a liberal arts student, member of the liberal arts honorary, and of Phi Kappa Phi. The third of the trio was Martin L. Biery, '34, who took his pre-medical work at State, and later graduated in medicine from Michigan university. He is now with an Army Medical corps in Louisiana.

Another cousin, Grace Louise Smith, '36, was a Chi Omega, a member of Geogangue, and the Infantry Corps sponsor of that year. Grace is now doing social service work in Niles, Michigan.

And the younger generation, that is Vera, and her brother and sister, has added three more to the number who have attended State. Phyllis, the oldest, graduated as an art major in 1940. She was a member of Beta Alpha Sigma, art honorary. Brother Richard would have graduated in 1944; he was called into the Naval Reserves last year. And Vera is the last of this long line of M.S.C. supporters.

This history may not be the only one of its kind on M.S.C. records. If there are others, let's hear about them.

College Ring

(Continued from Page 3)

the new Coat of Arms, the Spartan helmet, and your choice of the date of M.S.C.'s founding, or the year of your graduation. Personal initials are engraved inside.

Price of the 10-carat gold ring is \$12 for the man's heavier ring and \$10.50 for the woman's, both plus tax. Orders or inquiries should be sent to Don Davis, Union Desk, M.S.C. Delivery will be made in approximately four weeks. A deposit of \$4 is required, the balance to be paid when the ring is delivered.

Student Life

Along The Winding Cedar

By Carolyn Tunstall

Fresh Start

After an experimental winter defense program, Michigan State college early in March coordinated its activities through an Office of Student Defense. The OSD is now headed by Richard George, junior from Muskegon, and a coordinating Defense council composed of representatives from every dormitory, sorority, fraternity and campus organization, and of faculty advisers.

Following spring term registration, almost 100 per cent increase over winter term, was reported in students enrolled in defense courses. Training now offered includes first aid, defense poster making, model airplane building, home nursing, Town Hall discussions, auxiliary police training, air raid training, telegraphy, and intra-collegiate broadcasting.

Lighter Note

Early in May you can hear the Men's Glee club and the A Cappella choir, both directed by Edwin Stein, '38, sing on alternate Wednesday afternoon broadcasts over WKAR from 5:30 to 5:45 p. m.

The Glee club has been active since mid-winter filling a varied singing schedule. So far the group has sung at the Red Cross hospital in Battle Creek and in the Fort Custer recreational center; made a tour of Detroit high schools; sung at the Michigan Press association banquet, and at the president's convocation in March.

A reserve band is being organized this month by E. D. Cooley, '41, for men who need more experience to play in the regular band and for women who wish to continue band work started in high school. More than 40 applicants answered Mr. Cooley's first call.

Something New

Something new has been added to the curriculum, and there is more to come in the summer session.

In line with the war program, courses in contemporary history, economics of war, a study of methods, motion and time factors, a survey in industrial safety engineering, a special course in lens grinding, a horticulture course in camouflage, and work in navigation offered by the mathematics department are available to students. Summer classes are scheduled for industrial cost accounting,

home economics and the war, psychology and the war, national defense and social services, and Russian. Fall term courses will include the study of astronomy and Portuguese.

Winners

The L. C. Plant award of \$50 for outstanding work in mathematics went this year to Marjorie Lesher, East Lansing, chemistry major who is minoring in mathematics. Second prize of \$25 was awarded to John Harrington, Mansfield, Pennsylvania, junior business administration student.

M.S.C. Royalty

Michigan state college now has a queen of defense — Doris Buzzard, Plymouth, Michigan, junior—and about \$300 to contribute toward the national war effort. It all happened March 31 at the first Mardi Gras dance ever held on the Spartan campus. Idea for a low cost party at which Miss Michigan State would be chosen by penny votes was created by Henry Simons, junior from Panama City, Panama. Following Miss Buzzard's coronation, President John Hannah addressed the royal court.

Service

Mortar Board-Tower Guard-Spartan Women's league led the patriotic movement last January when they decided to give all profits of their Cinderella Spin to the American Red Cross or other defense activity. The same month, Lambda Chi Alpha fraternity set aside the formal dinner that usually precedes their winter term dance and used the money to buy United States Defense bonds. On February 22 Sigma Kappa sorority gave a tea dance for some of the men at Fort Custer and were afterwards dinner guests of the men. Similarly, Home Management house No. 4 entertained at dinner some former State students now in United States service. Several other groups have kept up the good work, too, including the 1942 J-Hop and the Faculty Folk dance.

Congratulations

A fine compliment has been paid to Michigan State's Town Hall by Miss Elizabeth Roberts, secretary of the National Student Federation of America

who visited East Lansing this winter. Miss Roberts congratulated State for being a leader-college in the field of defense, especially because it had organized and started Town Hall discussions of various phases of the war while other schools were still seeking a means of expression.

Town Hall began in February, under faculty assistance of Paul D. Bagwell, as a student forum divided into small discussion groups each directed by one of 16 student leaders.

Victory Talk

For the last three months between 16 and 20 Spartans have been training to participate in a Victory Speech drive, scheduled to begin for the East Lansing public in April. Speeches will be given between shows at the State theater, and, at request, before all campus organizations. Talks include sale of bonds and stamps, civilian defense, civilian morale, Red Cross war services, a series of conservation talks, and informative speeches given in cooperation with the various branches of the service. The student group is part of the larger Victory Speakers bureau, directed by Paul D. Bagwell. Student officers are Glen Wagner, president, Mary Lee Cooper, vice president, and Marian Huston, secretary and booking agent.

Fencing

Distinction came to Michigan State this winter through the founding of a national recognition society for women's fencing, Delta Gamma Mu. The honorary has grown out of Sherma Scotta, local organization whose purpose, like that of the national group, was to promote interest and skill in collegiate fencing. Members of Delta Gamma Mu instruct college women in the skill, will sponsor a dance this spring. According to Rachel Friedlund, president, several other college groups have applied for affiliation but no national charters have been granted yet.

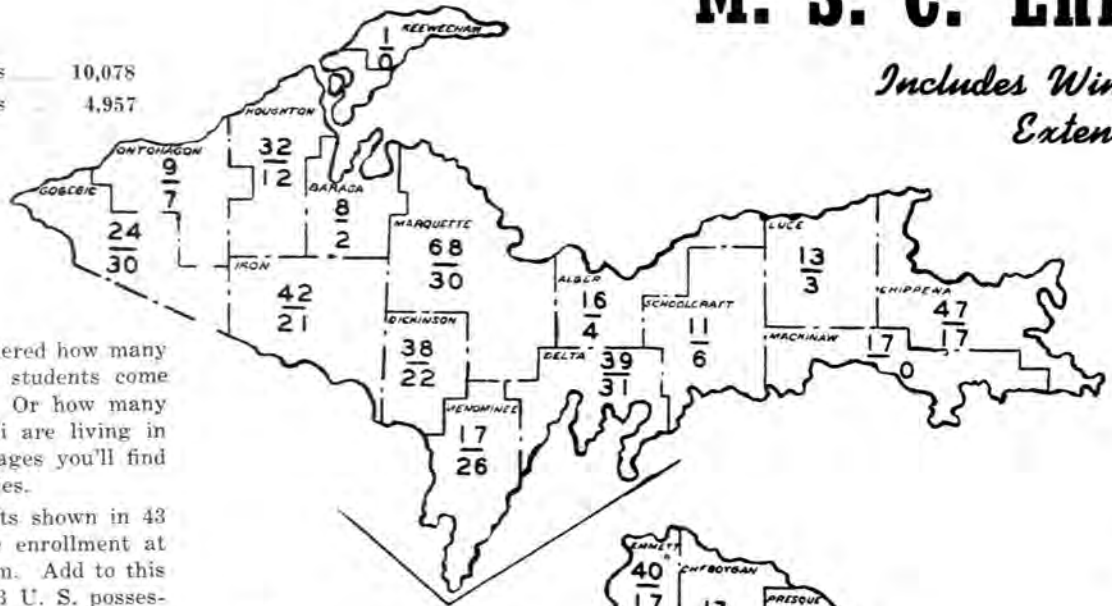

Experiments

In tune with trends in education toward resident student teaching, an experimental group of nine students in liberal arts and applied science this winter were assigned to schools in Barry county and lived in the communities for the entire term. Members of the group were given a \$60 scholarship by the Kellogg foundation. Dr. V. H. Noll, head of the education department, hopes that the experiment may be continued in the future. Vocational agricultural majors for the last few years have been required to live in school communities during their term of student teaching, and a portion of home economics practice teaching is similarly carried on.

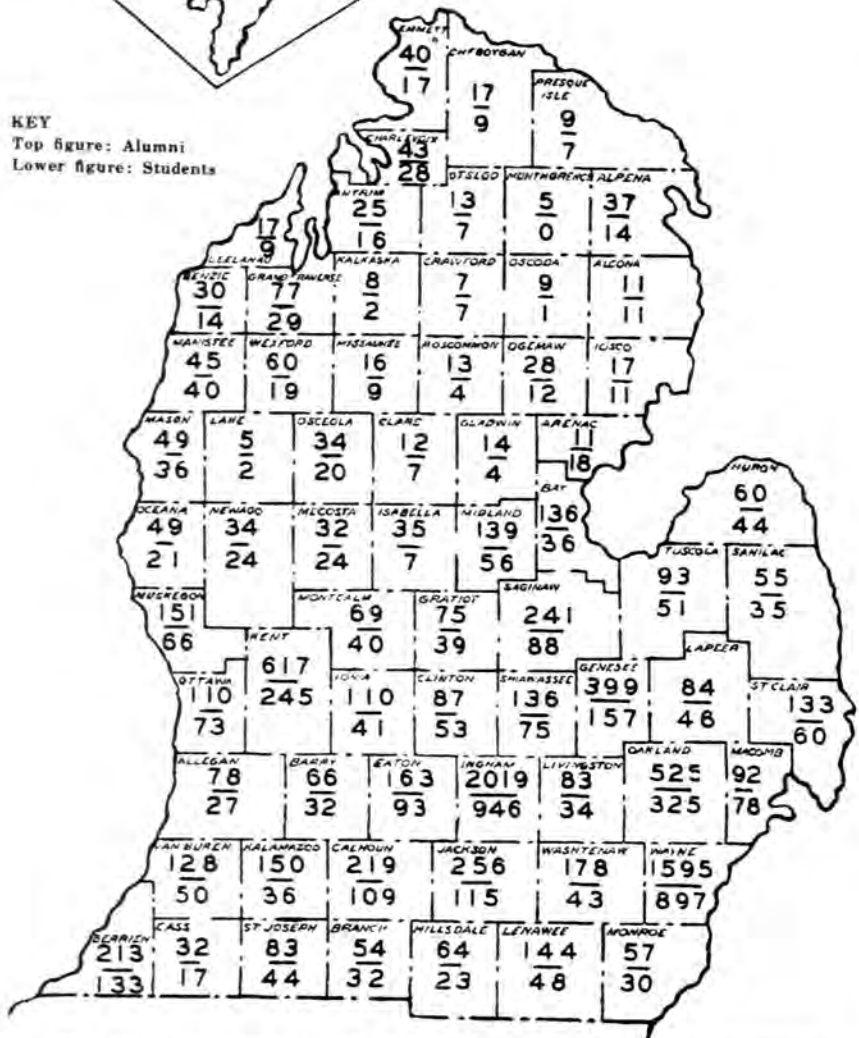

M. S. C. Enrollment

Includes Winter Term Extension,

Alumni in the 83 counties — 10,078
Students from 80 counties — 4,957

KEY
Top figure: Alumni
Lower figure: Students

HAVE you ever wondered how many of M.S.C.'s 86,198 students come from your state? Or how many of M.S.C.'s 14,550 alumni are living in your state? On these pages you'll find the answers to both queries.

There are 5,932 students shown in 43 states represented in the enrollment at M.S.C. for the winter term. Add to this figure 25 students from 3 U. S. possessions and 8 foreign countries, 1,800 summer school registrations, 51,333 4-H club members, 26,766 home extension enrollees, 342 short course students, and you'll find a yearly enrollment of 86,198.

The educational program for these students is directed, either on or off campus, by Michigan State college's staff. Although the credit received by the extension enrollment does not lead toward a college degree, these people acquire knowledge and skills to become more efficient farmers and homemakers.

In the 48 states and District of Columbia, there are 14,403 alumni whose addresses and professional interests are on record in the office of Gladys Franks, '27, alumni recorder. Add to this figure the 147 alumni in the 6 U. S. possessions and 29 foreign countries, and you have an accounting of 14,550 men and women.

The 10 states, Michigan, Illinois, New York, Ohio, California, Indiana, Pennsylvania, Wisconsin, New Jersey, Texas, which have the most alumni, also are among the first 10 from where Michigan State gets her largest enrollment. In addition, there are active clubs in those states, except New Jersey and Texas.

To show further relationship between student enrollment and alumni influence, 25 per cent of the student body stated at registration last fall that relatives, friends, and teachers had some effect on their decision to come to M.S.C. At the same time, 49 per cent of the students said courses were the deciding factor in their coming to Michigan State. Other reasons accounting for the remaining 26 per cent were location, scholarship, low cost, and the beautiful campus.

From the figures on the opposite page you'll discover several students on the campus come from the Philippine Islands and Hawaiian Islands. Others come from China, Russia, Thailand, Union of South Africa, Panama, Peru, Chile, and Canada.

In fact, Michigan State's student body of 86,198 represents people from 83 counties in Michigan, 43 states and the District of Columbia, 3 U. S. possessions, and 8 foreign countries.

The enrollment of 86,198 does not include the 2,758 men and women who attend the 25 conferences administered by the short course office for which there are registrations, nor does it include many of the 115,476 families influenced by the extension activities of the 74 agri-

cultural agents and assistants in Michigan's 83 counties.

Following Alumni Clubs

By Glen O. Stewart

Washington, D. C.

With more than 110 members and guests present on February 21, the Washington, D. C., alumni club broke all attendance records for its annual dinner meeting and program. Meeting this year at the Kenesaw hotel, President T. B. Dimick, '16, and his associates planned an unusual program. Lt. Frank Gaines, '36, at the piano, and Lt. Fred Belen, '37, secretary, handled the singing during the dinner hour.

Resolutions prepared by Dr. C. B. Smith and Dr. L. H. Dewey in memory of Matt A. Crosby and Dr. Henry Thurtell were read and approved by the group. Messages of greetings were received from President John A. Hannah and Glen O. Stewart, director of alumni relations. Campus movies loaned from the alumni office were explained by Captain Rex Lamerson, '37, and created much interest in the new development of the college. Pauline Gibson Holmes, '28, entertained with several readings and the speaker was Congressman George Dondero of Michigan.

Officers for the following year are: Mrs. Pauline Gibson Holmes, '28, president; Lt. Frederick Belen, '37, vice president; H. P. Henry, '15, secretary-treasurer.—H. P. Henry, '15, secretary.

Detroit

The date for the formal introduction of President John A. Hannah to the M.S.C. Alumni club of Detroit has been set for Saturday evening, May 2. The officers have selected W. G. Knickerbocker, '16, as general chairman, and the dinner will be held at the new Horace Rackham Educational Memorial building on Woodward avenue, at 7 o'clock. The price is \$2 a person and dress may be formal or informal.

The committee has secured Professor Roy Underwood, Professor Fred Patton, Professor Alexander Schuster, and Professor R. Tata, of the music department, to furnish music. Charles Burns, '12, principal of Northwestern High school, and president of the Detroit Alumni club, has announced that Professor W. W. Whitehouse, of Wayne university, Harvey Campbell, of the Detroit Board of Commerce, and Forrest Akers, vice president and director of sales of the Dodge division of the Chrysler corporation and member of the State Board of Agriculture, will appear on the program.

This will be the first opportunity for Detroiters to hear President Hannah

since he became president. The committee urges Detroit alumni to secure a ticket immediately by calling one of the following people: W. G. Knickerbocker, Detroit Edison Co., Meter Dept., Randolph 2100; Dean Davis, 5322 Pacific, Detroit, TYler 7-2493; Ray Plourde, 16814 Mark Twain, Detroit, or office, RANDolph 2100; Elsa Schurr Kumke, MUrray 5778; Mabel Doyle, Dearborn High school, DEarborn 4420; Jerry Winters, Pontiac, PONTiac 2811; G. Vern Branch, VERmont 6-783; Walter Ewald, CADillac 0431.—Mrs. H. W. Wilkinson, '38, secretary, phone UNiversity 1-9214.

Walter G. Knickerbocker, '16
For Detroit . . . a big party.

Buffalo

"Something New in '42" was the slogan of the M.S.C. Alumni club of Western New York for its annual March activities. Taking advantage of the Buffalo area high school visitations by Mr. Stewart and Athletic Director Young, the club staged a big sports "Nite" program at the Buffalo Athletic club, March 10. More than 50 outstanding high school athletes were guests to hear about Michigan State from the campus visitors and to view several reels of movies.

The following evening at the Touraine hotel, in Buffalo, Mr. Stewart and Athletic Director Young spoke to 60 alumni. A specially prepared welcome by President J. A. Hannah was recorded and played to the group. He reviewed briefly the fine work of the Buffalo group, gave praise, especially, to the national alumni president, Al Bibbins, '15, and described

the college war program. Mrs. Dorothy Robinson Ross, '28, in a most vivid and entertaining manner, described "Bib's" enthusiasm for M.S.C. and presented him with a beautiful set of book ends as a token of the esteem held for him by his Western New York Spartan friends.

The officers retained for another year are: Larry Kurtz, '20, president; Mrs. Dorothy Ross, '28, vice president; Richard Frey, '40, secretary, and Tom Arrigo, '21, treasurer.—Richard Frey, '40, secretary.

Jackson District

One of the first of a series of alumni talks by Professor E. C. Prophet, on "Geography in the News," was given to 85 alumni at the Jackson District club meeting, February 24. Meeting at the First Methodist church house, President Harvey E. Wessman, '25, turned the formal introductions over to George Dobben, '24, who acted as toastmaster. Group singing, led by G. K. Honsberger, '28, was followed by solos by Ted Hart, senior, from Vassar, Michigan, and several humorous readings by Miss Carol Kobe, junior, from Buchanan, Michigan. Mr. Stewart showed colored slides of the campus and discussed the changes at the college due to the war.

Officers for the following year are: Phil Bell, '33, president; L. M. Wilson (Grace Wilson Urch, '18), vice president for Jackson county; Fred F. Rogers, '21, vice president for Hillsdale county; and Miss Louise Shafer, '38, secretary-treasurer.—Marguerite Steensma, '35, retiring secretary.

Chicago Honors Hannah

One of the oldest alumni clubs in the country, Chicago, broke all previous attendance records when more than 250 people attended the Spring Garden Dinner-Dance in the Terrace Casino of the Morrison hotel, Saturday night, March 28, to honor John A. Hannah, president.

William Davidson, '12, club president, acted as toastmaster, and introduced Mr. Stewart and A. L. Bibbins, '15, of Buffalo, national alumni president. Both stressed that alumni service is the selling and reselling of our college to ourselves and to others.

President Hannah spoke on "Your College in the War," and concluded with a simple creed for which Michigan State college is dedicated. The Grace Heidt School of Ballet dancing furnished a floor show following the program and dancing provided additional entertainment. The officers of the club presented honorary memberships to Ralph G. Garvey, brother of "Speed" Garvey, '12, and to William Scott, brother of Leslie Scott. Since the club secretary, Leslie

(Turn to Page 14)

Sports Review

By George Alderton

THEY are keeping 'em flyin' along the Red Cedar these spring days. And this time, we don't mean airplanes. It's baseball, tennis balls, golf balls, and footballs that are in the air as players and coaches open a spring offensive of their own along the inter-collegiate athletic front.

Baseball

Coach John Kobs took a baseball team further south this spring than ever before, defying blowouts as well as diamond enemies. The Spartans had their share of tire troubles, but they also came back with a fair number of victories. They toured as far south as Pensacola, Florida, where they met the Naval Base Flyers' team in a series of three games, and then came back to Fort Benning, Georgia, to have a fling with the Army. All in all, the team won three games, lost three, and tied one. Coach Kobs figured a .500 record against the southern nines was about right.

The team won two out of three games against the Navy and took one engagement from Clemson. Georgia, with a powerful hitting team, beat State twice. One game with Alabama Poly Tech at Auburn, Alabama, was rained off.

Coach Kobs was not satisfied with the team's hitting on the trip, and remained worried over the left side of his infield. Third base and shortstop berths remained wide open as the home campaign opened. First base, with Joe Nelson and Bob Young fighting it out, was also in doubt. Willie Davis seems installed at second, and the outfield is pretty well established with Wy Davis, Captain Bill Fitzsimmons, and Frankie Pellarin in the gardens. Howard Ladue has gone from left field to catcher. Al Jones was slow in rounding into pitching form, but Joe Skrocki appeared up to snuff and Dick Bernitt, Colin Getz, and Bob Telder are reserves who look much improved this year and just about rate varsity designation.

Tennis

The tennis team played three matches in the Southwestern conference during spring vacation. Playing without the services of Bill Maxwell, who rates one-two on the team, the netmen beat Arkansas, 8-1, then dropped two matches to Oklahoma by 3-6, 4-5 counts. Maxwell was busy winning a NCAA 136-pound wrestling championship at home while his court mates were on tour. Only

National Wrestling Champions

Above are the Jennings twins, Burl, left, Merle, right, and William Maxwell, center. The decorative scene provided a patriotic setting for the presentation of awards at the National Collegiate Wrestling tournament held in the Jenison fieldhouse.

other letter man available is Captain Frank Beaman. Coach Ball has his hands full shaping the rest of the squad out of a bunch of green sophomores.

Golf

Golf is really a worry to Coach Van Alstyne. The veteran Spartan mentor hadn't any notion of a lineup for the early matches, and said that prospects were that he would not have a team established before mid-season. All new hands are reporting.

Wrestling Champions

Staging of the National Collegiate Athletic association wrestling tournament in Jenison fieldhouse during spring vacation was another in a series of major athletic events which have come to the campus in recent years.

Oklahoma A. & M. won the team title, but not without Michigan State giving the famous Aggies a terrific battle for the honors. The Aggies placed first with 31 points, and State was second with 26. Three Spartan wrestlers won national championships. The Jennings twins, who have become famous

nationally in the two years they have wrestled here, successfully defended their titles. Merle (Cut) Jennings won at 121 pounds, and Burl (Bo) Jennings won at 128 pounds. The other title went to William Maxwell at 136 pounds. Bill was second last year. Captain Leland Merrill placed third in the 155-pound class, despite a leg injury he sustained in a semi-final bout.

There were 79 contestants from 23 different colleges and universities. The meet was highly successful, and Athletic Director Young and Coach Collins were showered with compliments by coaches, officials, and contestants for the smooth and competent manner in which the two-day event was staged.

Spring Football

This is a re-building year in football, so Coach Charley Bachman and his capable staff are toiling strenuously in spring drills. Of the starting team that finished the 1941 season, only two players—Left Halfback Dick Kieppe and Right Halfback Walter Pawlowski—are sure of returning. All the others will graduate, enter the service, or have finished their period of eligibility. There

is a prospect of 15 letter men returning. The same number has passed beyond the call of Coach Bachman.

The crop of sophomores is better than usual. Spring practice has revealed that reserves from last year's team will have to hustle if they expect to move into varsity jobs. Perhaps the leading prospect is Captain Vincent Mroz of last year's freshman team. "Vinc" is a 200-pound end who has quickly proved himself. It's a little early to mention the sophomores as first line replacements, but some of them are headed that way.

1942 Schedule

The schedule for next fall is really big league. Santa Clara, because of war restrictions in the San Francisco area, asked to be relieved of its game. So Oregon State, the Rose Bowl champions, was substituted. It is to be a home game. Shifting of the schedule left a vacancy on October 24, so Athletic Director Ralph H. Young and Coach Bachman proposed Great Lakes Naval Training station for a home game, and the council and faculty approved it.

Nine games! Here they are:

- Oct. 3—Michigan, Ann Arbor
- Oct. 10—Wayne, Macklin Field
- Oct. 17—Marquette, Macklin Field
- Oct. 24—Great Lakes Naval Training Station, Macklin Field
- Oct. 31—Temple University, Philadelphia
- Nov. 7—Washington State, Pullman, Washington
- Nov. 14—Purdue, Macklin Field
- Nov. 21—West Virginia, Macklin Field
- Nov. 28—Oregon State, Macklin Field

Crosthwaite

The athletic department was saddened by the news that Duane E. (Buck) Crosthwaite, of Detroit, had met his death as a co-pilot of an Army bomber in Oregon. Duane, who played left half-back here in 1939, was the first varsity letter man to make the supreme sacrifice in the present war. Those who knew him here will always remember him as a fine young gentleman, a loyal teammate, and an earnest youth who always gave of himself freely for others. A large delegation of his former teammates, friends, and coaches attended his funeral rites at Jackson, Michigan.

Physical Education

Just about every able-bodied man in college is appearing at the gymnasium these days for athletic training. Under a new policy of compulsory physical

education many more students are enrolled in physical education. The staff is carrying an unusually heavy load of classes in order to accommodate the added number. Sophomores, juniors, and seniors have joined the freshmen in regular "workouts" to maintain their health and to harden them for exacting tasks which lie ahead.

Following Alumni Clubs

(Continued from Page 12)

Scott, '35, was leaving for the Navy the following week, the club presented him with a Navy correspondence writing kit and expressed its appreciation to him for the loyal work he had rendered the group for several years.

Officers for the following year are: William Davidson, '13, chairman of the advisory board; C. Earle Webb, '12, of the American Bridge Co., president; Gil Daane, '09, vice president; Miss Nellie Fredeen, '17, secretary, and Mrs. Bishop Adams (Mildred Farwell), '15, treasurer. The office of the new secretary is the Home Service department, Peoples Gas, Light & Coke Co., Room 519, 122 South Michigan avenue, Phone Wabash 6000. Chicago alumni are requested to phone or send changes of addresses.—Miss Nellie Fredeen, '17, secretary.

Grosse Ile

"Down River" Wayne county alumni held a party on March 19 when Lawrence Krueger, w'31, superintendent of Grosse Ile high school, invited Mr. Stewart to talk to the alumni and parents of undergraduates. After a pot-luck dinner Mr. Stewart told of the changes at the college due to war conditions and followed his talk with colored slides of the campus.

Oakland County

The annual dinner meeting of the Oakland County alumni club will be held at the Birmingham Community house in Birmingham at 7 o'clock, Wednesday evening, April 29. President "Marty" Rummell has an active committee planning a program for all groups.

Of interest to women will be a special talk by Dr. Thelma Porter, '23, head of the nutrition work of the Home Economics department, on "Nutrition on a War Basis." Mr. Stewart will show college pictures and Professor Prophet will discuss, "Geography in the News." Special music will be provided. Reservations are necessary, and anyone in

Oakland county interested in Michigan State should send reservations to Harold Gasser, 768 Suffield, Birmingham, Michigan.

Calhoun and Branch Counties

The American Legion Club house in Battle Creek was the scene of another successful dinner meeting of the alumni of District 9, April 8. Under the direction of Emory Gregg, '33, several active committees planned entertainment provided by undergraduates of the college speech and dramatics department. Don Buell accompanied the group. Mr. Stewart explained the college war program and Professor Prophet spoke on "Geography in the News." "Bill" Wood, '19, toastmaster, made the Fort Custer boys feel right at home.—Nina Evans Chipman, '30, secretary.

Lenawee County

A new "club baby" was born at the Lenawee hotel in Adrian, Wednesday evening, April 15, when the alumni and friends of Michigan State college formed the Lenawee District M.S.C. club.

Organization committees, headed by Mrs. Dean Gordon (Fern Blanchard, '34), worked for months to organize the new group, and with Mr. Stewart present for our first banquet, we got off to a flying start. His pictures of the campus and his challenge to alumni in assisting the college during the war crisis has given us a new viewpoint on alumni service. The remarks of Mrs. Pauline Raven Pearson, '05, of Jasper, on earlier alumni meetings, was extremely interesting. F. V. Leonardson, '14, of Tipton, acted as toastmaster.—Jerry Mandigo, '34, acting secretary.

South Bend, Indiana

South Bend, Indiana, announces to the alumni world the formation of a new club, recently, when a group of alumni and former students met at the home of Mr. and Mrs. James Thomas-Stahle, 1230 Portage avenue. Mrs. J. A. Thomas-Stahle (nee Margaret Atkin), w'38, was elected president. Mrs. W. G. Magrane (nee Elaine Flott), '38, secretary-treasurer. J. E. Skene, '39, was appointed chairman of membership, and Roland Tibbetts was named chairman of the party held at the time of the M.S.C.-Notre Dame basketball game on January 24. The dinner prior to the game was held at the Morningstar hotel, with Mr. Stewart the guest speaker. The group attended the basketball game, and the "Fighting Irish" were well aware of their presence during the contest.—Mrs. Elaine Magrane, secretary.

Days of Yore

By Joseph G. Duncan

No records are available to tell us when this picture was taken along the winding Red Cedar. We venture a guess—about 1920! Perhaps you can identify some of the students. If so, let's hear from you—at least tell us the correct year.

A great baseball fan was the late W. K. Prudden, '78. Though closely connected with the industrial development of Lansing for more than 30 years, he had found time to retain contact with his Alma Mater and was an active participant in affairs of the Alumni association, serving as president from 1917 to 1920. He died in 1926.

The college had a history of 44 years when this picture of the faculty of 1899 was taken. Sixth from the left is President J. L. Snyder. On his right is Dr. R. C. Kedzie; on his left, Dr. W. J. Beal. Directly behind President Snyder is Dr. W. O. Hedrick, '91, a member of the staff from 1891 until his retirement, September 1, 1938.

Standing beside the marker commemorating his pioneer work at Michigan State college in the control of orchard diseases by spraying is Professor Levi R. Taft, member of the staff from 1888 to 1919. He died in 1941.

1931 ATHLETICS M.A.C. R.O.T.C.
EAST LANSING MICH
MAY 10 1932

The R.O.T.C. in 1919 preferred plenty of fresh air when performing its calisthenics. In the background is the former College gymnasium, built in 1916, which is now known as the Women's gymnasium.

Prof. R. H. Pettit was connected with the Entomology department from 1896 to 1934. Former students and associates recall his great versatility. Not only did he contribute a multitude of scientific drawings and photographs of insects which have been widely used in bulletins, but he frequently exhibited his mechanical skill in various ways. His home is in East Lansing.

This multifarious antenna system of WKAR was a familiar sight to students 10-15 years ago.

NEWS

About These Alumni

(Continued from Page 4)

1917

Silver Anniversary Reunion, June 12-13

Arthur Billings reports that he has retired and is living at 909 N. Alpine drive, Beverly Hills, California.

Lou Butler is state supervisor of intake and certification for the Works Progress administration with headquarters in Lansing. She and her sister, Edith, who took some graduate work at the college and is now acting head of the art department, live in East Lansing at 1108 Victor street.

Harold Canfield is located in Rolla, Missouri, as county extension agent.

George Dettling is a material handling engineer in business for himself at 1012 Cherry S.E., Grand Rapids.

Charles E. Hebard is a surgeon with offices in the Florida National Bank building, St. Petersburg.

Ralph Henning is chief engineer for duPont in Childersburg, Alabama, and he and Mrs. Henning (Lucille Curtice) live in Birmingham at 39 Fairway drive.

David Lee is executive assistant in sales engineering at Chrysler's Fargo division in Detroit, and lives out of Pontiac on Route 3.

Robert and Josephine Rulison Olsen announce the birth of their third son, James Benjamin, on June 5, 1941. The Olsens live at 16530 Indiana

Attention, Alumni

If your address changes between now and July 15, when the next issue of The Record is mailed, please notify the office.

Every summer, hundreds of Records return because alumni have gone to vacation sites, and second class mail is not forwarded. When the Record returns, the stencil is removed and a form card sent to the alumnus. If this card is not filled out and returned to the alumni office the stencil becomes inactive and the person is officially "lost."

On every returned Record the college pays postage. This, in addition to the original postage, the fee necessary to send the magazine to your new address, and the double form card, amounts to a considerable sum. Every effort will be made to keep you on the mailing list, but in these days when savings must be effected your cooperation will be appreciated. Drop a card to the alumni office giving your summer address and also the address to which the fall issue of The Record should be sent. This will take care of your football ticket applications from the athletic office as these envelopes are addressed from alumni stencils.

This request is directed to EVERY alumnus who anticipates a change in address this summer. Send the card NOW. It will be greatly appreciated.

avenue, Detroit, where he is associated with the Ternstedt Manufacturing division of General Motors.

Stanford C. Ovatt is assistant warehouse superintendent for the Great A & P Tea company, 55 S. State street, Indianapolis, Indiana.

Claude Pope is plant engineer for the Lansing Board of Water and Light commissioners.

Lee White and **Mary K. Rahder** were married January 4 and are living at 5533 Sierra Vista, Hollywood, California, where he is timekeeper for the Lockheed Aircraft corporation.

Gordon King is working for the Firestone Plantation company in Monrovia, Liberia, West Africa, and writes: "I am living with **John Rawlinson**, '36, for several weeks to learn about rubber trees. Rawlinson has been very successful and is regarded as one of the best foresters on the plantation. As for living conditions here they are much the same as in the United States. The homes are modern and comfortable, with golf courses, two clubs, library, stores and up to date offices, and a car for each of the foresters. In the past I was under the impression that to work for some rubber concern in the tropics would be like being put on the shelf in a bare cupboard, but here there are all kinds of room for advancement and individual work. The work consists of managing one or more tracts of land, being 3,000 acres, seeing that the natives do their work right and keep their homes and villages clean, and staying in good health."

Lt. James F. McGowan and **Carolyn Schettler**, w'44, were married on February 21, and are making their home in Chicago where Lt. McGowan is at the G-2 office of the 6th Corps Area headquarters.

Lt. Gerard Baker and **Margaret Barrett** were married on March 14. Mrs. Baker is making her home at 526 Orchard street, East Lansing, while Lt. Baker is in the service.
