About the Artist

PAUL Goodnight

Paul Goodnight, who now lives in Boston, is a widely acclaimed artist whose works have been exhibited internationally and are featured in two shows at the National Black Arts Festival in Atlanta, August, 1990. Goodnight's work has been described as "artistic mastery"; what he expresses is the conviction that truths of the spirit can be inferred from the particulars of everyday life". His capacity for compassion and intimacy gives his paintings a sense of kindred expression, something we can all share. Goodnight's warmth, perception and quick wit show through in all his works.
