The powers that are fighting us or fighting my government, under the false pretense that they are fighting communism, are in fact concealing their real intentions. These European powers favor only those African leaders who are tied to their apron strings and deceive their people. Certain of these powers conceive of their presence in the Congo or in Africa only as a chance to exploit their rich resources to the maximum by conniving with certain corrupted leaders.

This policy of corruption whereby every incorruptible leader is called procommunist and every leader who is a traitor to his country pro-Western must be fought.

-Patrice E. Lumumba
