Dear Ms. Jones:

I am pleased to invite you to a program sponsored by the Boston Chapter of TransAfrica, the African-American community's own lobby on foreign policy. We in TransAfrica are especially hopeful of meeting you, as a leader of one of the Black World's student organizations in the Boston Area. We hope that through you the other leaders and members of the Black Student Union of Northeastern Univ. will come to know about our work and organization, and that you all will have rewarding contact with the broader black community here.

Although our program, announced in the enclosed flyer, starts just after the morning service at the Union United Methodist Church, you will probably want to attend the service as well, because the head of TransAfrica, Randall Robinson, will speak then, and we will be graced by the presence and remarks of the Rev. Alan Boesak of South Africa. Rev. Boesak heads the Reformed Churches there, and is one of the principal founders and leaders of the United Democratic Front, and the new Mass Democratic Movement in South Africa.

Both of them will be making some remarks and meeting us all at the tea, so if you can only come to that, it will still be a rewarding time.

The Church service will start at about 10:45 am, so mark your calendar, and mark the flyer as well, so you will remember this special feature of the program.

We look forward to meeting you then.

Ours in struggle,

Willard R. Johnson
President
