

DEMONSTRATE AGAINST S. Africa APARTHEID AND U.S. RACISM

--INCAR CALLS FOR SOLIDARITY WITH BLACK WORKING CLASS LED, MULTIRACIAL
FIGHT BACK AGAINST APARTHEID IN SOUTHERN AFRICA

END U.S. PROFITS FROM SOUTHERN AFRICAN APARTHEID AND U.S. RACISM

So. African rulers are viciously repressing the anti-apartheid movement lead by black workers and students. Apartheid is the exploitation of workers, especially black workers, who are forced by law into below poverty level wages. Apartheid is enforced by ruthless policies of segregation.

In So. Africa, blacks constitute 84% of the population, but they are forced to live on 13% of the land. These arid and unproductive lands are called bantustans, which are really concentration camps, where "superfluous" depends and the 33% unemployed are sent to starve. Workers and students in So. Africa continue to fight back against conditions under which 53% of the black children never reach age 5; conditions under which tuberculosis and malnutrition are major child killers.

AFRICAN APARTHEID WAS CONSTRUCTED BY OPEN FASCISTS, who worked for German nazis during WWII and who continue their operation today. Since coming to power in 1948, the Nationalist party has turned So. Africa into a racist police state.

ANTI-APARTHEID STUDENTS AND WORKERS in So. Africa are being jailed and shot every day because they are rebelling, boycotting, and demonstrating against the killing system of apartheid. All balck people in So. African must carry I.D. cards, just as the Jews did in nazi Germany. Hundreds are arrested every day for I.D. card "violations." By law, black workers have no trade union rights. As you read this leaflet, black students and workers in So. Africa are being arrested and murdered for exercising ordinary democratic rights. Asians and whites who oppose apartheid are also ruthlessly repressed.

- END BANK AND CORPORATION INVESTMENTS THAT PROFIT FROM APARTHEID
- MAKE WAGE PARITY (EQUAL WAGES) FOR U.S. AND SOUTHERN AFRICAN WORKERS
- ROLL BACK RACIST UNEMPLOYMENT IN THE U.S. BY A SHORTER WORK WEEK WITH NO PAY LOSS (30 FOR 40)

THE ROCKEFELLER BANK NETWORK and other U.S. COMPANIES MAKE BIG PROFITS FROM APARTHEID. So. African industry depends on the cheap labor of millions of black workers. U.S. corporations go to So. Africa to exploit cheap labor. So. Africa has always been regarded by foreign investors as a gold mine. 353 American corporations have established subsidiaries or affiliates there. Their combined direct investment is close to 1.6 billion and their returns on that investment stand in excess of 19 per cent a year, after taxes. The big 3 auto makers control 40% of the car market. The 70% non-white wage workers average 80¢ per hour in '72. White workers received only \$1.60; racism hurts them too.

INTERNATIONAL COMMITTEE AGAINST RACISM

THE ROCKEFELLER BANKING NETWORK, WHICH INCLUDES THE ~~FIRST BANK SYSTEM OF MINNEAPOLIS~~ AND THE NORTHWEST BANKS, has made in the last few years, hundreds of millions of dollars worth of loan investments in So. Africa apartheid.

END U.S. MILITARY AND POLICE AID TO APARTHEID

- STOP TRAINING OF SOUTH AFRICAN BUREAU OF STATE SECURITY (BOSS) GESTAPO POLICE IN U.S.
- STOP MILITARY AND NUCLEAR AID AND SALES TO SOUTHERN AFRICAN GOVERNMENTS, EITHER DIRECTLY OR INDIRECTLY

U.S. POLICE AND MILITARY WORK FOR FASCIST APARTHEID. The Nationalist Party's political terror is carried out by the So. African Bureau of State Security (BOSS) which operates literally as a gestapo. In July '77 it was disclosed that the secret agents of BOSS are being trained in the U.S. and W. Germany. The So. African military is being fed by the U.S., which has supplied weapons grade uranium to So. Africa. The U.S. has encouraged its allies to sell weapons to So. Africa, some of which originate in the U.S.

RIVALRY BETWEEN IMPERIALISTS IS LEADING TO WORLD WAR.

The U.S. has supported the So. African apartheid for years. The U.S. will not allow any changes in So. Africa that will endanger European and American profits. Andrew Young said it very clearly "We cannot support a U.N. economic boycott against S. Africa because the U.S. has millions of dollars invested there" (Oct. 31, 1977). And profits depend on racism. The U.S. may support a few reforms to try to push back the revolutionary tide, but the corporate giants can never allow the U.S. to support a truly anti-racist So. Africa. The U.S. will support only those people in So African government, whether black or white, who agree to cooperate with Western business interests there. When Carter says he supports black majority rule in Africa, he means he supports black people who will play ball with the U.S. Carter has made it clear that the U.S. will go to war rather than give up business interests in So. Africa to Russia.

All of Southern Africa is the scene of IMPERIALIST RIVALRY between the U.S. and Russia. The only interests these empires have is to exploit the cheap labor to grab the resources. They will seek this through any means open to them, whether fascism or liberalism. But they can only stifle rebellion temporarily, because the multi-racial rank and file movement of workers and students in So. Africa and the U.S. alike, is growing and cannot be stopped.

SMASH APARTHEID IN SOUTHERN AFRICA & RACISM IN THE U.S.

- SMASH THE KKK/NAZIS; FIGHT FOR DESEGREGATION
- STOP RACIST IMMIGRATION RAIDS OF FOREIGN-BORN WORKERS IN THE U.S.
- STOP POLICE TERROR AGAINST WORKING PEOPLE, BLACK, LATINO, INDIAN, WHITE

U.S. capitalism is on the decline and the banks and monopolies are struggling to keep up profits. To do this they seek to regiment and speed-up workers on the job, and control the army of unemployed. Employed and unemployed workers will inevitably rebel and the big bosses will try to put us down, and then attempt to send us off to their war. To do this they are building a fascist state--more repressive cops, courts, military, politicians. And they are intensifying racist practices and ideologies. Racism is institutional inequality based on so-called "race" differences...unequal wages, health services, jobs, schools, etc.

Since corporate profits depend upon cheap labor, as they do upon cheap raw materials, racism is used to 1) divide and weaken workers, 2) reap super-profits from the extra low wages paid to minority workers, and 3) scapegoat foreign-born workers with the lie that they are responsible for unemployment. All working people, including white working people, are hurt by the upsurge of racist, fascist movements.

THE SIGNS OF FASCISM IN THE U.S. are already apparent in the violent, racist segregationist movements that are being built in Chicago, Boston, Louisville, Los Angeles and Minneapolis around the phoney issue of busing. The climate for these viscous segregationists is set up by openly organized racists such as the KKK/Nazis and the liberals. The liberal national media networks, newspapers and magazines are building the Nazi/KKK with big coverage. The same networks suppress new information about the anti-racist struggles in the neighborhoods, schools and factories. The KKK/Nazis are pushing genocide and the ACLU is defending their "right" to do it. Many liberal politicians support these and other racist organizations.

WE MUST NOT ALLOW OURSELVES TO BE TRICKED BY LIBERALS, who masquerade as anti-racists but build the system that causes and profits from racism. We workers and students do not profit from racist-fascist wars, we only die in them. Only a MULTIRACIAL, RANK AND FILE MOVEMENT OF WORKERS AND STUDENTS CAN STOP APARTHEID AND THE IMPENDING WAR and smash the racist system that's planning it.

JOIN THE INTERNATIONAL COMMITTEE AGAINST RACISM and fight for these demands which are in the interest of all workers and students. InCAR is organized on the only basis that can successfully oppose racism: 1. We are multi-racial because we must fight the forces that divide us. 2. We are a rank and file organization relying on our own experience for leadership. 3. We are a militant organization because we must translate our knowledge into action against all forms of racism in our daily lives, and 4. we are international because we must defeat a worldwide system of racism.
