Points of Unity (Adopted February 8, 1977)

1. We recognize that Southern Africa is a crucial area in the search for human justice and that the Republic of South Africa is the pivotal country in the area.
2. We support the efforts of the people of Southern Africa and their liberation movement in striving to free their countries from foreign and white minority domination.
3. We oppose the role of the United States Government and transnational corporations in supporting colonial and minority rule in Southern Africa; therefore, we are committed to analyzing the issues, disseminating information about the economic, military and political activities of the United States in the region, and, when necessary, confronting the power structure.
4. We understand the direct link between the system of racism here and in Southern Africa and are committed to its elimination.
5. We recognize the need for and are committed to mobilization and educational work in the Chicago area, particularly in Black and Third World communities, but also in all communities of Chicago.
