## FIGHTING THE FAMINE

Fighting the Famine depicts the real nature of the African Famine with Mike Goldwater's 'compassionate and uncompromising' (John Pilger) photo-journalism and text by Nigel Twose. This book addresses the famine, not as the natural disaster portrayed by the media, but as the direct result of the intervention of foreign governments and agencies. Fighting the Famine shows, with photographs of the Sahel, Sudan, Tigray, Ethiopia and Eritrea, that the only long-term solution to the continent's food problem is a political one -- a return to self-reliance. Paperback, 96 pages with reading list, \$8.95. ISBN# 0-935028-22-6.

NOW DISTRIBUTED BY FOOD FIRST BOOKS

## STRANGERS IN THEIR OWN COUNTRY

### A Curriculum Guide on South Africa

Designed as a manual for high school teachers, Strangers in Their Own Country, by William Bigelow, stands alone as the only commercially published teaching unit on South Africa. It introduces students and teachers to the lives and struggles of the people of South Africa, using stories, poems, role plays, simulations, news articles and historical readings to reveal the drama unfolding in Southern Africa. Many of the lessons can be used in church, community and labor union study groups, as well as in the classroom. Written for the high school level, most of the materials are easily adapted to junior high school and college levels. Published by Africa World Press. Original Paperback, 92 pages with bibliography and student handouts, \$14.95. ISBN# 0-86543-010-1

NEW! 4-PAGE FLIERS:

**BEHIND THE HEADLINES: Myths of African Hunger.** Demonstrates how Africa's impoverishment has been several hundred years in the making, examining its root causes, and analyzing six myths about the causes of the famine and the solutions.

**ACTION ALERT: SOUTH AFRICA: Hunger in a Land of Plenty.** Analyzes the political policies which have fostered hunger and malnutrition in a country rich in the resources to feed its people. Through the system of Apartheid, the South African government deliberately impoverishes blacks while remaining among the top seven food exporting nations in the world.

Both available at usual Action Alert prices. 5/\$2; 25/\$6; 100/\$17.
