December 5, 1977

Dear David and Marylee,

Thank you very much for your generous support. We have now collected over \$2000 and things are proceeding well. We have ordered about 300 books from dealers in Lisbon and London and will place additional orders this week. In addition, the first batch of letters will be going out to members of the A.S.A. as well as to Liberation Support Groups and sympathetic church organizations. The mailing has taken a little longer than we had anticipated since we are dependent on volunteer labor. Nevertheless, we expect to have sent out more than 5000 personalized requests by the end of this calendar year.

A number of people who have endorsed the Mozambique Educational Fund have asked for further information to disseminate within their local communities and among friends. Others have offered to solicit funds directly. Both, we think, are excellent ideas which will help us to tap additional sources of funding and ease some of the time pressure under which we are operating. Toward this end we are enclosing 10 copies of the National Campaign letter seeking financial support as well as 10 copies of the original letter from the Minister of Education. If it is not an inconvenience we would appreciate it if you could sign it for the Committee and send both letters to 10 people who are likely to be sympathetic to Mozambique. Needless to say, if you need additional letters, we will be delighted to provide them.

Thank you for your continued support.

With fraternal greetings,

Allen Isaacman for  
The Mozambique Educational Fund

P.S. A prominent west coast artist and activist, Ruperto Garcia has designed a multi-colored Mozambique Educational Fund poster. It will cost between \$5 to \$7.50 (depending on production costs). We will be happy to send out copies in bulk (10 or more) on consignment.
