

# Liberation Posters

The Liberation Support Movement Information Center is now launching an exciting new poster series portraying international solidarity with the "Day of Angolan Women" and commemorating North Vietnam's late president Ho Chi Minh.

Complimenting these is an improved version of our "Angolan Liberation Fighter" poster, which has become increasingly popular throughout North America.

And this is just the beginning. Over the coming months we will be producing several new posters — artistically documenting and amplifying aspects of anti-imperialist liberation struggles throughout the world.

We feel that posters are an important venue for expressing our solidarity with the struggle for international socialism.
