RESOLUTION submitted to/and approved by ASUCSB Legislative Council*

I. Whereas,
Section IV, Policy on Non-Discrimination, p.10 of the University of California Policies Relating to Students and Student Organizations, Use of University Facilities, and Non-Discrimination states that "All groups operating under the Regents, including administration, faculty, student governments...and programs sponsored by the University, are governed by this (policy against discrimination based upon race, religion, or national origin) policy of non-discrimination;"

II. Whereas,
Federal legislation prohibits discriminatory hiring and employment;

III. Whereas,
United Nations Resolutions A/1761 of November, 1962, and A/1889 of November, 1963, ask all member nations to discontinue arms shipments to the Republic of South Africa; and refrain from trade and investment in the apartheid government of that country, etc.;

IV. Whereas,
any and all business concerns operating in South Africa must conform to the discriminatory hiring and employment laws of the South African government; which laws include;

a. Native Laws Amendment Act, 1949, which provides for the forced movement of African (black) labor to areas short of labor supply or away from urban centers (corresponding, in type, to the forced labor camps and labor channeling techniques used by Himmler's SS during World War II);
b. Native Labor Act #48, 1953, which forbids strikes and lockouts among Bantu (African) workers. This Act, along with the Industrial Conciliation Act of 1956, demonstrate the apartheid governments refusal to allow non-white labor any voice as regards working conditions or place of employment;
c. Bantu Laws Amendment Act #42 of 1964, which provides that any African, regardless of his duration of residence or length of employment with a single employer, may be forcibly enclosed in areas outside urban population centers by labor officials of the apartheid government;
d. Industrial Conciliation Act, amended October 1964, forbids non-whites from performing supervisory or control work, welding, brazing, etc. Combined with the Job Reservation Acts and the Apprenticeship Training Acts, these laws limit the non-white (particulary the African) worker to only manual and semi-skilled positions;

V. Whereas,
a minimum of 1/3 of the corporations which recruit graduates at the UCSB Placement Center have branches and/or subsidiaries in South Africa, practice discriminatory hiring and employment, and are in direct opposition to the University of California's policies on non-discrimination,

Be it Resolved:
The ASUCSB Leg Council hereby probibits from use of any and all University facilities, specifically the Placement Center, any company or organization which practices discriminatory hiring and/or employment practices, whether domestically or abroad.

* final Resolution slightly amended.
