TOUR OF UNITED STATES BY RUGBY TEAM FROM
RACIST SOUTH AFRICA

In September of this year a team from apartheid South Africa representing the racist rugby organization in that country will tour the United States and play matches in Chicago, Albany and New York. The announced dates are September 21 (Chicago), 23 or 24 (Albany) and New York (Sept. 26). This tour and these matches are a direct contravention of United Nations Resolutions calling for an embargo on all sporting and cultural exchanges with South Africa until the apartheid and racism have been removed in that country.

We call on all organisations to condemn this tour and to organize protests. We ask all organizations to send protests to President Reagan and to call for the withholding of visas to these racists. And we call especially for City Councils in Chicago, Albany and New York, and State Legislators in Illinois and New York State to adopt Resolutions condemning these visits and calling for the cancellation of this Tour.
