The struggle in Zimbabwe is far from over. Although elections will take place in 2 weeks, South Africa and its allies are seeking to prevent the birth of a genuinely independent Zimbabwe.

The Committee to Support the Patriotic Front of Zimbabwe was formed in January 1980. It is composed of over 30 community groups, Southern African liberation movements and support groups. Your participation in the committee will help to support the struggle of the Zimbabwean people for genuine majority rule.

Please fill out the form below if you're interested in knowing more about the struggle in Zimbabwe and helping with the work of the committee.
